

Special Tender Conditions for Supply of Oxygen and Dissolved Acetylene Gas

1. Order quantity will be based on past performance of the same item supplied to Zonal Railways. The copies of PO and receipted challan may be attached as performance.
2. Railway reserves the right to distribute the procurement quantity amongst probable firms to ensure uninterrupted supply of the item.
3. Firm should quote clearly the basic rate, taxes/duties, freight charges (if applicable).
4. Responsibility of delivery and collection of filled/empty cylinders will lie with the supplier. No rental charges or security deposit for cylinder will be paid by Railways.
5. Delivery schedule of gas will be as per consignee's requirement. Hence firm to regulate supply accordingly.
6. Gas should be supplied in a capacity of 6 - 8 Cu.Mtr per cylinder. Accordingly, firm should specify the capacity of cylinders available with them and intend to supply cylinder in what capacity. The cylinders should conform to gas cylinder rules and should be duly approved by the Controller of Explosive, Nagpur.
7. Other terms and conditions including safety conditions, generally applicable for supply of industrial gases will be applied in this case also.
