Sub: Joint Procedure order for granting permission to Overhead Power Line crossings over Railway track and Under Ground power Cable Crossings of Railway Tracks on Indian Railways.

States have been complaining on excess time being taken by Railways in granting permission for Overhead Power line crossing (including that for Railway TSSs) of Railway lines and Under Ground Power Cable Crossings of Railway Tracks. Ministry of Power in this reference requested Ministry of Railways to issue guidelines with definite timelines for issuance of the Railway clearance within one month.

2. To streamline the process and avoid delays of granting permission for Overhead line electrical crossings (including that for Railway TSSs) over railway lines and Under Ground Power Cable Crossings of Railway Tracks in a time bound manner, Ministry of Railway, Railway Board has approved a joint procedure order along with timelines for various activities as per Annexure I.

3. This must be followed as there have been number of complaints in this regard.

4. This issues with the approval of Board (MTR, ME, MT & FC).

Joint Procedure Order with Timelines for Granting Permission for Overhead Power line crossing over Railway lines and Under Ground Power Cable Crossings of Railway Tracks

SN	Activity	Timeline/Date
I	Sr.DEE/G of the concerned division will be the Nodal Officer to process the case for giving permission and the entire process will be a single window for the applicant.	
II	The application by the party be made at the Government of India website: http://ircep.gov.in/WLRMS and a hard copy so generated should be submitted in the office of Sr.DEE/G with all details including drawings, estimate, detail check sheet, sag calculation etc.	D
III	After scrutinizing the application, Sr.DEE/G will send the details to Sr.DEN/Coordination, for making the estimate for way leave charges as per the guidelines issued by Board.	(D+3)
IV	Sr. DEN/C within Seven days should provide all inputs, failing which Sr.DEE/G should work out way leave charges as per the Board's guidelines.	(D+10)
V	Simultaneously (when proposal is sent to Sr. DEN/C), a parallel proposal should also be sent to Sr.DEE/Tr.D for his perusal and comments, if any. If no comments are received in Seven days, it should be taken that Sr. DEE/Tr.D has no comments to offer and it should be considered as NOC from Sr. DEE/Tr.D.	
VI	<p>For Overhead power line crossing:</p> <p>Sr.DEE/G will make a consolidate estimate within next Three days considering Lump sum charges of power and traffic block including supervision by the relevant Railway departments @Rs.5,00,000/- per hour and submit the same for Finance vetting.</p> <p>For Under Ground power line crossing:</p> <p>Lump sum amount of Rs. 5 lakhs in the form of Bank Guarantee (BG) shall be deposited by the party towards Security Deposit against possible damage to OFC/Quard/Under ground power cable in respect of all the under ground power cable track crossing cases applied by a party in the Division. In case of damage to OFC/Quard/Under ground power cable, the party will be asked to deposit the penalty amount otherwise same may be recovered by encashing the Bank Guarantee deposited by the party.</p>	(D+13)
VII	Divisional finance should vet the estimate in next Five days.	(D+18)
VIII	Sr.DEE/G will thereafter obtain sanction of ADRM/DRM (within one week).	(D+25)
IX	Thereafter Sr.DEE/G will advise the party to deposit requisite money with the Railways.	(D+28)
X	The party has to deposit the above calculated amount within 15 days of issue of sanction.	(D+43)
XI	After deposition of the requisite money by the party a <u>single standard agreement</u> between the party and the Railway i.e., Engineering, Tr.D & Elect. General, will be done within one week of deposit of money by the Railway.	(D+50)

Sr. DEE/G

XII	After signing of the agreement the permission for power line crossing and Under Ground Cable Crossings should be issued by the Sr.DEE/G within Two weeks in consultation with Sr.DOM and the party.	(D+64)
-----	-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	--------

Further, for regular maintenance required for safe, reliable upkeep of the crossing from Railway point of view to ensure uninterrupted Rail operation due to any fault/breakdown of over head line crossings, a fixed specified One hour block per year shall be granted (without levy of charges) by Railway to the State Utility/ Transmission line owner.

The State Utility/ Transmission line owner should ensure to produce EIG sanction before charging of power line crossing and advise the date of charging of the power line to Sr.DEE/G.
