Sub: Scope of supply, installation & commissioning of IPS being procured through Stores contract.

Presently, IPS is being procured by the Railways through Stores contract as per Railway Board directives. It has come to notice that some disputes are arising regarding responsibility of IPS manufacturers under Supply, installation & commissioning portion.

The competent authority has taken the decision that since the IPS is being procured only through Stores contract and IPS systems are being delivered by the manufacturers at the consignee stores, the responsibility of IPS manufacturers shall be limited to Supply of IPS and later on its Commissioning at site when the site is ready as per pre-commissioning checklist issued by RDSO. Transportation, Installation, wiring etc. and any other civil works involved shall be responsibility of works contractor executing the work at the station.

The detailed break-up of supply and commissioning portion coming under IPS manufacturer shall be as given below. This shall apply for all future indents. Suitable modification in the specification, if required, shall be done later on.
