In case the material is transported by Road then the method of lead calculation will be as outlined above, but reimbursement shall be made maximum upto 150% of relevant rail tariff or actual Road freight, whichever is lower.

Freight (Cement) = Railway freight for rake/wagon load classification during the month of production from the nearest approved source of Cement as fixed by the

 - c) SGCI Inserts 6.2 kg per sleeper
- 2.3** Total freight as calculated above shall be added to the accepted rate immediately after the acceptance of tender on the basis of freight applicable **for the month of opening of tender**. Further change in freight shall be accounted for at the time of updating/ escalation.
