Specification for Indent No. 40400040

Specification: AC Servo Motor Motorized Treadmill for Commercial Use.

Features:

- 350 exercise modes
- Aluminium side panels and non-slip footrests.
- Integrated cooling fan
- Energy saving, High efficiency, Long lifespan, Low maintenance.
- Application: Commercial use.

Specification:

- Display: one LCM, Two dot matrix and five LED computer operation instruction display with Calories, Pulse, Incline, Speed, Distance and Time.
- With Quick Speed Button, Fan, Safety Key and Emergency Button
- 4 HP AC Servo Motor
- MCB: 4 HP Servo Driver
- Speed: 0.8~22 kph (0.5~13.75 mph)
- Gradient: 15% push button incline
- Program: 1 manual, 5 pre-setting programs (Aerobic, Cardiovascular, Fat Burn, Speed interval, Jill interval) offer 350 exercise modes, 3 target, 2 HRC
- Running size: 560 x 1575mm (22x62")
- With Hand pulse
- Heavy duty aluminium tube
- With transport wheels and shock absorber
- Max. user weight: 150 Kgs./400 lbs
