Subject: West Central Railway-USSOR-2011.

As per Railway Board's instructions conveyed vide letter No.2009/LMB/01/03 dated 14.01.2010 West Central Railway Unified Standard Scheduled of Rates 2011 for Works and Materials has been prepared and approved by competent authority. The USSOR 2011 has been released by General Manager and issued for implementation with effect from 05 October 2011. The USSOR-2011 has been issued in supersession to the existing West Central Railway Standard Schedule of Rates, 2007 edition and it is decided that all future estimates and tender schedules shall be prepared based on this USSOR.

Detailed scrutiny of document has been done in Headquarter office and after careful examination of all the issues in totality it has been decided to ban 255 No. of items (as per list at Annexure-I) for operation till further advise. The rate of 3 items has been revised as per Annexure-II, revised rates to be adopted. All engineering officials should study the USSOR-2011 carefully in conjunction with related approved documents. Corrections/Suggestions, if any may be advised to the undersigned for consideration and improving the scope and utility of the document.

It is expected that the complete exercise of unification and standardization of specifications and SOR will help Railway organization as all possible latest cost effective solutions, modern and technologically advanced practices in construction fields have been standardized and incorporated for adoption.
