Divisional Railway Manager

Message

Government of India has promulgated a comprehensive Disaster Management Act in 2005 which made a paradigm shift from relief centric approach to a comprehensive proactive disaster risk reduction, meticulous preparedness and effective response. Railway Board has directed for the preparation of Divisional Disaster Management Plan for prevention and mitigation of disaster, its role and responsibility in relation to preparedness and capacity building to lead with any Disaster situation. Now the word Disaster includes natural calamities like Earthquake, Floods, Hail-storms, Breaches and other manmade disasters like Terrorist acts, Bomb blasts, Chemical, Nuclear, Biological disaster etc.

It gives me immense pleasure to present the 15th (Fifteenth Edition) of Disaster Management Plan of Kota Division on the lines of West Central Railway Disaster Management Plan. Every effort has been made to update the list of Resources available and contact Nos. of Key personnel of NDRF, SDMA, Civil, Military & Railway authorities, Civil Defense and Bharat Scout etc. This Disaster Management Plan is aiming to dovetail Disaster Management Plan of West Central Railway.

The responsibilities of each and every Railway men at the Disaster spot has been identified and laid down specifically in the plan. I hope that various instructions contained in this edition of Disaster Management Plan of Kota Division will prove to be very useful in tackling a disaster in a more proactive, efficient, immediate & effective relief and restoration.

I expect all Officers and concerned staff to be familiar with provisions related to them so as to be fully prepared whenever required to do the disaster management work with full commitment and dedication. I congratulate the Senior Divisional Safety Officer and his team for preparing a comprehensive plan involving disaster risk reduction, redressed reduction preparation and response. I am convinced that with the implementation of this plan the Kota Division will get more help in dealing with the unpredictable conditions of the disaster.

Anil
07/05/2025

Gordhan Meena
IRSEE
Senior Divisional Safety Officer

A disaster is no longer means only a train accident, but its scope has become much wider to include other incidents natural calamities etc. The basic philosophy is now to be followed the sharing resources of all Government Departments along with Railways own resources available to handle serious train accidents, other mishaps, terrorism related crisis, natural calamities etc.

This is the Fifteenth Edition of Disaster Management Plan of Kota Division for the year 2025 based upon the lines of West Central Railway Disaster Management Plan. The Second Part contains information about the important Telephone Numbers of the respective Zone/Division, contact details of Para Military Forces, State Administration, Hospitals, Fire services, NGO's, Earth moving equipment suppliers etc.

Second Part consists of the Contacts/Telephone Numbers details & will be updated annually and the same should be circulated to all concerned. The duties of all the departments & individuals are fully explained. All Officer and staff must familiarize themselves with the guidelines in the plan and understand their respective role and responsibility to combat emergencies. Preparedness, quick mobilization, mobility and fast responses from all concerned including Civil Defense, Territorial Army, Scouts and Guides, RPF, Trackmen, On Board Staff from the Railways and Civil Authorities, NDRF, SDRF, NGOs, Army Organization from outside the Railways are the backbone on which a Disaster Management system rests.

I express my heartfelt gratitude to the staff of all departments, who assisted and supported in the preparation of Disaster Management Plan 2025. My sincere thanks to our esteemed PCSO Shri Pravin Khurana, DRM Shri Anil Kalra, ADRM Shri Lalit Kumar Dhurandhar, without their blessings the endeavor could not have been completed.

(Gordhan Meena)

Disaster Management Plan of Kota Division (Part - II -2025)

Chapter - 1 GUIDELINES FOR COMMERCIAL DEPARTMENT

2023/TC-III/49/1/Ex-Gratia

I/3077765/2023

GOVERNMENT OF INDIA (भारत सरकार)
MINISTRY OF RAILWAYS (रेल मंत्रालय)
RAILWAY BOARD (रेलवे बोर्ड)

Rail Bhawan, New Delhi-110001
Dated: 18.09.2023

No. 2023/TC-III/49/1/Ex-gratia

The General Manager (Claims)
All Indian Railways

Sub.: Ex-gratia relief payable in case of death/injury of railway passengers in Train Accidents and Untoward Incidents as defined under section 123 read with Section 124/124-A of the Railways Act, 1989 and to the road users in Manned Level Crossing gate accidents.

Ref: Railway Board's previous instructions to be superseded:-

- (1) 2011/TC-III/27/29/Ex-gratia dated 26.07.2012 and 07.05.2013
- (2) 2006/TC-III/27/2 dated 20.12.2006
- (3) 2002/TC-III/28/3 dated 12.06.2002
- (4) 93/TC-III/122/1/Ex-gratia dated 21.08.1995, 26.04.1996 and 18.11.1999

In supersession of Board's Instructions referred above and all other instructions issued on the above subject, it has now been decided to revise the amount of ex-gratia relief to be paid to the dependents of dead and injured passengers involved in Train Accidents and Untoward Incidents as defined under Section 123 read with Section 124 and 124-A of the Railways Act, 1989 and to the road users who met with an accident due to Railway's prima facie liability at Manned Level Crossing Gate Accident. The revised rates and compiled instructions are as below:-

1. Amount of Ex-gratia for Train Accidents Untoward Incidents and Manned Level Crossing Gate Accidents.

	Type of accident	Amount of ex-gratia for Death	Amount of ex-gratia for Grievous Injury	Amount of ex-gratia for Simple Injury
1)	Train Accident (as defined under Section 124 of the Railways Act, 1989)	Rs.5,00,000/- (Rupees Five lakh only)	Rs.2,50,000/- (Rupees Two lakh Fifty thousand only)	Rs.50,000/- (Rupees Fifty Thousand only)
2)	Untoward Incident (as defined under Section 124-A of the Railways Act, 1989)	Rs. 1,50,000/- (Rupees One lakh Fifty Thousand only)	Rs.50,000/- (Rupees Fifty Thousand only)	Rs.5,000/- (Rupees Five Thousand only)
3)	Accident at Manned Level Crossing (due to Railways prima facie liability)	Rs. 5,00,000/- (Rupees Five lakh only)	Rs.2,50,000/- (Rupees Two lakh Fifty thousand only)	Rs.50,000/- (Rupees Fifty Thousand only)

2023/TC-III/49/1/Ex-Gratia

Disaster Management Plan of Kota Division (Part - II -2025)

I/3077765/2023

2. Additional Ex-gratia relief in case of Hospitalization of Grievously Injured Passengers beyond 30 days.

In case of Train Accident	In case of Untoward Incident
Rs. 3,000/-per day to be released at the End of every 10 days period or date of discharge, whichever is earlier.	Rs.1,500/-per day to be released at the end of every 10 days period or date of discharge, whichever is earlier up to further Six month of hospitalization.
	Thereafter, Rs.750/-per day be released at the end of every 10 day period or date of discharge, whichever is earlier up to further five months of hospitalization.
(a) Lump sum amount of ex-gratia for hospitalization of grievously injured passenger upto first 30 days is as mentioned in table at para (1) above.	
(b) The maximum period for which ex-gratia is payable to the grievously injured passenger will be 12 months.	

- 2.1 This ex-gratia relief will be exclusively for passengers who are grievously injured in train accidents or untoward incidents as defined under Section 123, read with Section 124/124-A, of the Railways Act, 1989.
- 2.2 The period for treatment as indoor patient for more than 30 days would need to be certified by a Railway Doctor for the purpose of further ex-gratia payment upto the period of remaining 11 months. In case where the injured is taking treatment in other than Railway hospital, the treatment has to be certified by Railway Doctor.
- 2.3 Sr. Divisional Medical Officers shall also keep track of such injured person taking treatment in other than Railway hospitals. Sr. DCM/DCM shall keep coordination with Sr. DMO for the purpose and arrange payment of ex-gratia as per the prescribed schedule mentioned in the table in Para-2 above at the doorstep of injured person. Every care shall be taken by Sr.DCM/DCM to avoid any inconvenience to injured person in such cases.

3. Mode of Payment of ex-gratia/enhanced ex-gratia

- 3.1 Maximum amount of upto Rs. 50,000/- to be paid in cash as an immediate relief for taking care of initial expenses.
- 3.2 Remaining amount to be paid by Account Payee Cheque/RTGS/NEFT/ Any Other online payment mode.
- 3.3 Notwithstanding anything contained in Para 3.1 and 3.2 above, Railways may disburse the entire amount of ex gratia/ enhanced ex-gratia by Account Payee Cheque/RTGS/ NEFT/Any other online payment mode, if deemed appropriate.

2023/TC-III/49/1/Ex-Gratia

I/3077765/2023

Disaster Management Plan of Kota Division (Part - II -2025)

4. Other terms and conditions:

- 4.1 No ex-gratia relief would be admissible to road users in case of accident at Unmanned Level Crossing, trespasser, persons electrocuted by OHE (Over Head Equipment).
 - 4.2 Ex-gratia payment in case of train accidents and untoward incidents are not to be taken account at the time off in a claim for compensation.
 - 4.3 The amount of ex-gratia relief admissible to road users, who meet with an accident due to Railway's prima facie liability at Manned Level Crossing Gate Accident, will be counted towards the amount of compensation payable, if action is tenable against the Railways under the Law of Torts and an award is actually granted by a Court of Law.
 - 4.4 Ex-gratia payments should also be made to railway servants killed or injured by a moving train while performing their duty, for example, Gangman working on track run over accidentally by a moving train.
 - 4.5 Payments should be sanctioned/are managed preferably on the spot by a Senior Scale Officer nominated by the General Manager after making such enquiries as can be reasonably made on the spot after the immediate needs by way of medical attendance etc. to injured persons are attended.
5. This issues with the concurrence of Finance Directorate of Ministry of Railways.
 6. These instructions will come into force from **18 September, 2023**.

Kindly acknowledge receipt of this letter.

Disaster Management Plan of Kota Division (Part - II -2025)

No.: WCR/HQ/CPRO/110/2021

Date: 21.04.2021

Procedure Order Media Management – Accidents

During Accidents/Disasters, it is pertinent that factual information is provided to the public with regard to the accident and to provide any other information which is of use to the passengers thereby creating a positive public opinion and healthy relationship with the press & electronic media during difficult times of accidents.

In order to achieve the above objectives successfully and in befitting manner, A Procedure Order for Media Management stating the responsibilities and the information required to be relayed/disseminated to the media by the HQ & Division, Approvals of Competent Authority (if required) to be obtained has been listed below with the excerpts from the Disaster Management Plan along with the timelines for the same.

S.N.	Description of Work	Responsibility lies with	Approval Required	Responsibility lies with	Approval Required	Time Line
		In HQ		In Division		
1.1	On Getting Information from HQ/Div. Control or any means, PR Team as per the Duty List (to be issued by CRPO in HQ/ DRM in Division) shall reach Control Office & PR Office.	CPRO	---	Division	---	D + 15 Min.
1.2 (a)	Collection of Information about the Accident and to be given by Division to CPRO (Details in Annexure 1)	CPRO	---	Division (Nominated Officer by DRM) Division	DRM	D+ 45 Min.
1.2 (a)	Preparation of Brief of the Accident along with HD Quality Photos & Videos to be given by Division to CPRO					
1.3	Preparation of Press/ Media Bulletin by the Division to be given to CPRO Updated Media Bulletin to be given every hour (Standard Format to be used as per Annexure 2)	CPRO	GM	Division(Nomina ted Officer by DRM)	DRM	D + 60 Min. (Updated Bulletin after every hour)

Disaster Management Plan of Kota Division (Part - II -2025)

1.4	Preparation of Press Release & Suitable Clarifications/Corrections	CPRO	AGM	Division	DRM	D +180 Min.
1.5	Organizing Press Briefing/Media Interaction	CPRO (At PR Cell/HQ)	AGM	Division (At Site/Nominated Place)	DRM	Preferable Same Day & at Fixed Pre-Informed Timings subsequently
1.6	Monitoring of Social Media Channels and Preparing Reply/ Countering Fake/ Misleading Posts/News on real time basis	CPRO	---	Division (Nominated Officer by DRM)	DRM	On Real Times Basis (Within 01 Hr. of the Post)
1.7	Responsible PR supervisors should be deputed during night shift for interacting with the media, if necessary	CPRO	---	Division (Nominated Officer by DRM)	DRM	
1.8	All media releases will be uploaded on the West Central Railway Website, and a separate web page will be opened to give specific information with regard to the accident.	PCSTE	AGM	Division (Nominated Officer by DRM)	DRM	D + 180 Min.

(D- Time : Time of Accident)

Note:

1. Spokesperson:

- Only GM, DRM and CPRO are competent to interact with press and electronic media.
- Apart from the above, any other officer authorized by GM is competent to interact or give interview to press and electronic media.
- They should ensure that only factually correct and confirmed information is relayed.
- No inflated or exaggerated version of any fact should be relayed to the media.
- No railwayman shall express of voice any criticism, or express his personal opinion or views about the accident, at any point of time.

2. Press Briefing at Accident Site:

- DRM or his authorized representative shall collect factual information from the Site Incharge and relay the same to the Media and HQ. Media Bulletin should be prepared by the Division and relayed to HQ as per the timeline mentioned above. Thus an on-line communication channel will be established by the Division to keep media informed of all important details.
- CPRO or PRO should be available during press briefings in HQ.

Disaster Management Plan of Kota Division (Part - II -2025)

- There should be a fixed time for press briefing so that there is no confusion regarding different versions given to separate channels at various points of time.
- Simultaneous press briefings should be held at Accident site (if reqd.), at HQ, and at Division, as per the time intimated, so that the same version is given by all concerned.
- The priority of information release to various media will be as under:
 - TV Channels.
 - News Agencies like UNI, PTI.
 - Print Media.
- Commercial department should ensure that list of passengers who travelled by the accident involved train along with the list of dead and injured reaches the PR officials at the earliest.
- Prima Facie Cause of the Accident will be relayed to the media only with the approval of GM.

The Overall Responsibility of Coordination of Media shall be with CPRO in HQ & DRM in Division
This issues with the approval of GM/WCR.

Annexure1 (Para 1.2(a))

Information to be Collected for Press & Electronic Media

1. Nature of Accident

- Date, Time, Exact Location, Train Number, No. of Coaches/Wagons Involved
- Railway, Division, Major Section, Block Section, Line, State, District, Traction Type

2. Accident Description

- Details of How the Accident Probably Occurred
- Prima Facie Cause of the Accident(to be relayed to Media Only with the Approval of GM)
- Officers at Site
- No. of Casualty (Passenger, Railway Staff, Road Users, Others.)
 - Killed
 - Grievous
 - Simple
- Damage Description
- Traffic Disruptions

3. Rescue & Relief Work

Disaster Management Plan of Kota Division (Part - II -2025)

A. Brief

- Relief, Rescue & Restoration Description & Measures
- Onward Journey Measures
- Help Line Nos.

B. Steps taken for Uninjured Passengers:

- Steps taken to provide beverages, refreshments and first aid treatment given to uninjured passengers.
- Steps taken by railway for clearance of uninjured passengers.
- Expected time of departure of front portion of the affected train.
- Expected time of arrival at the destination.
- Expected time of departure of rear portion of accident involved train.
- Its diverted route and expected arrival at the destination.
- In case empty coaching rakes have been arranged, then details of the same.

C. Steps taken for Dead and Injured Passengers:

- Steps taken by Railway to render immediate medical attention.
- Number of passengers rescued.
- Breakup of the injured passengers, both grievous and simple.
- Name of the hospitals where injured are being treated.
- Approximately how many patients have been admitted in each of these hospitals.
- Names of injured passengers.
- Communication facilities like cell phones, STD phones provided at these hospitals.
- Payment of ex-gratia.
- Facilities offered to relatives/dependents of victims, including free pass for journeys.
- Special trains being run for bringing relatives/dependents of dead and injured.
- Number of dead bodies recovered and number of bodies identified.
- Identification of dead bodies takes much longer since either;
 - a) They were travelling alone of;
 - b) Their companions are injured and are not in a position to identify them, or;
 - c) Their companions have also been injured/dead.
- Under such circumstances it is possible to identify dead bodies only when relatives/dependents arrive.
- This aspect of identification of dead bodies and reasons for delay should be explained to the media.

D. Train Services

- Details of train operation with regard to;
 - a) Diversion
 - b) Regulation
 - c) Rescheduling

Disaster Management Plan of Kota Division (Part - II -2025)

- d) Short termination
- e) Cancellation
- Running of passenger specials for carrying relatives/dependents to the site of accident.
- These trains will be started from the originating and destination stations of the affected train and will be given same stoppages en-route for picking up relatives;
 - a) Expected departure time of relatives/dependent's special from their originating stations.
 - b) Refunds being granted in Help line Enquiry Booths for passengers whose journey have been interrupted.

4. Casualty figures:

- In all accidents, as long as Rescue & Relief work continues, there is always a difference between casualty figures given by the railway and casualty figures quoted by the media.
- The reason for this difference is that railway gives figures based on actual number of dead bodies recovered, whereas media estimates casualty figures based on the damage visible.
- During Press Briefings, this point should be clarified that till the present time, so many bodies have been recovered, whereas media estimates casualty figures based on the damage visible.
- Assessment regarding likely number of deaths and injuries may also be made if considered necessary. Such an assessment should be based on:
 - a) Total number of coaches involved.
 - b) Number of coaches searched.
 - c) Number of coaches yet to be dealt with.
- Particular reference should also be made to coaches that are crushed or that have climbed on top, and have not yet been searched

Annexure 2 (Para 1.3)

Sample Media Bulletin

(Based on the Complete Information Collected as per Annexure 1)

Updated Media Bulletin to be Serial Numbered and Provided at Every Hour Basis

1. Brief of Accident
2. Details of Affected Train
3. Helplines
4. Complete Information about Passengers of Affected Train
5. Complete Information About Train Diversions, Rescheduling, Cancellation, Termination
6. Rescue, Relief & Restoration Work – Progress & Activities.
7. Expected Date & Time of Complete Restoration

Chapter-2

Disaster Response

Role of NDMA

&

NDRF

Disaster Management Plan of Kota Division (Part - II -2025)

Disaster Response – Role of NDMA & NDRF

2.0 National Disaster Management Authority (NDMA)

National Management Authority is apex body at the National Level to issue guidelines for Policy formation on Disaster Management and to suggest measures to deal with threatening disaster situation or disaster.

2.1 Constitution and role of NDMA

National Disaster Management Authorities is constituted under the DM act the apex body in the country to deal with Disaster Management holistically. Honourable Prime Minister is the ex-officio Chairperson of the Authority. The members have also been nominated and the total numbers of members is limited to nine to be nominated by the Chairperson.

NDMA is responsible for laying down the policies, plans and guidelines for Disaster Management for ensuring timely and effective response to disaster.

State and District have also been mandated to constitute State and District Disaster Management authorities respectively on the line of NDMA.

2.2 Important Telephone numbers of NDMA:

Member Secretary & Members

Name	Designation	Telephone	Fax	E.mail id
Sh Rajendra Singh	Member & Head of the Deptt.	011-26701761, 011-26701738	011-26701716	rajendra.59@ndma.gov.in
Lt. Gen (Retd) Syed Ata Hasnain	Member	011-26701775	-	syedata.hasnain@ndma.gov.in

2.3 Mutual Assistance in case of a disaster :

As per the Disaster Management Act, various ministries and departments under Government of India should join hands for mutual assistance in case of a disaster. Assistance from local government and non-government agencies is invariably required by the Railway Administration for prompt relief and rescue operation in case of disasters affecting Railways and therefore assistance of NDRF could be of great help to the Railways. The rail infrastructure is not in an island away from the civil areas (of District/State). In case of a disaster other than a train accident, the State Government as well as the Zonal Railways would, therefore, requisition the NDRF simultaneously (for the same disaster). Coordination amongst the affected agencies (many departments of the Central Government and the State) is very important before the help of NDRF is required.

2.4 National DisasterResponse Force (NDRF) :

National Disaster Response Force is the Key Responders in any disaster situation. In serious situations, the resources of all NDRF battalions (18 teams per battalion), on an as required basis, will be concentrated in the shortest possible time in the disaster affected areas. Other important responders will be the Civil Defense, Home Guards and youth organizations such as NCC, NSS and NYKS. The deployment of the armed forces will also be organized on an as required basis. Establishment/raising of NDRF should progressively

Disaster Management Plan of Kota Division (Part - II -2025)

reduce deployment of the Armed Forces. However, Armed Forces would be deployed only when the situation is beyond the coping capacity of State Government and NDRF.

2.5 Location, Constitution and Functions :

These have been formed under the Disaster Management Act at 12 selected locations in the country for dealing with relief and rescue operations related to all types of disasters. These battalions have been made from Para military forces ie. CRPF, CISF, ITBP and BSF and have been placed in different parts of the country as shown in the list. DG, Civil Defense under MHA is additionally looking after the work of NDRF at the Centre. Each Battalion has 06 companies comprising of 03 teams each. Team comprises of 45 men out of which 24 are for Search & Rescue and balance 21 for support functions. Short-listed & trained staff is on deputation in NDRF. These battalions are also equipped to handle NBC (Nuclear, Chemical and Biological) Disasters.

Details of NDRF HQ & battalions are as under :

2.6 Coordination with NDRF:

Zonal railways should get in touch with NDRF offices at the nearby locations to have the first hand knowledge of the resources available with them and also to familiarize them with Railway related disaster situations and expose them to the issues relevant to the rescue and relief of passengers during railway accident. It has also been advised to associate NDRF in full scale exercise that is held once every year. There are no charges for availing the services of NDRF except the rail transportation which railways may provide at their cost for attending to rail disasters. Railways may also have to provide rail transportation logistics for transporting NDRF even in case of non-railway exigencies.

Disaster Management Plan of Kota Division (Part - II -2025)

The Railway Board had earlier empowered DRMs to directly requisition the relevant NDRF battalion for relief and rescue operations depending on the gravity of situation so that their services could be made available expeditiously without any loss of time.

During the meeting between NDMA/NDRF and Railway Board officials held on 19th February 2013, it was decided that HQ NDRF will draw an annual calendar for Zone/Division-wise meeting between NDRF Battalion Commandant and Railway Safety Officials for better coordination and management during disasters/major train accidents and each NDRF battalion should carry out at least one or two mock exercises/ coordination meeting with each Zonal Railway each year. The said calendar has been received from NDRF and same has already circulated to Zonal Railways.

During meeting held on 26th July 2010 between NDMA/NDRF and Railway authorities, it was decided that Railway would be associated in all future mock exercises being conducted by the NDMA and for which a copy of annual calendar of mock exercises will be provided by the NDMA and CSOs will coordinate Zonal Railways participation in such Mock exercises. Similarly, Railways will carry out mock exercises on train accident in presence of NDRF battalion Commandants.

Chapter-3

PM 10 Points Agenda Management of CBRN Disasters

Chapter-3

3.1 Prime Minister's Ten-Point Agenda for Disaster Risk Reduction

The Prime Minister, Shri Narendra Modi, enunciated a Ten-Point Agenda in his inaugural speech at the Asian Ministerial Conference on Disaster Risk Reduction 2016, held in New Delhi during November 2016 (AMCDRR), which has also been incorporated in the NDMP.

The ten key elements consist of the following:

1. All development sectors must imbibe the principles of disaster risk management
2. Risk coverage must include all, starting from poor households to SMEs to multi-national corporations to nation states
3. Women's leadership and greater involvement should be central to disaster risk management
4. Invest in risk mapping globally to improve global understanding of Nature and disaster risks
5. Leverage technology to enhance the efficiency of disaster risk management efforts
6. Develop a network of universities to work on disaster-related issues
7. Utilize the opportunities provided by social media and mobile technologies for disaster risk reduction
8. Build on local capacity and initiative to enhance disaster risk reduction
9. Make use of every opportunity to learn from disasters and, to achieve that, there must be studies on the lessons after every disaster
10. Bring about greater cohesion in international response to disasters

Given below is a description of the Ten Points of Agenda for DRR:

First, all development sectors must imbibe the principles of disaster risk management. This will ensure that all development projects - airports, roads, canals, hospitals, schools, bridges – are built to appropriate standards and contribute to the resilience of communities they seek to serve. Over the next couple of decades, most of the new infrastructure in the world will come up in Asia. This points to the need for ensuring that all the infrastructure development conforms to the best available standards of disaster safety. Such an approach is a smart strategy, which will pay off in the long term. It is necessary that all the public investments must incorporate disaster risk considerations. In India, the 'housing for all' programme and 'smart cities' initiatives represent such opportunities. India will work with other partner countries and stakeholders to build a coalition or mechanism for promoting disaster resilient infrastructure in the region. This will help generate new knowledge for hazard risk assessment, disaster resilient technologies and mechanisms for integrating risk reduction in infrastructure financing.

Second, it is necessary to work towards risk coverage for all – starting from poor households, it must cover small and medium enterprises as well as large multi-national corporations. Currently, in most countries of the region, penetration of insurance is limited

only to a narrow section, mostly in the middle and upper-middle income groups. It is necessary to think big and innovatively to widen the risk insurance cover. States have an important role in not just regulating but also encouraging coverage for those who need it the most. Some bold steps have been taken to ensure financial inclusion and risk insurance for the poorest. The Jan Dhan Yojana has brought millions of people into the banking system. The Suraksha Bima Yojana provides risk insurance to millions who need it the most. The newly launched Fasal Bima Yojana (crop insurance) will provide risk cover to millions of farmers. These are the basic building blocks of resilience at the household level.

Third, it is necessary to encourage greater involvement and leadership of women in disaster risk management. Women are disproportionately affected by disasters. They also have unique strengths and insights. India must train a large number of women volunteers to support special needs of women affected by disasters. There is also need for women engineers, masons and building artisans to participate in post-disaster reconstruction and promote women self-help groups which can assist in livelihood recovery.

Fourth, it is necessary to invest in mapping risks globally. For mapping risks related to hazards such as earthquakes, there are widely accepted standards and parameters. Based on these, India has mapped seismic zones, with five as highest seismic risk and two as low risk. For disaster risk related to other hazards such as chemical hazards, forest fires, cyclones, different types of floods, India needs to adopt globally accepted standards and categories. This will help India to ensure that there is a shared understanding of the nature and severity of disaster risks and compare with that in other parts of the world.

Fifth, efforts must be made to leverage technology to enhance the efficiency of our disaster risk management efforts. An e-platform that brings together organizations and individuals and helps them map and exchange expertise, technology and resources would go a long way in maximizing the collective impact.

Sixth, it will be helpful to develop a network of universities to work on disaster-related aspects since universities have social responsibilities too. Over the first five years of the Sendai Framework, an effort can be made to develop a global network of universities working together on problems of disaster risk management. As part of this network, different universities could specialize in multi-disciplinary research on disaster issues most relevant to them. Universities located in coastal areas could specialize in managing risks from coastal hazards, and the ones located in the hill cities could focus on mountain hazards.

Seventh, utilize the opportunities provided by social media and mobile technologies. Social media is transforming disaster response. It is helping response agencies in quickly organizing themselves and enabling citizens to connect more easily with authorities. In disaster after disaster, affected people are using social media to help each other. Those responsible for disaster management must recognize the potential of social media and develop applications relevant to various aspects of disaster risk management.

Eighth, disaster management must build on local capabilities and initiatives. The task of disaster risk management, particularly in rapidly growing economies, is so huge that formal institutions of the state can at best be instrumental in creating the enabling conditions. Specific actions have to be designed and implemented locally. Over the last two decades, most community-based efforts have been confined to disaster preparedness and contingency planning for the short term. It is necessary to expand the scope of community-based efforts and support communities to identify local risk reduction measures and implement them. Such efforts reduce risk and create opportunities for local development and sustainable livelihoods. Localization of disaster risk reduction will also ensure that good use is made of the traditional best practices and indigenous knowledge. Response agencies need to interact with their communities and make them familiar with the essential drill of disaster response. For example, if a local fire service visits one school in its area every week, it would sensitize thousands of children over a period of one year.

Ninth, ensure that the opportunity to learn from a disaster is not wasted. After every disaster there are studies and reports on lessons learnt that are rarely applied. Often the same mistakes are repeated. It is necessary to have a vibrant and visual system of learning. The United Nations could start an international competition of documentary films that record disaster events, their scale, and relief, rehabilitation, reconstruction and recovery afterwards. Post-disaster recovery is an opportunity to not just 'build back better' in terms of physical infrastructure, but also in terms of improved institutional systems for managing risk. For this, it is necessary to put in place systems that can quickly provide risk assessments. India must work with partner countries and multilateral development agencies to establish a facility for technical support to post-disaster reconstruction of houses.

The **tenth** and last, it is necessary to bring about greater cohesion in international response to disasters. In the aftermath of a disaster, disaster responders pour in from all over the world. This collective strength and solidarity could be enhanced further if the activities are organized under a common umbrella. The United Nations could think of a common logo and branding under which all those who are helping with relief, rehabilitation and reconstruction operate.

Objectives

Along with the mandate given in the DM Act 2005 and the NDMP 2009, the national plan has incorporated the national commitments in the domain of DRR associated with the three major post-2015 global frameworks and the PM's Ten Point Agenda. Accordingly, the broad objectives of the NDMP are:

1. Improve the understanding of disaster risk, hazards, and vulnerabilities.
2. Strengthen disaster risk governance at all levels from local to centre.
3. Invest in disaster risk reduction for resilience through structural, non-structural and financial measures, as well as comprehensive capacity development.
4. Enhance disaster preparedness for effective response.
5. Promote "Build Back Better" in recovery, rehabilitation and reconstruction

6. Prevent disasters and achieve substantial reduction of disaster risk and losses in lives, livelihoods, health, and assets (economic, physical, social, cultural and environmental).
7. Increase resilience, prevent the emergence of new disaster risks, reduce the existing risks and manage the residual risks.
8. Promote the implementation of integrated and inclusive economic, structural, legal, social, health, cultural, educational, environmental, technological, political and institutional measures to prevent and reduce hazard exposure and vulnerabilities to disaster.
9. Empower both local authorities and communities as partners to reduce and manage disaster risks.
10. Strengthen scientific and technical capabilities in all aspects of disaster management.
11. Capacity development at all levels to effectively respond to multiple hazards and for community-based disaster management.
12. Provide clarity on roles and responsibilities of various Ministries and Departments involved in different aspects of disaster management.
13. Promote the culture of disaster risk prevention and mitigation at all levels.
14. Facilitate the mainstreaming of disaster management concerns into the developmental planning and processes.
15. Ensuring DRR is socially inclusive, gender sensitive and empowering.
16. Build and strengthen the resilience of poor communities to prevent disasters aggravating poverty and to protect livelihoods.
17. Enhanced mainstreaming of disaster risk reduction and climate adaptation strategies within the agriculture sector including sustainable farming.
18. Special focus on disaster risk reduction measures for agriculture and livestock.
19. Promoting resilient health systems to develop the capacities and resilience of communities to cope and recover from disaster impacts.
20. Enhance the resilience of health systems by integrating DRR into all levels of health care.
21. Promote disaster-resilient schools, colleges and other educational facilities.
22. Promote women's leadership and active participation in disaster risk reduction.
23. Strengthen efforts to mainstream DRR into water management and reduce the likely impacts of water-related hazards.
24. Strengthening and promoting the resilience of new and existing critical infrastructure.
25. Integration of disaster risk reduction considerations and measures into financial and fiscal instruments.
26. Mainstreaming DRR into development and implementation of all projects and schemes (rural and urban).
27. Strengthen disaster risk modelling, assessment, mapping, monitoring and multi-hazard early warning systems.

28. Promote comprehensive surveys on multi-hazard disaster risks and the development of regional disaster risk assessments and maps, including climate change scenarios.
29. Implementation of ecosystem-based approaches regarding shared resources, such as within river basins, mountainous regions and coastlines.
30. Effective use of science, technology and traditional knowledge in all aspects of DRR

3.2 Management Of CBRN Disasters

3.2.A Management of Chemical Disasters

i. Guidelines by NDMA:

National Disaster Management Authority (NDMA) has issued guidelines on the management of chemical disasters. These guidelines are directed more towards their prevention and mitigation of their effects, if these happen than on rescue and relief operations afterwards.

The main stakeholders in the management of chemical disasters are Ministry of Environment and Forests (MoEF; the nodal ministry); Ministry of Home Affairs (MHA); Ministry of Labour and Employment (MoLE); Ministry of Agriculture (MoA); Ministry of Shipping, Road Transport and Highways (MoSRT& H); Ministry of Defence (MoD); Ministry of Chemicals and Fertilizers (MoC&F); Ministry of Petroleum and Natural Gas (MoP&NG). Department of Atomic Energy (DAE);

ii. Salient features of NDMA Guidelines :

The growth of chemical industries has led to an increase in the risk of occurrence of incidents associated with hazardous chemicals (HAZCHEM). With their proliferation, the demands on its transportation by rail has gone up significantly. Common causes for chemical accidents are deficiencies in safety management systems and human errors, or they may occur as a consequence of natural calamities or sabotage activities. Chemical accidents result in fire, explosion and/or toxic release. The nature of chemical agents and their concentration during exposure ultimately decides the toxicity and damaging effects on living organism in the form of symptoms and signs like irreversible pain, suffering, and death. Meteorological conditions such as wind speed, wind direction, height of inversion layer, stability class etc. also play an important role by affecting the dispersion pattern on toxic gas clouds. The Bhopal Gas tragedy of 1984 – the worst chemical disaster in history, where over 2000 people died due to the accidental release of the toxic gas Methyl Isocyanate, is still fresh in our memories.

iii. Genesis of NDMA's Guidelines on Chemical Disasters:-

Effective Chemical Disaster Management (CDM) is possible by the adoption of preventive and mitigation strategies as most chemical disasters are preventable in comparison to natural disasters that are difficult to predict and prevent.

In the NDMA's Guidelines comprehensive instructions for installations and storages (including isolated storages of HAZCHEM) that contain good engineering practices for safety, accident reporting, investigation and analysis checklists and safety promotional activities as important tools for effective CDM, are provided.

Disaster Management Plan of Kota Division (Part - II -2025)

In the guidelines are instructions related to chemical accidents during transportation of HAZCHEM. The areas covered include:

- Preparation of a highway DM plan.
- Modification of rules pertaining to transport emergencies.
- Specific roles and responsibilities of MAH units, transporters, drivers, authorities and aspects related to emergency communication systems and training of various stake holders.
- The need for the development of an efficient pipeline management system.

iv. **Guidelines on Chemical Disasters:-**

Railway's guidelines/instructions relevant to the zonal railways have been issued separately in detail for taking necessary action and incorporating suitable provisions in their respective DM Plans. These guidelines will add to the existing safeguards listed in the Red Tariff on handling, storage and transportation of hazardous material.

v. **Railways Red Tariff – Transport of HAZCHEM:-**

Indian Railways have also been transporting chemicals and hazardous materials e.g. petroleum products (petrol, Naphtha, HSD, etc.), Caustic soda, Alcohol, compressed gases (LPG gas etc.) Chemical manures, Acids, Matches etc. These goods are carried either in the SLRs or in the Parcel Vans or in the goods wagons. Quantum and type of transportation of such hazardous material varies from railway to railway and different zonal railways need to prepare themselves based on the type and extent of hazardous material being handled and transported by them.

Indian Railway's Rules for carrying dangerous (hazardous goods) by rail have been legislated in the Railway Red Tariff Rule 2000 as per which dangerous goods have been classified into following 8 classes:

- a. Explosives
- b. Gases, Compressed, liquefied or dissolved under pressure
- c. Petroleum & other inflammable liquids
- d. Inflammable solids
- e. Oxidizing substance
- f. Poisonous (Toxic Substances)
- g. Radio-active substances
- h. Acids & other Corrosives.

Chapter I to VIII deal with the above classes of dangerous goods which include General rules governing acceptance, handling, Carriage, storage, delivery, DO's & Don'ts, precautions and the list of commodities included in that class. Carriage of Goods of a hazardous nature other than those specified in these chapters shall not be accepted for transport by rail unless specially authorised by the railway administration as provided under these Rules.

Out of the above 8 classes of dangerous goods, classes II (Gases, Compressed, Liquefied or dissolved under pressure), III (Petroleum and other inflammable liquids) and VIII (Acids and other corrosives) are dealt in bulk on the railways whereas other classes of dangerous

goods are dealt in piecemeal/small quantities in parcel vans/SLRs. Railways may refer to the specific paras pertaining to all these classes of dangerous goods.

vi. **Rescue Relief and Restoration Operations:**

Railway's expertise in dealing with the mis-happenings like spillage, catching fire etc. of these dangerous goods is very limited. It is therefore imperative that the respective zonal railways will develop and nurture coordination with those agencies and Organizations on their system that have expertise in dealing with the hazardous material being handled and transported on the respective zonal railways. Contact details e.g. Name, Designation, Telephone Nos., Mobile Nos. etc. of such agencies should be available in the Divisional and Zonal Railway Disaster Management Plan so that these agencies can be called for without any delay during any untoward incident. Nominated staff of ARMVs, ARTs and few of the staff maintaining the rolling stock which is used for transportation of hazardous material may be trained and equipped with the equipment used for dealing with such material.

vii. **Preventive Action in the Rail Route of Movement of Hazchem**

Divisions located on the "Hazchem Rail Transportation Highways" have to be in close touch with specialized services available with IOC/GAIL and Pvt. Chemical Factories and NGOs to be able to call upon their men and fire fighting fire extinguishers etc at short notices.

Vulnerability on this Highway needs to be reduced by the removal of Jhuggies from close to the track (say till at least 50 m away). This is essential as in the case of derailment of Naphtha loaded (or even POL Tank Wagon etc) train, there is a high possibility of spillage of the dangerous products and its spread over a wide area. These products are highly prone to catch fire and even explode, resulting in fire in the Jhuggies etc.

3.2.B Management of Biological Disasters:

i. **Causes of Biological Disasters:-**

Biological disasters might be caused by epidemics, accidental release of virulent microorganism(s) or Bioterrorism (BT) with the use of biological agents such as anthrax, smallpox, etc. The existence of infectious diseases have been known among human communities and civilizations since the dawn of history.

In recent times travelling has become easier for which Railways have made a significant contribution. More and more people are travelling all over the world which exposes the whole world to epidemics. As our society is in a state of flux, novel pathogens emerge to pose challenges not only at the point of primary contact but in far removed locations. The Marburg virus illustrates this. The increased interaction between humans and animals has increased the possibilities of zoonotic diseases emerging in epidemic form.

ii. **Biological Warfare (BW) and Bio-Terrorism (BT):-**

The historical association between military action and outbreaks of infections suggest a strategic role for biological agents. The advances in bacteriology, virology and immunology in the late 19th century and early 20th century enabled nations to develop

Disaster Management Plan of Kota Division (Part - II -2025)

biological weapons. The Biological and Toxin Weapons Convention, however, resolved to eliminate these weapons of mass destruction. Despite considerable enthusiasm, the convention has been a non-starter.

iii. **Mitigation:-**

The essential protection against natural and artificial outbreaks of disease (bio-terrorism) will include the development of mechanisms for prompt detection of incipient outbreaks, isolation of the infected persons and the people they have been in contact with and mobilization of investigational and therapeutic countermeasures. In the case of deliberately generated outbreaks (bio-terrorism) the spectrum of possible pathogens is narrow, while natural outbreaks can have a wide range of pathogens. The mechanism required however, to face both can be similar if the service providers are adequately sensitized.

iv. **Nodal Ministry and support of other Ministries:-**

The response to these challenges will be coordinated by the nodal ministry-Ministry of Health and Family Welfare (MOH&FW) with inputs from the Ministry of Agriculture for agents affecting animals and crops. The support and input of other ministries like Ministry of Home Affairs, Ministry of Defense, Ministry of Railways and Ministry of Labour and Employment, who have their own medical care infrastructure with capability of casualty evacuation and treatment, have an important role to play. With a proper surveillance mechanism and response system in place, epidemics can be detected at the beginning stage of their outbreak and controlled.

v. **Handling CBRN Disaster – Training:-** For handling and to provide medical relief for all CBRN disaster which (include a Biological Disaster) and mitigation of BW and BT affected Railway staff, need to be incorporated in the Hospital DM Plan. Training of a skeleton numbers of Medical Doctors in each Divisional Railway Hospital to manage CBRN casualties is to be organized.

vi. **Management of Chemical (Terrorism) Disasters:**

Introduction:- A terrorist attack involving chemical agents differs from a normal terrorist attack as it results in specific effects on health and can cause fatal injuries, create panic, and affect the morale of the community. The targets of terrorists include market places, densely populated areas, public functions, important dignitaries, water and electricity supplies, restaurants/food plazas, malls, places of entertainment, busy railway stations in metros and critical and sensitive military, civil and economic institutions.

Chemical terrorism is an act of violence to achieve professed aims using chemical agents. These chemical agents include poisonous gases, liquids or solids that have a deleterious effect on the biotic and non-biotic environment. Due to the relatively easy availability of hazardous chemicals in Major Accident Hazard units, storages and during transportation, terrorists can procure chemicals or even try to sabotage the facilities or transport vehicles as it offers them an easier and often more catastrophic method of anti-national activity. The

mode of dispersal used for chemical agents would range from dissemination of aerosolized material to contamination of food and water.

vii. **NDMA's Guidelines :-**

The possibility of a chemical terrorism attack can be minimized by spreading general awareness and building the capacity of the community, institutions, and governmental and non-governmental organizations.

The approach followed in the NDMA's Guidelines lays emphasis on :

- i) Security and surveillance measures for installations manufacturing/ using/storing chemicals.
- ii) Strengthening intelligence regarding the movement of chemicals.
- iii) Preparedness for counter-terrorism measures:
 - (a) Issues regarding the safety of chemicals and risk reduction strategies etc.
 - (b) Strengthening of response through rescue and emergency medical resources.
 - (c) Preparedness of all emergency functionaries in terms of protection, detection, decontamination, de-corporation, capacity building and infrastructure development.
 - (d) Community-centric mechanism for the management of chemical (terrorism) disasters.

viii. **CTD Preparedness Plan :-**

Implementation of the Guidelines at the national level shall begin with the preparation of a detailed action plan (involving programmes and activities) by the nodal ministry (MHA) that shall promote coherence among different CTD management practices and strengthen mass casualty management capacities at various levels. The concerned ministries like MoD, MoEF, Ministry of Railways (MoR), MoL&E (through Employees' State Insurance Corporation (ESIC), MoA etc., will also prepare their respective CTD preparedness plan as a part of all hazard DM Plans. The Railways has an important role in the management of mass casualties in the event of national calamities, they should also cater for developing additional capacities besides meeting their own requirements in their preparedness plan.

Railway Board has issued guidelines on precautions in handling, storage and transportation of chemicals. These are to supplement the guidelines laid down in the Red Tariff. The Commercial Department may keep the RPF official updated on the Goods Sheds which handle Hazchem so that adequate security systems can be strengthened. This may be a part of the Divisional DM Plans.

ix. **Preparedness for Emergency Response:-**

Preparedness for an emergency response at the incident site requires protection, detection, and decontamination. RPF and the Medical Department have a role to play in the relief and mitigation efforts. SOPs are required for all the emergency responders working under the overall supervision of the incident commander. This may be identified in the zonal DM Plan as the DRM of the respective division on the Railways where CTD has occurred. SOPs will be included for field decontamination. A well-orchestrated medical response to CTD will be possible only by having a command and control function at the divisional level by the

Medical Department. The CMO/CMS will be the main coordinator for the management of CTD.

x. Training for the Responders:-

The Medical Department of the Railways has little or no expertise in the effects of different chemicals. This needs to gradually developed initially in a skeleton number (one or two) of Doctors and Para-medical staff in each Divisional Railway Hospital through training.

3.2.C Management Of Nuclear And Radiological Emergency (Disaster):

i. Nuclear/Radiological Emergency:-

Any radiation incident resulting in or having a potential to result in exposure and/or contamination of the workers or the public in excess of the respective permissible limits can lead to a nuclear/radiological emergency.

After due consideration of the nature and consequences of the nature and consequences of all the possible scenarios, these radiological emergencies have been broadly classified into the following five categories:

- a. An accident taking place in any nuclear facility of the nuclear fuel cycle including the nuclear reactor, or in a facility using radioactive sources, leading to a large-scale release of radioactivity in the environment.
- b. A 'criticality' accident in a nuclear fuel cycle facility where an uncontrolled nuclear chain reaction takes place inadvertently, leading to bursts of neutrons and gamma radiations.
- c. An accident during the transportation of radioactive material.
- d. The malevolent use of radioactive material as a Radiological Dispersal Device by terrorists for dispersing radioactive material in the environment.
- e. A large-scale nuclear disaster, resulting from a nuclear weapon attack (as had happened at Hiroshima and Nagasaki) which would lead to mass casualties and destruction of large areas and property.

Normally, nuclear or radiological emergencies (referred to in points (i) to (iv) above) are within the coping capability of the plant/facility authorities. A nuclear emergency that can arise in nuclear fuel cycle facilities, including nuclear reactors, and the radiological emergency due to malevolent acts of using Radiological Dispersal Devices are the two scenarios that are of major concern. The impact of a nuclear disaster (scenario at (v)) will be well beyond the coping capability of the local authorities and it calls for handling at the national level.

ii. Vulnerability of Nuclear Facilities:-

Identification of a Rail network close to a nuclear facility needs to be done by the zonal Railways.

As regards the vulnerability of various nuclear fuel cycle facilities to terrorists attacks, these facilities have elaborate physical protection arrangements in place to ensure their security. The structural design of these facilities ensures that even in the event of a physical attack, the structural barriers prevent the release of any radioactivity outside the plant area itself and hence the public are not likely to be exposed to radiation.

Disaster Management Plan of Kota Division (Part - II -2025)

While their radioactive strength is in itself a deterrent to pilferage, the radioactive sources can still be stolen and used in a Radiological Dispersal Device or Improvised Nuclear Device. Essentially, a Radiological Dispersal Device is a conventional explosive device in which the radioactive material has been so added that, on its being exploded, there would be dispersal of radioactivity in the environment.

A Radiological Dispersal Device is not a Weapon of Mass Destruction. Normally, the use of a Radiological Dispersal Device by itself would not result in fatalities due to radiation. The fatalities, if any, would primarily be due to the explosion. However, it may contaminate a reasonably large area, besides its main potential of causing panic and disruption.

Accidents during the transportation of radioactive materials are of low probability due to the special design features of the containers in which they are transported and special safety and security measures (to take care of all possible threats/eventualities, including the threat from misguided elements) which are laid down to be followed during actual transportation.

A network of Emergency Response Centers has presently been established by the Bhabha Atomic Research Centre to cope with radiological emergencies in the public domain, like transport accidents, handling of orphan sources, explosion of Radiological Dispersal Devices etc. The task of these Emergency Response Centers is to monitor and detect radiation sources, train the stakeholders, maintain adequate inventory of monitoring instruments and protective gear, and provide technical advice to first responders and local authorities.

DOs & DON'Ts for the Disaster Magistrates in the event of CBRN (Chemical, Biological, Radiological & Nuclear) disasters issued by Ministry of Home Affairs, Disaster Management Division vide letter no.32-35/2003 NDM-II dated 21.07.2017.

DOs

1. Chemical Disaster

In case of accidental release of a quantity of toxic chemicals into environment, resulting in death or injury to workers or members of nearby communities, then it is a case of chemical disaster. In the event of a chemical disaster, the District Magistrate should immediately contact-

- a) The Nodal Ministry for chemical disasters i.e. Ministry of Environment, Forest and Climate Change. Contact details: Shri Bishwanath Sinha, Joint Secretary, Tel No. +91-11-24695274(O), Fax No. =91-11-24695277, +91-11-26160515 (R) Mob: 9999711816, or to Shri Manoj Kumar Gangeya, Director, Telephone: +91-11-24695337 (O), +91-11-24695387 (F), +91-11-22246550 (R).
- b) MHA control Room: [1070(Toll Free), 011 23093563, 011 2309366].
- c) NDRF Control Room 011 24363260.

2. Biological Disaster

Biological disasters are events caused by microbial agent or its toxin in humans, animals or plants that is beyond the coping ability of the State. Such an event may occur

Disaster Management Plan of Kota Division (Part - II -2025)

due to (i) epidemic of infectious diseases caused by a microbial agent or toxin in humans, animals or plants (ii) Non-intentional accidental release of microbial agents such as from laboratories or during transportation of samples (iii) Intentional use of microbial agents to cause harm such as use of biological agents or toxins as weapons of mass destruction (biological warfare) or (iv) microbial agents or toxins used by terrorists to cause panic/harm to humans, crops or livestock (bioterrorism/agro-terrorism).

In the event of Biological disasters, the District Magistrates should immediately contact:

- a) The nodal Ministry for Biological disasters i.e the Ministry of Health & Family Welfare. The contact details: Shri Lav Agarawal, Joint Secretary, Tel. No. 011-23061195 (O), 011-26889166 @ mob: 9818778177, or to Dr.P. Ravindran, Addl, DDG & Director EMR. Tel No. 011-23061302 (O), 011-45639559 (R), Control Room-23061469.
- b) MHA control Room: [1070 (Toll Free), 01123093563, 011 2309366].
- c) NDRF Control Room 011-24363260.

3. Nuclear/Radiological disasters-

Any radiation incident resulting in or having a potential to result in exposures and/or contamination of the workers public or environment in excess of the respective permissible limit can lead to a nuclear/radiological emergency.

In case of theft/loss of radioactive source from the institution/industrial unit/hospital premises/during transportation, it would normally be noticed first by the field person responsible for handling the same. The head of the concerned organization would be next person to get this information from his own field person. He in turn, would bring the incident to the notice of the local police station as well as to the Atomic Energy Regulatory Board (AERB) who is the regulator (as per Radiation Protection Rule 2004 under the Atomic Energy Act) for transportation, storage and use of radiation sources in the public domain. This will be the trigger mechanism for initiating any mitigation process by state agencies. Further in case of loss/theft of radioactive sources, the recommended response plan/SOP for recovery/retrieval and disposal of the radiological source would be as follow:

- a. AERB will inform the Crisis Management Group (CMG), DAE through DAE Emergency Control Room (DAE-ECR), Contact Details of 24*7 operational DAE-Emergency Control Rooms are – main DAE-ECR [022-22023978, 022-22021714,(Mobile) 09969201364] & alternate DAE-ECR [022-25991070, 022-25515283,(Mobile) 099692013651]. In addition, it is envisaged that the concerned public officials will follow their own SOP & intimate the concerned agencies for ensuring appropriate response.
 - i. MHA Control Room: [1070(Toll Free), 011 23093563, 011 2309366].
 - ii. NDRF Control Room 011 24363260
- b. Expert response agencies (police/NDRF/relevant state authorities) after reaching the incident spot, if feel that they need an expert advice or technical support from nodal ministry (DAE); they should contact CMG, DAE through DAE-Emergency Control Room. While informing, they are requested to provide exact location, contract numbers of

Disaster Management Plan of Kota Division (Part - II -2025)

concerned DM/SP/local police station and details of incident with brief description of the object (if possible, along with photograph taken from the distance).

- c. Upon receipt of such information, the CMG, DAE will get activated and will get in touch with the local authorities to decide about further course of actions.
- d. CMG will decide and constitute a team of experts as per requirements. The team of experts will be dispatched to the site by quickest means possible.
- e. Member Secretary, CMG (who is also the designated Nodal Officer of DAE) will get regular updates from concerned DAE experts/field agencies and will keep concerned authorities informed and as per scenario, will also keep MHA Control Room updated.
- f. DAE experts on recovery/retrieval of the source will examine the integrity of the radiation source & accordingly, AERB will decide about further course of action regarding safe keeping/disposal of the material.
- g. Responsibility of source transportation of radioactive material from incident site to a safe storage place should be undertaken by local police.
- h. If there is local contamination due to radioactive material, decontamination activities should be taken up by expert response agencies like NDRF and/or be performed under guidance of DAE's technical experts. Local district authorities should provide adequate resources for handling and transportation of the contaminated material to the safe disposal site.
- i. In case required, media briefing will be done by the designated state official. He may seek technical inputs from AERB, if he desires.
- j. After recovery/retrieval of the source and after completing of activities related with decontamination and safe disposal (as per scenario requirements), with due concurrence of AERB, the closure of radiological emergency scenario will be declared by the concerned DM/SP.

DON'Ts

For response to CBRN Emergency:

- 1. Don't send untrained responders/volunteers.
- 2. Don't send trained responders without proper PPEs and detection equipment.
- 3. Don't send responders without taking proper guidance from the Nodal Ministry/Department.

Chapter-4

Standard Operating Procedure for dealing the Fire cases

Fire and Emergency Services (F&ES)

The Fire and Emergency Service (F&ES) fall within the mandate of the urban local bodies (Municipalities/Nagar Palikas) as per constitutional provisions (Section 7, Schedule 12, Article 243W). The administrative and operational structures and systems vary from state to state. Presently F&ES are organized by the concerned States and UTs with the MHA rendering advice on protection, prevention, reforms and legislation. The primary role of F&ES is of responding to fire incidents. However, besides firefighting, F&ES attends to other emergencies such as building collapse, road traffic accidents, human and animal rescue, and several other emergency calls. F&ES also takes part in medical emergencies. The role of F&ES has become multi-dimensional. The role of F&ES extends to the domain of prevention, especially in urban areas. F&ES is an integral part of the group of agencies responding to disaster situations. F&ES is one of the first responders during the Golden Hour after a disaster and plays a vital role in saving lives and property. Therefore, it is imperative to adequately equip and develop the capacities of F&ES. Further, continuous training should also be provided to the fire staff in using and maintaining the equipment.

F&ES is a key element in the emergency response system. It comes under the 12th schedule of the constitution dealing with municipal functions. At present, States and UTs, and ULBs are managing the F&ES. The MHA and NDMA will render technical advice to the States, UTs, and central ministries on fire protection, prevention, and related legislation. While in several states, F&ES is under the jurisdiction of Municipal Corporations, in others it is under the respective Home Department. Only a few States have enacted their own Fire Act.

The type, scale and standards applicable for equipment and the training of the staff are subject to technological advances and emerging good global practices. Besides, given the regional differences and local challenges due to diverse terrains as well as conditions, some degree of innovation, customization and adaptation are necessary to make for effective use and deployment. Both right-sizing and down-sizing are required while maintaining the operational efficiencies of the equipment. For example, in some urban areas where roads are narrow and large equipment cannot gain quick access, it may be necessary to use down-sized equipment mounted on small vehicles that have adequate capacity to carry the equipment. Similarly, in most rural or less developed areas, it is difficult to maintain and operate the same equipment that are deployed in large cities. Therefore, rather than providing specifications or an indicative list, the NDMP enjoins the agencies responsible for response to adopt the best practices and most appropriate technologies subject to rigorous quality control and testing.

In each State, the F&ES have grown according to the initiatives taken by the States and availability of funds. Government of India has taken many initiatives to strengthen the techno-legal regime for fire safety. Apart from initiating major legal changes, Government is also reviewing many laws need to be amended. Government of India has also taken steps for institutional reforms and organizational restructuring of F&ES. However, it is the responsibility of the State Governments to implement the major changes for the modernization of the F&ES to make them more effective.

Fire on a running train is more catastrophic than on a stationary one since fanning by winds helps spread the fire to other coaches. Moreover, passengers sometime jump out of a running train on fire resulting in increased casualties.

Standard operating procedure to deal the fire incidence in Coaching trains.

To minimize the havoc due to fire, very quick action is require to be initiated as it takes very less time to spread in running trains and adverse the effects due to delay.

To cope with the emergencies following personnel boarded in the train must be teamed up to face the emergencies.

a. Loco pilot, Asst. Loco pilot, Guard.

- Stop the train immediately.
- Report it to the nearest station/control/fire station.
- Arrange the stretcher and first-aid box for the injured passengers.
- Arrange for isolating the affected coaches from other coaches by decoupling both Mechanical & Electrical couplers.
- Provide anti rolling arrangement on the isolated coaches and train as well.
- Render first aid to injured passengers, obtaining assistance of the railway staff, doctors and / or volunteers on the help of Ambulance service, means available.

b. All TTEs, AC Coach Attendants

- Don't panic.
- Pull the Alarm chain and stop the train immediately.
- Evacuate the passengers to the adjacent coaches which are away from the fire through the vestibules, if the fire is not extinguished. After complete evacuation the rolling shutters of coaches on fire to be closed to contain the spread of fire.
- Advice passengers to take a cloth, wet it in their drinking water and cover their nostrils. This reduces the smoke inhalation & subsequently its bad effects.
- Arrange the stretcher and first-aid box for the injured passengers.
- Insist that passengers should save themselves first and not to bother about their valuables/luggage which can be retrieved later on.
- Locate the fire extinguishing substances viz, fire extinguishers, water bucket with water/sand, etc. use water from the coaches.
- Report it to the nearest station/control/fire station. (fire services: 101, it can be dialed by mobile also).
- Take assistance of volunteers from passengers, Railway employees travelling doctors on trains, on train, on-board contractor staff etc. In rescue operation.

c. Pantry car staff (Railway and / or contractor)

- Protect the inflammable available at pantry car.
- Extinguish the fire by using fire extinguisher available at pantry.
- Provide necessary assistance to TTE as directed.

d. AC mechanics.

- Immediately isolate the affected coach/coaches electrically.
- Use fire extinguisher to extinguish fire to the extent possible.
- Immediate check lights in the coaches and provide light in dark coaches.
- Provide light at accident site.
- Help in extricating the trapped passengers/bodies.
- Open the doors of both sides of coaches.

Disaster Management Plan of Kota Division (Part - II -2025)

- Evacuate the passengers to the adjacent coaches which are away from the fire through the vestibules, if the fire is not extinguished. After complete evacuation the rolling shutters of coaches on fire to be closed to contain the spread of fire.
- Open Emergency window for evacuation of the passengers.
- Provide necessary assistance to TTE as directed.
- e.** Role of on board housekeeping staff & C&W staff
 - Open the doors of both sides of coaches.
 - Evacuate the passengers to the adjacent coaches which are away from the fire through the vestibules, if the fire is not extinguished. After complete evacuation the rolling shutters of coaches on fire to be closed to contain the spread of fire.
 - Open Emergency window for evacuation of the passengers.
 - Provide necessary assistance to TTE as directed.
- f.** RPF & GRP staff
 - Separate the area of incident by establishing temporary barriers and ensure that the on lookers and spectators do not enter the affected area to disturb the scene or hamper the rescue operations.
 - Baggage of passengers should be isolated and protected and should be taken care of till they are handed over to claimants or taken over by Railway authorities.
 - RPF personnel should respond to any call for assistance to rescue victims and transport them to the nearest hospital.
 - Check, save and record the evidences/clues/of the fire.
- g.** Railway employees either on duty or on leave as passengers travelling in the fire affected train.
- h.** Doctors travelling by Train.
- i.** Passengers travelling on the train who volunteer for rescue and relief work.
- j.** Railway staff working at site or available nears the site of the fire incident.

FOLLOWING SOURCES ARE MAIN CAUSES OF FIRE IN TRAINS:

- (i) Carrying stoves, sigris, gas cylinders, kerosene oil, petrol, fireworks etc. in Passenger compartments.
- (ii) Making fire/using fire near paper, wood, petrol or such other inflammable articles.
- (iii) Lighted match sticks, cigarette ends carelessly thrown.
- (iv) Short circuit in electrical wirings.
- (v) Using naked light during authority token delivery to the driver, shunting of inflammable loads, sealing of inflammable wagons.
- (vi) Use of open fire, smoking near gas / petrol tank.

All railway staff and passengers should take all possible precautions to avoid any of the above mistakes so that possibility of fire breaking out can be minimized. In general fire originates in a small level. When burning materials with adequate supply of air surround it, fire spreads.

ACTION TO BE TAKEN IN CASE OF FIRE IN TRAIN:

- (i) First and foremost immediately stop the train & summon the fire brigade.
- (ii) Secondly, if you smell gas or vapor, or even in case of excessive smoke, hold a wet cloth loosely over your nose and mouth and breath through it in as normal as possible.

IN CASE OF FIRE IN A PASSENGER TRAIN:

- (i) In case of fire pull the Alarm chain and stop the train immediately.
- (ii) Try and put out the fire before it becomes a big blaze by using either water or blankets etc.
- (iii) More people expire due to suffocation from smoke rather than due to actual burning.
- (iv) Advise passengers to take a cloth, wet in their drinking water and cover their nostrils.
- (v) Instruct Passengers to go to the other end of the coach, which away from the fire, and if possible cross over to the next coach through the vestibule.
- (vi) Insist that passengers should save themselves first and not to bother about their luggage which can be retrieved later on.
- (vii) Make sure that no passenger lies down on the floor.

IN THE EVENT OF A VEHICLE ON A TRAIN BEING ON FIRE:

- (i) Stop the train immediately by LP/ALP & Guard or through ACP by the person noticed it.
- (ii) Don't panic.
- (iii) Report it to the nearest station/ Control/fire station.
- (iv) Evacuate passengers from burning coaches.
- (v) Protect property, valuables and mails through on board GRP/RPF staff.
- (vi) Locate fire extinguishing substances viz, bucket with water/sand, fire extinguishers etc.
- (vii) Use fire extinguisher if any and put out the fire.
- (viii) Use water from the coaches and extinguish the fire.
- (ix) Throw earth or sand, if available, on the fire.
- (x) Ascertain the type of fire viz, dry, oil gaseous, electric and use the right type of fire extinguishers.
- (xi) Isolate the burning vehicle from other vehicle by uncoupling.
- (xii) Train to be protected by Driver & Guard at both ends according to the provision of G&SR6.03.
- (xiii) Every effort shall be made to extinguish the fire and to save the wagon labels, seal and contents of the vehicle.
- (xiv) In case fire is discovered when the train is near a tank or watering station, the Guard and Driver shall use their discretion to proceed there but no such attempt shall be made until the portion of the train in rear of burning vehicle has been detached.
- (xv) Inform all concerned to assist in extinguishing the fire.
- (xvi) In case of fire from electrical short circuit switch off the source.

IN THE EVENT OF FIRE ON AN ELECTRIC ENGINE:

- (i) Loco Pilot shall immediately switch off the circuit and lower the pantograph. The train shall then be brought to a stop at once.
- (ii) After disconnecting the electric supply to affected circuits, Loco Pilot shall take necessary action to put out the fire
- (iii) If fire can't be extinguished by the above means Loco Pilot shall advise TPC through emergency telephone to arrange for OHE of the affected section to be switched off.
- (iv) The guard and any other staff available shall render all possible assistance to the driver in putting out the fire.
- (v) Ordinary fire extinguishers or water from a hosepipe shall on no account be used to extinguish fire on live wire or electrical equipment.

Disaster Management Plan of Kota Division (Part - II -2025)

- (vi) If services of fire brigade is required, fire brigade shall not be allowed to commence operation until all electrical equipment in the vicinity of the fire have been made dead.

IN THE EVENT OF FIRE ON A DIESEL ENGINE:

- (i) The Loco Pilot shall immediately switch off the circuit breaker and shut down the engine. The train shall be brought to stop at once.
- (ii) The Guard shall give all possible assistance to the Loco Pilot in putting out the fire.
- (iii) Fire extinguishers of approved type shall be provided on each diesel locomotive when these are turned out from the home shed. The SSE in charge of the shed shall inspect the fire extinguishers and ensure that these are in good working condition.

WHEN A PERSON IS ON FIRE:

- (i) Approach him holding the nearest available wrap in front of you.
- (ii) Wrap it round him.
- (iii) Lay him flat and smother the flames.
- (iv) S/he may roll on the floor, smothering the flames.
- (v) On no account should he rush out into the open air.
- (vi) Call for assistance.

FIRE CAUSED BY PETROL OR OTHER INFLAMMABLE LIQUIDS, ACIDS OR GASES:

- (i) Segregate the affected wagon, coach or area involved.
- (ii) On opening a wagon do not enter it immediately. You would thus, avoid fumes, which may be dangerous.
- (iii) Use foam type fire extinguishers and sand and not water or soda acid type fire extinguishers.
- (iv) Don't bring naked lights near the site of fire.
- (v) Warn the people living in the surrounding areas within one Km radius.
- (vi) Stay away from ends of tanks, as tanks normally burst from the ends.
- (vii) Cool tanks that are exposed to flames with water from the sides only after the fire is put out.
- (viii) Withdraw immediately in case of rising sound from venting safety device or any discoloration of tank due to fire.
- (ix) Inform the nearest Fire Station intimating that Petrol or any other inflammable liquids, acids or gases, have caused the fire.

FIRE CAUSED DUE TO EXPLOSIVE/INFLAMMABLES DANGEROUS GOODS:

- (i) Extinguish by closing the valve or isolating LPG feed to fire by other suitable controls.
- (ii) Following steps may be taken if no undue risk is involved.
 - a. Move unheated cylinders to a safe place after ensuring closing of valves.
 - b. Cool the hot cylinders by spraying water from a safe position. The person directing the spray should take up a position where he would be protected from possible explosion.
- (iii) If cylinder containing inflammable/toxic gas develops leak during transportation, remove it to an isolated place away from any source of ignition and advise the filler or consignee as required.
- (iv) Inform the Chief Controller of Explosives by Fax/Telephone.
- (v) Inform officer in charge of nearest police station.
- (vi) Inform department officers concerned.
- (vii) Pending the visit of the Chief Controller of Explosives/his representative, the wreckage and debris shall be left undisturbed except to save lives.

Disaster Management Plan of Kota Division (Part - II -2025)

- (viii) After getting information from the Chief Controller of Explosives that he does not wish any further investigation, the restoration work may be commenced.

Government of India
Ministry of Railways
Railway Board

No.76/M(C)/137/31Vol.V

New Delhi, Dated 25.04.2024

General Managers

All Zonal Railways

Sub: Portable Fire Extinguishers used in Coaching stock.

1. The procurement of Fire extinguishers (FE) used in coaching stock is being done as per the following specifications.
 - 4 kg Portable stored pressure type Fire Extinguishers (DCP) with Anti theft arrangement as per MDT546270 (with Base document IS:15683/2016)
 - 6 kg portable cartridge type Fire Extinguisher (DCP) to IS: 15683/2016.
2. Following to be ensured:
 - 2.1 Procurement:
 - 2.1.1 It should be ensured that the inspection of Fire Extinguishers procured by ZRs is in line with the specification and in all cases inspection should be done by 3rd party.
 - 2.2 In-Service testing and Replacement:
 - 2.2.1 Maintenance of Fire Extinguisher is to be done as per IS:2190/2010
 - 2.2.2 ZR to ensure that inspection is done as per guidelines stipulated in this IS specification. It will be ensured that along with other Parameters test certificates should cover Hydraulic pressure testing which is prescribed in Para No. 12.2.1 of IS 2190/2010
 - 2.2.3 Necessary records should be checked by various units so as to ensure that proper inspection certificate is available for each Fire Extinguisher.
 - 2.2.4 While inspection of these FE will be done at periodicity as prescribed. ZRs are directed to immediately inspect all the FEs in line with Para 11.10.3 of this specification which provides "Guidelines for Evaluation of the Damage and Corrosion" so as to weed out bad FE from the system, even before those are sent for testing.
 - 2.2.5 As a one-time measure Hydraulic testing need to be done on priority and ZRs may procure additional quantities for maintaining sufficient quantities for train operation.
 - 2.2.6 Clause 12.2.1 of IS 2190/2010 refers to ISO prescribed for these FE which need to be meticulously followed.
- 3 A fail-safe system of traceability of FE need to set up and use QR code/RFID tag may also be

explored by ZR.

- 4 Each division should depute officers to agency who are understanding such testing so as to confirm the inspection of these FE as per prescribed IS. Protocol of inspection by railway officials and audit maintenance processes In-house or Outsourced needs to be strengthened and laid down by ZRs.

IS 2190:2024 Selection, Installation and Maintenance of First-Aid Fire Extinguishers - Portable and Mobile - Code of Practice

ICS 13.220.10

CED 22

1 SCOPE

- 1.1 This standard gives requirement for the selection, installation, maintenance, and testing of portable and mobile (wheeled) fire extinguishers. Fire extinguishers are a first line of defense against fires of limited size. They are needed even if the property is equipped with automatic sprinklers, standpipe and hose, or other fixed fire protection equipment/systems.
- 1.2 This standard is not alternative to permanently installed systems for fire extinguishment, even though portions of such systems may be portable (such as hose and nozzles attached to a fixed fire of extinguishing media).
- 1.3 The requirements mentioned in this standard are minimum in nature. The use of larger, higher-rated, or greater numbers of extinguishers will, in general, improve protection.
- 1.4 Extinguishers for use on board aircraft, watercraft, and vehicles are outside the scope of this standard.

2 REFERENCES

The standards listed in Annex A contain provisions which through reference in this text, constitute provisions of this standard. At the time of publication, the editions indicated were valid. All standards are subject to revision and parties to agreements based on this standard are encouraged to investigate the possibility of applying the most recent edition of these standards.

Disaster Management Plan of Kota Division (Part - II -2025)

5.1 Annual Review and Updation of Disaster Management Plan

Government of India
Ministry of Railways
(Railway Board)

No. 2009/Safety(DM)/6/14

New Delhi, Dt. 09.07.2015

Chief Safety Officer
East Coast Railway

Sub : Annual review and updating of Disaster Management Plan.

Ref : Your office letter no. ECoR/SFY/DM/527 dated 16.06.2015

1. East Coast Railway has referred to Railway Board regarding the need for printing DM plan Every year in light of the fact that not many changes are carried out in the instructions/procedures indicated therein.
2. As per Disaster Management Act 2005 every Ministry or the department of Government of India has to review and updated their DM plan. The same instructions were envisaged in the DM plan of Ministry of Railways. Further the Act doesn't stipulate that the plan should be published every year, it only indicates that the plan needs to be reviewed and updated annually.
3. Board has reviewed these instructions and decided that -
 - (a) DM plan of the Zone/Division should be prepared in two parts.
 - (b) The first part should contain the general information, duty list, role and responsibility of various department, guidelines issued by NDMA and Railway Board etc.
 - (c) The second part should contain information about the important telephone numbers of the respective Zone/Division, contact details of Para military forces, State administration, hospitals, bus depots, fire service, NGOs, Earth moving equipment suppliers etc.
 - (d) The first part of the DM plan should be reviewed and updated as and when fresh instructions were received from NDMA or Railway Board or any other Concerned organization. This part need not be published /printed every year.
 - (e) Second part which generally consists of the contact details should be updated annually and the same should be circulated to all concerned. Corrections/Additions/Deletions to the first part may be incorporated in this as a correction slip.
 - (f) Zonal Railways may decide to publish/print the First part whenever the necessity is felt.

The above instructions may please be followed during future review/updating of Disaster Management plan.

-Sd-
(P.Srinivas)
Director (Safety-III)
Railway Board

Copy to- Chief Safety Officers of All Indian railways including
KRCL except ECoR for information and necessary action

Disaster Management Plan of Kota Division (Part - II -2025)

5.2 Hiring of Helicopter / Aero plane at the time of severe accident.

(Copy of Rly. Board L.No. 2002/Safety-1/6/6 dt13.06.2004)

GM/DRM can hire helicopter/Aeroplane to reach the site of accident, dispatch the rescue team to the site of accident and evacuate injured and dead from accident site. Copy of Rly. Board's letter no. 2002/Safety-1/6/6 dt. 30.06.04 is reproduced below. The list of Helicopter/Air ambulance is given in Appendices.

Zonal Railway has been delegated powers to requisition helicopter/ aeroplane for expeditious action in the event of serious accidents vide Railway Board's letter under reference. The subject matter has been reviewed by the Board and the following revised powers are delegated to the Zonal Railways.

GMs/DRMs have been delegated the powers to requisition helicopter/ aeroplane to reach the site of serious accident for rescue operation expeditiously. In addition, powers are also delegated to requisition air support to dispatch the rescue teams to the site of accident.

It is difficult to stipulate exactly the circumstances under which they may exercise the powers, it has been decided to leave this to the discretion of GMs/DRMs. However broadly they may cover the following type of cases.

- (a) Where more than 10 casualties (deaths-cum-serious injuries) are feared and it is difficult for the officers to reach the site within reasonable time.
- (b) Where heavy damage is caused to Railway installations in sensitive and tension fill areas (eg. Wreckage of track, bridges etc. through Bomb blast, other means sabotage etc.)
- (c) Where public reaction in case of late arrival of senior officers at site is likely to be highly adverse. Normally, in case of an accident, only one helicopter should be requisitioned by a Zonal

Railway, except when there is serious passenger train accident involving several casualties when it is essential for both the General Manager and the Divisional Railway Manager to reach the site of at once to satisfy the public and Press. However for dispatching the rescue teams to the site of accident, separate helicopter / aeroplane may be requisitioned if so needed.

The GMs/DRMs may exercise the above powers personally and may not delegate the powers. Zonal Railways are further empowered to requisition helicopter/ aero plane to evacuate injured and dead in the event of serious accident. GMS's may personally exercise these powers and may not delegate these further.

The above instructions on the subject supersede all the previous instructions issued via above referred letters. This issue with the concurrence of the Finance Directorate of the Ministry of Railways.

5.3 Requisition of Indian Air Force Aircrafts/Helicopter :

(Copy of the Railway Board's letter no. 2002/Safety-1/6 Dated 05.12.2006)

Sub: Requisitioning of Indian Air Force Aircrafts/Helicopter by Zonal Railways in case of serious accidents/natural calamities.

Doubts have been raised from time to time by the Zonal Railways regarding instructions on the above matter. The extracts of Air Force instructions no. 9/83 regarding Regulations Governing Flights and Airlifts IAF Aircraft within Indian Territory is reproduced as under:

Para 9(a) : The use of IAF aircraft of civil agencies may be authorized by the Chief of the Air Staff on payment at rates which will be fixed by the Ministry of Finance (Defense). Such Flights maybe provided on written demand for work like aerial photography, survey and other purpose, survey of air routes, carriage of mail, drop of supplies, carriage of urgently required stores, leaflet droppings, relief and reconnaissance flights, carriages of Para

Disaster Management Plan of Kota Division (Part - II -2025)

military police force etc. " Such flights as errand of mercy, on payment at chartered rate without detriment of Defense requirements, may also be provided for evacuation of seriously sick or injured civilians from inaccessible areas at the written request of the State Governments, Union Territory Administration and other Central Ministries/Departments, as a life saving measures on an undertaking by such authorities, it is neither by them nor any other means of civil air/ surface transport is available for such evacuation and the evacuation by the IAF will be at their risk and cost." The Ministry of Defense may sanction on payment, urgent movement of civilian Government servants and for the State Government provided aircraft are available without prejudice to service requirements.

1 Para 9(d) : Station commanders of and above the rank of Wing Commander may authorized special flights of aircraft under their control to meet written request from Central Ministries/Departments /State Governments/Administration of Union Territories for assistance in any grave emergency of natural catastrophe. They will immediately advise concerned Command Headquarters. Such flights are to be regularized under the authority of the C-In-C Command /Group in due course.

Attention is also invited to Railway Board letter of even number dated 13/15.06.2004 by which GMs/DRMs have been delegated power to requisition helicopter/aero plane even from private parties (copy enclosed) to reach the site of serious accident for rescue operation expeditiously and to dispatch the rescue teams to the site of accidents.

Zonal Railways may take note of the above standing instructions and establish coordination with the appropriate Air Force authorities.

Please acknowledge receipt.

Director/Safety Railway Board

5.4 Coordination with NDRF Battalions :

**GOVERNMENT OF INDIA
MINISTRY OF RAILWAYS
(RAILWAY BOARD)**

No. 2003/SAFETY/DM/6/3

New Delhi, dated 02.08.2010

The

Chief Safety Officers, All Indian Railways

Sub: Coordination with NDRF Battalions

A meeting was held between the officers of Railway Board and Shri K.M.Singh Hon'ble Member NDMA on 26.07.10 amongst others, DG/NDRF, senior Officials of MHA etc. attended the meeting.

The main focus on the discussion was pertaining to effective use of NDRF battalions to assist railway efforts in rescue, relief and restoration consequent to a major train accident. DG/NDRF brought out their preparations and training is hampered by the fact that they have limited knowledge of the railway facilities available, as also of the features of the rolling stock used by the Railways.

A decision was taken to educate the NDRF officers and men by the Zonal Railways/ Divisions on the following items:-

Disaster Management Plan of Kota Division (Part - II -2025)

ARMV/ARTs-

Commandant/NDRF located closed to the Divisional Headquarters may be called along with a few of his personnel to see the ARMV and ART which may be stabled at a convenient location for the duration of this demonstration. The equipment inside the ARMV/ ART may be shown. Features of different type of coaches (AC and Non AC coaches), other freight rolling stock, specially BTPNs and TPs used to carry inflammable products and dangerous Chemicals.

Regular Coordination meetings may be held between the NDRF Battalion Commandant and the CSO's and the representative of the Division (DRM's or in his absence the ADRM/ Sr.DSO). The first meeting be held within the next two months from now, thereafter regular meetings be held once every 6 months.

During the above demonstration, NDRF personnel may be shown the emergency exit window in the coaches, safety valves in the wagons (BTPNs & TPs) and the other structural details etc. equipment available in the ART/ARMVs, especially cold cutting equipment in the ARMV and MFDs etc. may be demonstrated.

The latest update list of telephone numbers of officers of NDMA and NDRF was made available during this meeting. This is being advised to the Zonal Railways in Annexure.

A report on the action taken on the above may kindly be advised.

Encl: As above

MINISTRY OF RAILWAYS

(Railway Board) NOTIFICATION

Letter No. 2015/TC-III/26/1

New Delhi, 22nd December, 2016

GSR. 1165(E). In exercise of the powers conferred by section 129 of the Railways Act, 1989 (24 of 1989), the Central Government hereby makes the following rules further to amend the Railway Accidents and Untoward Incidents (Compensation) Rules, 1990, namely:-

1. Short title and Commencement:-

- (1) These rules may be called the Railway Accidents and Untoward Incidents (Compensation) Amendment Rules, 2016.
- (2) They shall come into force on the 1st day of January, 2017.
2. In the Railway Accidents and Untoward Incidents (Compensation) Rules, 1990 (hereinafter referred to as the said rules) in rule 3,-
 - (i) In sub-rule(2), for the words "rupees four lakhs" the words "rupees eight lakhs" shall be substituted;
 - (ii) In the second proviso to sub-rule (3) for the words "rupees eighty thousand", the words "rupees One lakh sixty thousand" shall be substituted".
3. In the said rules, in rule 4, for the words "rupees four lakhs", the words "rupees eight lakhs" shall be submitted.

Disaster Management Plan of Kota Division (Part - II -2025)

4. For the Schedule annexed to the said rules, the following Schedule shall be substituted, namely :-

SCHEDULE

(See Rule 3)

Amount of Compensation Payable in respect of Death and Injuries

Part-I	Amount of compensation (in rupees)
For Death	8,00,000
Part-II	
1. For loss of both hands or amputation at higher sites	8,00,000
2. For loss of hand and a foot	8,00,000
3. For double amputation through leg or thigh or amputation through leg or thigh on one side and loss of other foot.	8,00,000
4. For loss of sight to such an extent as to render the claimant unable to perform any work for which eye sight is essential.	8,00,000
5. For very severe facial disfigurement.	8,00,000
6. For absolute deafness.	8,00,000
Part-III	
1. For amputation through shoulder joint	7,20,000
2. For amputation below shoulder with stump less than 8" from tip of acromion.	6,40,000
3. For amputation from 8" from tip of acromion to less than 4 ½" below tip of olecranon.	5,60,000
4. For loss of a hand or the thumb and four fingers of one hand or amputation from 4 ½" below space tip of olecranon.	4,80,000
5. For loss of thumb.	2,40,000
6. For loss of thumb and its metacarpal bone.	3,20,000
7. For loss of four fingers of one hand.	4,00,000
8. For loss of three fingers of one hand.	2,40,000
9. For loss of two fingers of one hand.	1,60,000
10. For loss of terminal phalanx of thumb.	1,60,000
11. For amputation of both feet resulting in end bearing stumps.	7,20,000
12. For amputation through both feet proximal to the metatarso-phalangeal joint.	6,40,000
13. For loss of all toes of both feet through the metatarso-phalangeal joint.	3,20,000
14. For loss of all toes of both feet proximal to proximal inter-phalangeal joint.	2,40,000
15. For loss of all toes of both feet distal to the proximal inter-phalangeal joint.	1,60,000
16. For amputation at hip.	7,20,000
17. For amputation below hip with stump not exceeding 5" in length measured from tip of great trochanter but not beyond middle thigh.	6,40,000
18. For amputation below hip with stump exceeding 5" in length measured from tip of great trochanter but not beyond middle thigh.	5,60,000
19. For amputation below middle thigh 3 ½" below knee.	4,80,000

Disaster Management Plan of Kota Division (Part - II -2025)

20. For amputation below knee with stump exceeding 3 ½" but not exceeding 5".	4,00,000
21. Fracture of Spine with paraplegia.	4,00,000
22. For amputation below knee with stump exceeding 5".	3,20,000
23. For loss of one eye without complications the other being normal.	3,20,000
24. For amputation of one foot resulting in end-bearing.	2,40,000
25. For amputation of one foot proximal to the metatarso-phelangeal joint.	2,40,000
26. Fracture of Spine without paraplegia.	2,40,000
27. For loss of vision of one eye without complications of disfigurement of eye ball, the other being normal.	2,40,000
28. For loss of all toes of one foot through the metatarso-phalangeal joint.	1,60,000
29. Fracture of Hip-joint.	1,60,000
30. Fracture of Major Bone Femur Tibia Both limbs.	1,60,000
31. Fracture of Bajor Bone Humerus Radius Both limbs.	1,20,000
32. Fracture of Pelvis not involving joint.	80,000
33. Fracture of Major Bone Femur Tibia one limb.	80,000
34. Fracture of Major Bone Humerus Radius Ulna one limb.	64,000

[F.No.2015/TC-III/26/1]

RAVINESH KUMAR,
Joint Secretary

Note : The Principal rules were published in the Gazette of India, Extraordinary, Part-II Section 3, Sub-section(i) vide number G.S.R. 552(E), dated the 7th June, 1990 and subsequently amended vide number G.S.R. 592(E), dated the 22nd July, 1994 and G.S.R. 620(E), dated the 25th October, 1997.

5.6 MOU Between Railway & Rajasthan Government.

**Memorandum of Understanding
For
Disaster Management at the time of a rail accident
Between**

- **Indian Medical Association State Branch Rajasthan**
 - **All Rajasthan Private Doctors Federation**
 - **Medical Practitioner Society Jaipur**
 - **Private Hospitals & Nursing Home Society, Jaipur**
- And
Indian Railways Jaipur**

Recognizing the need for providing speedy medical care to the patients at the site of rail accidents the doctors and their associations and the Indian Railways (Hereinafter referred to as parties) have reaffirmed the following understandings.

1. Drawing force for the strategies

The Medical Association is a conglomerate of trained medical personnel in various specialties providing comprehensive medical management to needy patients in both Government and Private set up in the state of Rajasthan. They are also involved in variety of charitable activities to provide succor to the needy patients all through the year.

Disaster Management Plan of Kota Division (Part - II -2025)

The parties have recognized the need to provide quick and comprehensive medical aid at the desired site. Recognizing the urgency of speed to provide medical help, partnership would add to the efforts already in place for any disaster management.

2. Areas for cooperation

The parties wish to cooperate in the following areas:

1. The parties will work together to make available medical care at the disaster site.
2. The parties would work together to create awareness and training of medical and paramedical personnel towards speedy management at the site of disaster.
3. The parties would also work closely to sensitize the General public regarding the do's and don'ts at the time of such disasters.
4. Implementation of MOU.

3. The parties wish to act under the following terms:

1. Railway will provide intermediate information to members mentioned in the list provided for the same whenever such a disaster occurs.
 2. Railways will provide training to selected medical and paramedical staff in the disaster relief management.
 3. Both the parties will bear the responsibility for making available quick transport of medical and paramedical staff and medical resources required at the disaster site.
 4. Proper utilization of the (ARMV) Accident Medical Relief Medical van of the North Western Railway at the time of Railway accident.
 5. There would be a provision of a mock trial at least once in a year to keep the Disaster Management resources in peak efficiency state.
 6. Independent audit of the response time during such mock trials and actual accidents if any would be discussed in a conference to be held once in a year where representative from parties would try and rectify the flaws to achieve quick response to the challenging situation in future.
 7. All parties to this MOU agree to participate in any inspection/ audit of their operations by any external agency, which may be deemed necessary to achieve the goal of this MOU.
- This audit may suggest certain reformative measures for future.

4. Confidentiality of Information

The information relating to "Memorandum of Understandings" circulated among the "Parties" marked as "Confidential" shall be strictly kept confidential and shall not be disclosed to any third party other than to carry out the provisions of this MOU.

5. General

The parties will discuss and co-operate on any other miscellaneous matters that may arise time to time which fall within the joint and individual objectives of their respective organization.

6. Termination

Both parties shall have the right, at their sole discretion to come out of MOU but after mutual discussion with each other. Such MOU can be modified suitably after the receipt written notification by any of the party.

7. Validity

The memorandum shall become effective with immediate effect and is subject to renewal after every two years in general. In case of no change desired, the MOU shall remain valid indefinitely.

(Ref. Letter No. CD/APD/03/1028 Dated-18.12.2003)

Directorate of Health Service

Disaster Management Plan of Kota Division (Part - II -2025)

Madhya Pradesh

No: 111/C-4/07/1533

Bhopal, 27.02.2007

To,

1. All Regional Joint Directors, Health Service, Madhya Pradesh.
2. All Chief Medical & Health officers, Madhya Pradesh
3. All Civil Surgeons, District Hospital, Madhya Pradesh.
4. All Superintendents, Civil Hospitals, Madhya Pradesh

Sub : Assistance during passenger train railway accident at site.

You all are hereby directed to take the following measures in case of Passenger train railway accident.

1. On receiving the information of train accident a team of doctors should be immediately sent to the accident site to provide medical relief and rescue Assistance at the site.
2. As many as possible ambulances should be sent to accident site and needy Victims shifted either to District Hospital/Civil Hospitals or nearby equipped Nursing Home/Hospital for the purpose of life and limb saving procedures.
3. As many beds as possible should be provided in District Hospital/Civil Hospital under your control to mitigate the suffering humanity.
4. All life saving drugs including compatible blood transfusion should be provided.
5. Assistance in performing postmortem, if authorized to do so.
6. Storage of as many dead bodies as possible in mortuary.
7. For the services rendered, suitable monetary compensation at prevailing existing rates will be done.

Please arrange to disseminate the above directions to all the staff working under control to come forward during Railway accident and render all assistance without waiting for any further requisition or order.

All Indian Railways and KRCL

Sub: Role/Duties of Safety Officers at an accident site.

Duties and responsibilities of safety officers of division and of headquarters are well defined in the accident manual and Disaster Management Plan of the Railways. In the recent accidents it was observed that the relevant information about the accident was not forthcoming in a systematic manner and in the process vital information is

Disaster Management Plan of Kota Division (Part - II -2025)

lost. It was also noted that at the accident site event log was not maintained and Head Quarter emergency cell was not updating Railway Board periodically.

In view of the above a broad checklist for safety officers has been prepared and the same is annexed to this letter. This checklist, however, in no way circumvents the duties and role defined for the officers in the Accident Manual and Disaster Management plan of the Railways. Chief Safety Officers shall ensure that Sr.DSO's carry out their responsibility within a reasonable time. Chief Safety Officers shall be in constant touch and update Railway Board emergency control room. The checklist may please be circulated to the divisional officers and ensure that they comply with the instructions.

Enclosure: One

-Sd-
(Vinod Kumar)
ED/Safety (Coordination)
Railway Board

Check list for the Divisional Safety Officers Subsequent to an Accident

Immediately rush to the accident site by the first available means along with Safety Counselors.
Speak to Guard/Loco Pilot to understand the sequence of events and assess the extent of damages, the exact number of vehicles affected with their stenciled numbers. Also Guard may be asked to take pictures with their mobiles and sent them through whatsapp.
Arrange to rush the relief teams available with the Railways.
Check whether Station Masters on adjacent stations, Control and Medical staff have requisitioned for local medical help and ambulances.
Seek assistance of NDRF and other Government/Non-Government Organizations if required.
Assess the site conditions and if needed order for additional rescue teams.
Establish a Unified Command Centre (UCC) and arrange to man it by a Safety Counselor.
Arrange to establish telephonic communication at the site.
Preserve all clues and evidences regarding probable cause of accident.
Arrange to record joint observations/measurements at the site by the senior subordinates.
Should check for any speed restriction at the location and any abnormality reported by previous train's crew.
Arrange to maintain log of events at the site and relay to Divisional Emergency Cell at regular intervals .
Relay Prima Facie cause in consultation with Officer in-charge within a reasonable time.
Ensure that in UCC details of passengers admitted is maintained Hospital wise.
Relay probable restoration time in consultation with Officer in-charge within a reasonable time.
Arrange to create Accident ID in SIMS and update all the relevant fields at regular intervals.
Arrange for live feed through VSAT, collect aerial pictures of the accident and upload the photos /video in SIMS.

Chief Safety Officer shall ensure the following –

Be in constant touch with Divisional Officers and Railway Board. Emergency Cell shall ensure that above actions are carried out by Divisional Safety Officers.
To seek for additional assistance from adjacent Railways and other Government/Non-Government agencies if needed.
Ensure that HQs Emergency Cell is manned by a Dy.CSO.
Ensure that all the details of the accident are conveyed to RB Emergency Cell hourly.
Ensure that all the relevant details are filled up in the SIMS.

Disaster Management Plan of Kota Division (Part - II -2025)

5.9 Mock Drills for ART/ARMV and Full Scale Disaster management exercises.

Government of India
Ministry of Railways
(Railway Board)

No. 2010/Safety(DM)/6/23

New Delhi, Dated 09.03.2017

General Managers
All Indian Railways and
CMD/KRCL

Sub: Mock Drills for ART/ARMV and Full Scale Disaster management exercises.

Accident manual of Zonal Railways stipulated that mock drills should be conducted for ART/ARMV to check their readiness so that in case of an accident ART/ARMV staff performs like a well rehearsed team. Board has noticed that the periodicity prescribed in the accident manual is varying over Zonal Railways and the methodology is also not uniform.

Based on the recommendations of High Level Committee on Disaster Management (Vide recommendation No. 106) each division should conduct one full scale disaster management exercise on the similar line as Army exercises once in a year. Likewise, mock drills for ART/ARMVs have to be conducted on a regular basis.

Comptroller and Auditor General Report no. 13 of 2016 (Railways) Chapter no. 6 on Disaster Management was critical of Railways for not conducting mock drills as per the prescribed periodicity. To have uniformity over Indian Railways and ensure that all the relevant aspects recovered in the mock drills and full scale Disaster Management exercises, detailed instructions are prepared by the Board and these instructions are annexed to this letter.

Zonal Railways shall ensure that the mock drills and full scale disaster management exercises are conducted in the prescribed periodicity as per the procedure annexed. Details of drills may please be reported to Board in the Safety PCDO as per Annexure-XIII.

-Sd-
(Vinod Kumar)
ED/Safety (Coordination)
Railway Board

Instructions on Mock Drill and Full Scale Disaster Management Exercises

1.0 Aim and Objectives:

Mock Drills provide virtually the only means, short of an actual incident, of measuring the state of readiness and of testing the effectiveness of an emergency response plan. The real purpose of mock drill is to take all Railway Staff who have specific duties to perform in case of an accident, to practice their duties regularly and test check the equipment so that in real emergency they perform their duties like a well rehearsed team. The Aim and objective of Mock drill is to:

- To evaluate response.
- To evaluate readiness of all stake holders.
- To improve coordination within departments.

Disaster Management Plan of Kota Division (Part - II -2025)

- To identify the efficacy of SOPs.
- To revise SOPs for enhanced coordination.
- To identify planning gaps.
- To increase emergency preparedness of staff members
- To enhance the ability to respond faster.

2.0 Periodicity:

Mock drills have to be conducted once in every quarter either during day or night. It is desirable not to repeat the drill again and again at the same time or section. However if ART/ ARMV is turned out on account of accident in that quarter the periodicity may be reckoned from that date. At a particular station of both ART/ARMV are stationed, alternatively ART and ARMV needs to be turned out quarterly. Full scale disaster management exercise has to be conducted in a division once in a year as recommended by High Power Committee on Disaster Management.

3.0 Responsibility for conducting the Mock drills and full scale disaster management exercises:

To have an element of surprise mock drills shall be ordered by the DRM and drills shall be conducted under the direct supervision of Sr.DSO/DSO. Secrecy and confidentiality shall be maintained to extent possible. Sr.DSO/DSO shall be responsible to conduct full scale Disaster Management Exercises.

4.0 Who has to associate with these exercises :

Doctors, paramedics and the usual break down staff should travel by these trains exactly as they would have in case of an accident. Railway Ambulance should also be turned out. The officers and staff of such other departments who have specific duties to perform in case of accidents but may not have to accompany such trains should also participate. District administration to the extent required also has to associated with these drills.

5.0 Activities to be monitored during Mock drill

- Turning out of relief trains within prescribed time.
- Speed of specials.
- Attendance of staff.
- Whether correct information given to control particularly in respect of nature of assistance required.
- Action taken to stop any approaching train if any.
- Medical assistance available mustered in full strength and calling out of local ambulances.
- Time at which first ambulance reached the spot.
- Response of the local administration like police, fire brigade etc.
- Time taken to set up the field telephone.
- Staff conversance in usage of equipment.
- Working of select equipment shall be test checked.
- Logging of events.
- Mock drill shall be called off by Sr.DSO/DSO after consulting DRM.

6.0 Procedure for full scale Disaster Management Exercises

Full scale disaster management exercise is a planned activity to check the complete preparedness, response and functioning of all stake holders in case of disaster. Station at which these exercises are planned should be selected in due consultation with DRM and Operating officers to ensure least disturbance to train operations. In these exercises in addition to the activities to be carried out in mock drill indicated in Para 5.0, the following shall be carried out.

- Accident like situation has to be created like one coach over another so that rescue operations can be similar to an accident site.

Disaster Management Plan of Kota Division (Part - II -2025)

- All the stake holders have to be involved in the rescue and relief operations.
- All the activities prescribed in the Accident Manual/Disaster Management Plan regarding setting up of UCC, ICC, CAC etc. have to be carried out.
- Railway staff can double up as injured passengers with various types of injuries and handling of such passengers by rescue staff needs to be observed / recorded.
- Time taken to set up rescue equipment and time taken to rescue first person should be recorded.
- All the equipment in ARMV/ ART has to be physically tested for their performance and endurance.
- All the activities need to be video graphed for post analysis and also for training purpose.

7.0 Reporting and follow up action:

Detailed report of the mock drill and full scale disaster management exercise shall be prepared by Sr.DSO/ DSO duly indicating attendance of nominated staff from each branch, non attendee to be reported by name, deficiencies in the equipment, gap in the disaster management plan and SOPs etc. The report should also include any improvement or otherwise in the deficiencies observed in the previous drills. Sr.DSO/DSO shall monitor the action taken on the deficiencies by the respective departments.

5.10 Non involvement of Passenger Train during the course of Mock Drill

भारत सरकार
(GOVERNMENT OF INDIA)
रेल मंत्रालय
(MINISTRY OF RAILWAYS)
रेलवे बोर्ड
(RAILWAY BOARD)

No. 2010/Safety(DM)/6/23

New Delhi, Date 07.06.2017

General Manager/WCR
All Indian Railways and
CMD/KRCL

Sub: Conducting of Mock Drills.

Ref: Railway Board letter of even No. dated 09.03.2017

Detailed instructions were issued to Zonal Railways for conducting of mock drills of ART/ARMV and full scale Disaster Management exercises vide letter under reference.

In the recent mock drills over Zonal Railways, Board has observed that initial message of the accident was about involvement of a passenger train. This is causing confusion/panic situation and bad publicity in electronic and social media. In view of the above, Zonal Railways are advised to avoid situation of passenger train derailment as a mock drill. All concerned may please be advised accordingly.

5.11 Assistance of NDMA / NDRF to handle Railway related disasters

GOVERNMENT OF INDIA
MINISTRY OF RAILWAYS
(RAILWAY BOARD)

No. 2003/Safety(DM)/6/3

New Delhi, Dated :30.08.2017

Disaster Management Plan of Kota Division (Part - II -2025)

Chief Safety Officer
North frontier Railway

Sub : Assistance of NDMA / NDRF to handle Railway related disasters

Ref. : Your office letter no. T/308/DM/2/2014/16 dated 16.08.2017.

Vide letter under reference, North frontier railway has requested Railway Board to seek assistance from NDMA for arrangement of motorboats in Katihar Division for restoration of breach/wash outs due to flood.

Based on the above communication Railway Board had sort assistance from NDRF headquarters and motorboats were arranged from 9th battalion of NDRF. However it is to clarify that as per the prevailing instructions, DRM and CSO can directly seek assistance from the NDRF. These instructions were issued vide railway Board letter no. 2003/Safety (DM)/6/3, dated 05.08.2010

Para 5.2 of Disaster Management Plan of Ministry of railway issued in April 2016, indicates that DRMs/CSOs have been empowered to directly requisite the relevant NDRF battalion for relief and rescue operations depending upon the gravity of the situation so that their services could be made available expeditiously without any loss of time.

Board instructions in this regard may please be incorporated in Disaster Management Plan of NF Railway and all concerned may please be advised accordingly.

5.12 Timely information of serious consequential train accidents to CRB

GOVERNMENT OF INDIA
MINISTRY OF RAILWAYS
(RAILWAY BOARD)

No. 2017/Safety(A&R)19/18

New Delhi Dated: 01.09.2017

**The General Managers,
All Indian Railways and KRCL**

Sub :- Timely information of serious consequential train accidents to CRB

It has come to notice of Board that timely information regarding consequential train accident is not being given to Board even in cases of serious accidents. CRB has directed that all General Managers should give information of the serious consequential train accidents to him immediately on phone followed by a SMS. For the sake of uniformity and to ensure that no information is left out, the information should be provided as per enclosed SMS template.

This may be treated as **MOST URGENT.**

5.13 Revision and standardization of observation /Measurement – Performa for Accident Investigation/Enquiry.

GOVERNMENT OF INDIA MINISTRY OF RAILWAYS (RAILWAY BOARD)

No.2018/Safety (A&R)/1/8

New Delhi, dated 25.01.2019

**General Managers,
All Indian Railways,
(Including Metro Railway, Kolkata)
Managing Director,
KRCL, Navi Mumbai.**

Sub: Revision and Standardization of Observation/Measurement Performa for Accident Investigation/Inquiry.

Ref.: 1. RDSO letter No. CT/Safety dated 08.06.2018.
2. CCRS's letter No. M.15013/1/2017-18 T.W. (Pt.II) dated 07.06.2018

A revised Observation/Measurement proforma for various parameters related to track and rolling stock for Accident Investigation / Inquiry has been prepared by RDSO in consultation with Commission of Railway Safety. Board (CRB) has approved the proforma for uniform adoption over Indian Railways for CRS Inquiry as well as Joint / Departmental Inquiry of the accidents. The approved Performa (total 34 pages) is enclosed herewith.

This is for kind information and necessary action please.

-Sd-
(Pankaj Kumar)
Director (Safety) – IV
Railway Board

Disaster Management Plan of Kota Division (Part - II -2025)

Ph: 030-43574,
011-23070944
Mob. : 9910487540

Copy to :

1. DG/RDSO, Lucknow and Commission of Railway Safety, Lucknow for kind information in connection with letter under reference.
2. Chief Safety Officers, All Zonal Railways.

General Guidelines:

1. Careful observation of clues and a comprehensive record thereof is vital for accident enquiry. In addition, a comprehensive record of track and rolling stock parameters and operating features is required for investigation of derailments.
2. There are two broad categories of derailment.
Sudden derailment, caused by wheel set jumping of the rails. Such a derailment indicates that the derailing forces were high enough to suddenly force the wheel off the rail. These are typically caused by failure of vehicle/ track components, obstruction on track, entanglement of hanging parts of rolling stock etc. These derailments are characterized by a short mark on rail table between Point of Mount and Point of Drop. In some cases the Point of Mount may even be absent.
Derailment by flange climbing, caused by wheel mounting the rail in a relatively gradual manner. It indicates that the derailing forces were powerful enough to overcome the normal stabilizing forces, yet not sufficient to cause a sudden derailment. Such derailments are characterized by a longer mark on the rail table between Point of Mount and Point of Drop. Track and rolling stock parameters and operating features influence the rail-wheel interaction forces and, hence, their complete record and a comprehensive analysis is required to arrive at the mechanism of derailment. Cause and consequence of derailment are required to be differentiated through this comprehensive analysis.
3. Locating and examining the wheel mounting mark(s) at the initial point of derailment is very important for identifying the category of derailment. Precise measurements and critical and detailed examination of the wheel mounting marks should be made e.g. their length, strong or faint, broken or continuous, single or multiple, etc. Photographs should be taken of such marks, not only on the rail, but also on the fastenings, sleepers and ballast.
4. Derailment proneness increases with increased Lateral wheel force, reduced Vertical wheel load (Off loading) and increased Positive Angularity of wheel. Derailment proneness becomes substantially higher in case of axle moving with a persistently positive angularity. Track and rolling stock parameters and operating features should be critically analyzed for their contribution towards these causes. In case of derailments in curve, proper functioning of Bogie rotation system to ensure undue angularity needs close examination. Contribution of track twist and spring defects and twist in bogie frame/ vehicle under frame to derailments caused by wheel Off loading needs to be analyzed. In case of derailments at

Disaster Management Plan of Kota Division (Part - II -2025)

- high speed, parameters affecting vehicle oscillation and damping thereof needs a close analysis.
5. While analyzing the mechanism of derailment, relative contribution of track and rolling stock parameters to the rail-wheel interaction forces needs a comprehensive analysis. Reference should be made to the safety limits/ Maintenance limits specified in IRPWM/ IRCA Rules/ Maintenance Manuals.
 6. Proforma for measurement of locomotive, wagon, carriage and track are attached as annexure-A, B, C and D respectively for recording the details. The joint measurement to be submitted by senior supervisors shall not be completed till all the measurement of rolling stock and track as per enclosed proforma have been recorded. Only completed joint measurement w.r.t. rolling stock and track shall become a document to be relied upon by the enquiry committee for drawing conclusion regarding cause of accident.
 7. No enquiry shall be completed before the complete measurement of rolling stock and track is available and made part of the enquiry report. Enquiry Committee may get additional measurements done as per requirement of the derailment case.
 8. The photographs of the concerned sections of track and part of rolling stocks shall be taken and annexed in the enquiry report. ART personnel should be trained for identifying such relevant part of track and rolling stocks involve in the accident.
 9. In case of derailment of passenger trains causing injury to passengers, video recording of the concerned part of track and rolling stock shall be carried out by nominated ART personnel, trained for the purpose.
Photography & videography of accident site shall be with great care & precision, similar to a crime scene photography/videography. ART personnel nominated for this shall be suitably trained for the purpose. The photographs, videos should be self explanatory such that relevant conclusion can be drawn.
 10. Site sketch of the derailment/accident location shall be prepared giving due care that all the relevant items are included along with the dimensions. A sample sketch is attached for the guidance. Instructions for the preparation of sketch of the site of accident has given in "Accident Manual" shall be followed.
Preservation of relevant clues, documents & photographs/videography of the accident scene shall be done under supervision of Safety Officials of the Division.
 11. M&C report from RDSO must also be part of accident enquiry report in case accident is attributed to breakage of any component of track or rolling stock.
 12. In case of a suspected sabotage, Tell-tale sign must be preserved and recorded.
 13. If rail/weld failure is suspected to be cause of derailment, assessment of impact loading to which the rail/weld was subjected to prior to its failure becomes important. In such cases, WILD data for few preceding trains shall be analyzed for critical alarms and any critical alarm shall be brought out and deliberated by enquiry committee.
 14. Observations of SM's Panel need to be recorded in case accident takes place in station area.
 15. Speed recorders and event recorders in the locomotives shall be freeze immediately post the accident. SM's control panel shall be freeze till the time position of the knobs, switches, points & crossings etc. are jointly recorded. It is the responsibility of the concerned controlling officer / safety officials to ensure freezing of the above. Safety official shall take into custody of all the relevant documents, broken parts etc.

Performa for Motive Power (Diesel & Electric)

Locomotive (Diesel & Electric): Performa to be filled in case of accident /derailment when loco is involved in accident

1. Basic information:

- a. Date of Accident :
- b. Train No. :
- c. Loco Class :
- d. Loco Number :
- e. Loco manufacture year and place :
- f. Base Shed of Loco :
- g. Date & Place last POH :
- h. Kilometers earned after last POH :
- i. Date & place of last major inspection :
- j. Date & place of last schedule inspection :
- k. Whether any schedule is overdue? :

2. Give brief particulars of the safety items not provided or provided but missing/not working

Whether Loco is provided with:

Safety fittings	Provided	Working
Headlight		
Speedometer		
Speed Recorder		
Flasher light '		
Horn		
Brake System		
VCD		

3. Check & record the observations as follows:

- (a) Position of control handles, cutout cocks etc after the accident.
- (b) Functioning of brake synchronizing valve-whether working or not.
- (c) Position of brake blocks after the accident- whether applied or not.
- (d) Condition of cattle guard.
- (e) Any sign of seizure of roller bearing in Axle box including condition of its components
- (f) Condition of Pivot and Side Bearer arrangement of bogie including obstruction to Bogie rotation.
- (g) Condition of Friction Damper components/ Hydraulic Dampers
- (h) Condition of Traction Rod/ Guide Rod including its connection.
- (i) Condition of Traction Link including its connection.
- (j) Condition of Lateral Stop components between Bogie and Loco body under frame
- (k) Any other observation in respect to mechanical defect of the locomotive, which might have any bearing on safe running of loco.

Note: Defective or broken material should be sent to CMT for testing, if necessary.

Measurement for Wheels for All Classes of Locomotives with wheel gauge (04 locations applicable for Bo-Bo Locos) (Continued)

Notes:

1. Wheel number one is the outer end axle of truck under the short hood and wheel count increases towards the Long hood on diesel loco, whereas for Electric Loco, wheel number one is the outer end axle under Cab-1(Cab- 1 is that side of the loco which has the compressors and Cab-2 is that side of the loco which has the ARNO convertor) and wheel count increases towards the Cab-2.
2. The measurements of wheels are to be done using *wheel* gauges to RDSO drawing No.SKDL-3592 for all BG locomotives except WAP5 locos. For WAP5 locos RDSO's drawing No. SKOL-4446 and SKDL-4447 may be followed.
3. All measurements are to be taken on a level, un-canted track at the nearest yard.
4. Service limits given in the Maintenance Manual are for good maintenance practice and these are not safety limits. However, the measured values shall be compared with the service limits and degradation in values shall be discussed while finalizing the findings.

S. No.	Description	Observed value in (mm)		Remarks
7.	Wheel gauge: For checking wheel gauge, three measurements at equal spacing on the inner periphery of the two wheels on the same axle is to be recorded. Check for bent axle, if any.	1		All measurements shall be taken on a level tangent un-canted track. Information is relevant in case of wheel disc shifting/ <i>bent</i> axle only. For safety, similar limits as applicable for track gauge are relevant for wheel gauge also.

5. Measurement of other relevant items:

S.No.	Description		Observed Value(in mm)	Remarks
1	Buffer /coupler height Measurement of parameters such as buffer length etc may also be done to check possibility of buffer entanglement.			All measurement shall be taken on a level tangent un-canted track. This measurement is required to be taken only in case of trailing stock is with buffers.
2	Lateral clearances	End Axles (1,3,4 & 6)		
		Middle Axles (2 & 5)		
3	Lateral clearances	End Axles (1,2,3 & 4)		Applicable for Bo-Bo locomotives only.
4	Longitudinal clearances, between axle box & bogie. Pedestal liner (for all axles)			Except WDP3A, WDG4, WDP4, WDP4B, WAP5, WAP7, WAG9 locomotives
5	Longitudinal clearances between axle box & bogie pedestal liner (for middle axles)			Applicable to WDP3A locomotive only.
6	Height of Rail Guard from rail level			
7	Condition of suspension Springs i.e. normal/ broken fresh and old fracture or deformities occurred after derailment due to sudden impact.			
8	Deflected height of coil spring after re-railing on level, un-canted track			
9	Condition of Rubber/ Elastomeric Spring Assembly at the Secondary stage			

Note – Measurement of items (e) to (j) in Para 3 & item 8 & 9 in Para 5 will be done as per site condition.

Performa for Carriage

Performa to be filled in case of Derailments:

Note: Details regarding all derailed vehicles should be given except:-

- (i) Where vehicles have derailed due to locomotive derailment.
(ii) When the obvious or indisputable cause is sabotage or an obstruction on the track or broken axle or wheel.
- Particulars for each derailed vehicle should be given in one sheet. Information against columns no. (5), (6), (7), (14), (50) and (51) should invariably be given for adjacent coaches on the same sheet.
- Front and Rear, left (L) and Right (R) are with respect to direction of movement.
- For an obvious case of derailment such as a broken axle, spring dropping off on run, and/or some part of under gear hanging loose and causing obstruction, only relevant particulars need to be filled.
- Relevant details of adjacent vehicles should also be given if cause of derailment is not apparent.

S. No.	Date of Incident & time	Train No.	Details of BPC along with name of the station where issued and Engineer (C&W) who issued it	Vehicle No.	Type	Tare in Tones	Carrying capacity in tones	Built Date	Return Date	POH Details

Performa for Track measurement

PART – B

Station No.	Distance apart in meters	Gauge slack or tight from the Exact in loaded condition (mm)	Cross level under loaded condition (mm)	Marks on sleepers or rail top	Grinding or rubbing marks on rails
1	2	3	4	5	6

Examination of alignment for perceptible kinds of track distortion in the vicinity of the point of derailment	Subsidence of track	Versine in mm in Loaded condition		Remarks regarding length of transition, degree of curve and specified super elevation general alignment etc.	Longitudinal level to be recorded in the case of M.G. and N.G. in case of sags and curves
		On 20 M or 10 M chord depending on the practice prevalent on the Railway for flat curves more than 600 M radius	On 10 M or such shorter chords as considered necessary for sharp curves (less than 600 M radius on B.G. and M.G.		
7	8	9	10	11	12

Note –

- (i) The point of mount should be marked station No. 0 and the stations numbered serially as (+) for measurements ahead of site of derailment and (—) for measurements in rear.
- (ii) The cross level will be measured on the left rail only as determined from the direction of movement.
- (iii) Normally measurement will be taken at station 3 M. apart for a distance of 45 meters on either side of 0 station if the cause of derailment is indisputably known, otherwise they will be taken for a distance of 100 meters in rear and 45 meters ahead of zero station.
- (iv) Where necessary measurements for Col. 3, 4 and 5 may in addition be taken at individual sleepers.
- (v) This Performa need not be filled when the cause of derailment is obviously established as due to sabotage, obstruction on track, broken axle, and/or spring having fallen off prior to point of derailment.
- (vi) Longitudinal levels should be recorded for 300 meters on rear and 100 meters in front, in case of straights at the middle of each rail and at Versine recording points on curves @ 20/10 M intervals.

5.14 NDMA's Guidelines on different types of Disasters :-

GOVERNMENT OF INDIA
MINISTRY OF RAILWAYS
(RAILWAY BOARD)

No. 2018/Safety(DM)/6/14

New Delhi Dated : 26.11.2019

General Managers
All Zonal Railways and
CMD/KRCL

Sub : NDMA's Guidelines on different types of Disasters.

In the recent past National Disaster Management Authority (NDMA, Ministry of Home Affairs) has issued guidelines on the following:

1. Guidelines for Preparation of Action Plan – Prevention and Management of Heat Wave – Oct 2019
2. Landslide Risk Management Strategy – Sept 2019
3. Guidelines on Disability Inclusive Disaster Risk Reduction – Sept 2019
4. Guidelines on Temporary Shelters for Disaster-Affected Families – Sept 2019
5. Guidelines on Prevention and Management of Thunderstorm & Lightning / Squall / Dust / Hailstorm and Strong Winds – March 2019
6. Post Disaster Needs Assessment – Hand Book, SOP, Manual (issued by NDMA)

These guidelines can be downloaded from NDMA's website www.ndma.gov.in. Zonal Railways are requested to go through these guidelines, incorporate in their DM Plan and make use of the relevant portions during working.

5.16 Ex-gratia relief payable in case of death/injury of railway passengers in Train Accidents and Untoward Incidents

2023/TC-III/49/1/Ex-Gratia

I/3077765/2023

GOVERNMENT OF INDIA (भारत सरकार)
MINISTRY OF RAILWAYS (रेल मंत्रालय)
RAILWAY BOARD (रेलवे बोर्ड)

Rail Bhawan, New Delhi-110001
Dated: 18.09.2023

No. 2023/TC-III/49/1/Ex-gratia

The General Manager (Claims)
All Indian Railways

Sub.: Ex-gratia relief payable in case of death/injury of railway passengers in Train Accidents and Untoward Incidents as defined under section 123 read with Section 124/124-A of the Railways Act, 1989 and to the road users in Manned Level Crossing gate accidents.

Ref: Railway Board's previous instructions to be superseded:-

- (1) 2011/TC-III/27/29/Ex-gratia dated 26.07.2012 and 07.05.2013
- (2) 2006/TC-III/27/2 dated 20.12.2006
- (3) 2002/TC-III/28/3 dated 12.06.2002
- (4) 93/TC-III/122/1/Ex-gratia dated 21.08.1995, 26.04.1996 and 18.11.1999

In supersession of Board's Instructions referred above and all other instructions issued on the above subject, it has now been decided to revise the amount of ex-gratia relief to be paid to the dependents of dead and injured passengers involved in Train Accidents and Untoward Incidents as defined under Section 123 read with Section 124 and 124-A of the Railways Act, 1989 and to the road users who met with an accident due to Railway's prima facie liability at Manned Level Crossing Gate Accident. The revised rates and compiled instructions are as below:-

Disaster Management Plan of Kota Division (Part - II -2025)

1. Amount of Ex-gratia for Train Accidents Untoward Incidents and Manned Level Crossing Gate Accidents.

	Type of accident	Amount of ex-gratia for Death	Amount of ex-gratia for Grievous Injury	Amount of ex-gratia for Simple Injury
1)	Train Accident (as defined under Section 124 of the Railways Act, 1989)	Rs.5,00,000/- (Rupees Five lakh only)	Rs.2,50,000/- (Rupees Two lakh Fifty thousand only)	Rs.50,000/- (Rupees Fifty Thousand only)
2)	Untoward Incident (as defined under Section 124-A of the Railways Act, 1989)	Rs. 1,50,000/- (Rupees One lakh Fifty Thousand only)	Rs.50,000/- (Rupees Fifty Thousand only)	Rs.5,000/- (Rupees Five Thousand only)
3)	Accident at Manned Level Crossing (due to Railways prima facie liability)	Rs. 5,00,000/- (Rupees Five lakh only)	Rs.2,50,000/- (Rupees Two lakh Fifty thousand only)	Rs.50,000/- (Rupees Fifty Thousand only)

2. Additional Ex-gratia relief in case of Hospitalization of Grievously Injured Passengers beyond 30 days.

In case of Train Accident	In case of Untoward Incident
Rs. 3,000/-per day to be released at the End of every 10 days period or date of discharge, whichever is earlier.	Rs.1,500/-per day to be released at the end of every 10 days period or date of discharge, whichever is earlier up to further Six month of hospitalization.
	Thereafter, Rs.750/-per day be released at the end of every 10 day period or date of discharge, whichever is earlier up to further five months of hospitalization.
(a) Lump sum amount of ex-gratia for hospitalization of grievously injured passenger upto first 30 days is as mentioned in table at para (1) above.	
(b) The maximum period for which ex-gratia is payable to the grievously injured passenger will be 12 months.	

- 2.1 This ex-gratia relief will be exclusively for passengers who are grievously injured in train accidents or untoward incidents as defined under Section 123, read with Section 124/124-A, of the Railways Act, 1989.
- 2.2 The period for treatment as indoor patient for more than 30 days would need to be certified by a Railway Doctor for the purpose of further ex-gratia payment upto the period of remaining 11 months. In case where the injured is taking treatment in other than Railway hospital, the treatment has to be certified by Railway Doctor.
- 2.3 Sr. Divisional Medical Officers shall also keep track of such injured person taking treatment in other than Railway hospitals. Sr. DCM/DCM shall keep coordination with Sr. DMO for the purpose and arrange payment of ex-gratia as per the prescribed schedule mentioned in the table in Para-2 above at the doorstep of injured person. Every care shall be taken by Sr.DCM/DCM to avoid any inconvenience to injured person in such cases.

3. **Mode of Payment of ex-gratia/enhanced ex-gratia**

- 3.1 Maximum amount of upto Rs. 50,000/- to be paid in cash as an immediate relief for taking care of initial expenses.
- 3.2 Remaining amount to be paid by Account Payee Cheque/RTGS/NEFT/ Any Other online payment mode.

Disaster Management Plan of Kota Division (Part - II -2025)

- 3.3 Notwithstanding anything contained in Para 3.1 and 3.2 above, Railways may disburse the entire amount of ex gratia/ enhanced ex-gratia by Account Payee Cheque/RTGS/ NEFT/Any other online payment mode, if deemed appropriate.
4. **Other terms and conditions:**
- 4.1 No ex-gratia relief would be admissible to road users in case of accident at Unmanned Level Crossing, trespasser, persons electrocuted by OHE (Over Head Equipment).
- 4.2 Ex-gratia payment in case of train accidents and untoward incidents are not to be taken account at the time off in a claim for compensation.
- 4.3 The amount of ex-gratia relief admissible to road users, who meet with an accident due to Railway's prima facie liability at Manned Level Crossing Gate Accident, will be counted towards the amount of compensation payable, if action is tenable against the Railways under the Law of Torts and an award is actually granted by a Court of Law.
- 4.4 Ex-gratia payments should also be made to railway servants killed or injured by a moving train while performing their duty, for example, Gangman working on track run over accidentally by a moving train.
- 4.5 Payments should be sanctioned/are managed preferably on the spot by a Senior Scale Officer nominated by the General Manager after making such enquiries as can be reasonably made on the spot after the immediate needs by way of medical attendance etc. to injured persons are attended.
5. This issues with the concurrence of Finance Directorate of Ministry of Railways.
6. These instructions will come into force from **18 September, 2023**.

Kindly acknowledge receipt of this letter.

5.18 Nomination of Quick Response Team (QRT) Supervisor level over Kota division

Sub: - Nomination of Quick Response Team (QRT) over Kota division

Ref: - As per guidance of DRM/Kota

For giving proper attention during “Golden Hour” at the time of derailment/accident over division- a team of dedicated railway staff section wise is the need of time. For this, as per guidance of DRM Kota – section wise locations for QRT have been identified. DME/Frt. of the division will be the nodal officer of QRT and will be assisted by ADME/Frt. The detail of QRT with location and sectional beat is given in the following table which will reach at the site with the quickest possible mean:-

S. N.	Section	Station	Beat	Kms Cover	Department	Formation of QRT

5.19 Operational of Disaster Management War room for dealing with Rail Madad Compliance

NOTE

Sub.: Operational of Disaster Management War room for dealing with Rail Madad Compliance

1. Pool of following officers will monitor the War room from 06:00 to 24:00 hrs. in 04 shifts of 04:30 hrs. each

Department	Nominated Officers
Signal & telecommunication	02 Assistant Divisional Signal & Telecommunication Engineer
Electrical	Divisional Electrical Engineer-General
Commercial	02 Assistant Commercial Manager
Operating	01 Assistant Operating Manager
Mechanical	01 Assistant Divisional Mechanical Engineer
Engineering	01 Assistant Divisional Engineer
Personnel	01 Assistant Personnel Officer
Security (Railway Protection Force)	Apart from above 02 IPF to be nominated

2. Following staffs will assist in 03 shifts (02 in each shift) i.e. 06:00-14:00 hrs. , 14:00-22:00 hrs. & 22:00-06:00 hrs.

Department	Nominated Officers
Signal & telecommunication	02
Electrical	02
Commercial	02
Mechanical	02
Engineering	04

3. Infrastructural augmentation in disaster Management room to be done by Sr.DSTE/Co. by providing 02 PCs with internet, 02 Mobile Phones having good storage memory and 02 Landline phones – 01 Railway and 01 P&T

4. Mandate :

- (i) To immediately escalate each complaint to the BO concerned and do it repeatedly at 10" intervals till it resolved.
- (ii) To monitor disposal time.
- (iii) To monitor feedback by calling each complainant.
- (iv) To analyse trains and stations having repeated complaints, issues generating repeated complaints and share these with the BO concerned.

Chapter-6

Reporting of Accidents to Railway Board

Disaster Management Plan of Kota Division (Part - II -2025)

CHAPTER-6

REPORTING OF ACCIDENTS TO RAILWAY BOARD

6.0 A telephonic advice should be relayed to nominated officers in Railway Board's Office immediately after the occurrence of the following categories of accident :-

- All consequential train accidents above the threshold value and/or involving loss of human life.
- Any yard accident having serious repercussion on movement of traffic on through/main line resulting in dislocation of traffic more than the threshold value.
- Landslides, breaches, OHE breakdown, etc. which result in dislocation of traffic more than the threshold value.
- Averted collisions.
- Driver passing signal at danger.

Reporting of all accidents cases to Railway Board are now also required to be made through SIMS website (As per Advisor safety, Railway Board's letter No. 2011/Safety(A&R)/3/9 dated 30.11.2011)

6.1 Important telephone numbers of Railway Board's officials for reporting accidents:

The following list is as per the priority of officers to be informed at the time of an accident

6.3 Accident Reporting to CRS :

As per section 113 & 114 of the Railway Act, 1989, the quantum of damage to Railway property has to be prescribed by the Central Government for an accident to be enquired into by the Commissioner of Railway Safety.

Any Accident which is attended with loss of human life or with grievous injury or with damage to Railway property of value exceeding Rs. 2,00,00,000/- (As per Joint Director/Safety, Railway Board's letter No. 200/Safety (A&R)/19/20 dated 28.09.2010) or accident to passenger carrying trains or the cases of landslides or breaches by flood or rain, which cause the interruption of any important through line of communication for at least 24 hours, should immediately be reported to the Commissioner of Railway Safety concerned.

N.B. - Reporting of accidents to the Railway Board and the CRS, shall be the responsibility of the headquarters safety organization, whereas the responsibility of transmitting necessary information to the headquarters and to civil and police authorities shall devolve with the division concerned.

Commercial Department

COMMERCIAL DEPARTMENT

ROLE OF COMMERCIAL CONTROLLER

On receipt of information of serious accident the following measure will be taken by Commercial Controller :

1. He will first inform Sr.DCM, DCM, ACM & Sectional CMI about the nature, time and site of accident.
2. DCM will immediately proceed to Commercial Control in DRM office alongwith 2 TCs and will take position.
3. Sr.DCM will proceed to accident site alongwith ACM, CMI & 5 TC, porters and labours.
4. Commercial Controller will collect four copies of reservation charts of the concerned train in case of passenger train from PRS. Permission from CCM/PM should be taken.
5. Emergency Cell will be opened at Kota, SWM, GGC & BTE stations for information of passengers. SM/Kota will be over all in-charge of Emergency Cell. Dy/SS (Comml.) will assist SM/Kota. Emergency control must be opened at affected station.
6. Commercial Controller will collect the information from accident site and to be relayed to all Emergency Cell / Enquiry offices which opened at station.
7. ACM will ensure proper catering arrangements and drinking water at accident site & relief train.
8. List of injured persons category-wise will be obtained from site of accident and accordingly ex-gratia payment will be given. Such list will be conveyed to Divisional Control office. List of injured persons will be given by the CMI at site hospital wise where they have been admitted.
9. Details of causality-dead / injured and safe passengers should be given to Emergency control at site, information of train composition, no. of passengers travelling in train, no. of passenger in affected train/coaches, no. of TTE available in train should also be relayed to Commercial control.
10. In case of accident of Goods trains transport will be arranged along with labour for transshipment for which order will be given to sectional CMI and other supervisor staff available at site.
11. Detail of rescue operation and assistance being rendered to affected passengers. Telephone & Fax No. of the accident site must be taken.
12. List of Doctors, Hospitals and local authorities will be obtained from the concerned railway staff of the adjoining station.
13. DCM and Commercial Controller will ensure feeding of information regarding passenger name etc. to website in consultation with DSTE/Tele.
14. Transshipment of affected passengers to nearest hospital should be ensured for which road vehicle etc. must be arranged.
15. Chart of affected and un-affected passenger should be readily available for conveying information to next of kin/family of injured / dead passengers and also relayed to Control Office, in division.
16. List of safe passengers should also be prepared and conveyed to Control Office.
17. List of affected / un-affected coaches should also be prepared and conveyed to Control Office.
18. Help should be provided to injured / affected passengers for shifting to the Hospitals.
19. Take action to save the lives and render First-aids and organize relief operation.
20. Commercial staff will not leave site without permission of Sr.DCM.
21. Arrangement to safely hand over the luggage to affected passengers with the help of RPF/Security staff deputed by the State Govt.
22. Unclaimed items will be safely transferred to the LPO.

DUTIES OF TTEs AT THE TIME OF ACCIDENT/DERAILMENT:

TTEs / Train Superintendent/ Pantry Car staff should immediately report to the Guard and work under his directions. They shall:

- Ascertain if any doctor travelling, either by scrutinizing the Reservation chart or by making verbal enquiries, and arrange for first aid to the passengers.
- Prepare a list of dead and injured. If doctor is available, the list should be classified as under :
 - Dead
 - Grievous injury
 - Simple injury
 - Make details of the dead and injured from the Reservation chart, tickets held (to and from) or co passengers. Assistance of Police travelling in the train may also be sought for identification.
 - Collect the following details :
 - ❖ Ticket of the passenger travelling (to and from)
 - ❖ Ticket numbers – class
 - ❖ Coach number and its position from the Engine.
 - ❖ Address of the passengers
 - ❖ Nature of injury (simple/grievous)
 - ❖ Take custody of luggage & other belongings. In case of injured, this should be kept by the TTE and in case of death, it should be handed over to the GRP and full details and acknowledgement obtained.
 - ❖ Record evidence of willing passengers with full particulars. If some passengers are willing to give evidence later on, their name and address should be recorded.
 - ❖ Record the number of dead and injured (simple and grievous), if they are already transported by the local people to the nearest hospital before the Railway doctors arrive.

DUTIES OF CMIs AT THE TIME OF ACCIDENT/DERAILMENT:

- Passengers should be provided alternative mode of conveyance and dispatched to their destination or hospitals on priority basis.
- Sectional CMIs should be available on site. Sectional CMI will arrange availability of refreshment material at the site of breakdown. CMI should know the map of the station of their beat.
- List of injured / affected /stranded passengers should be prepared.
- Following lists should be available with CMI :
 - ❖ Hospitals
 - ❖ Ice factories
 - ❖ Nursing homes
 - ❖ NGOs
 - ❖ Blood Bank
 - ❖ Police Station important Civil officials
- Arrangements for refund as per rules would be made.
- He should make arrangements for ex-gratia payments to passengers with the help of CBS, CPS, CGS & CTI as well as arrange other requirements by withdrawing money from station earnings after taking due permission from Sr.DCM.

Engineering Department

Disaster Management Plan of Kota Division (Part - II -2025)

Engineering Department.

Mobilization of officers and staff:

On receipt of information from Control Office shall advise the following in order:

- i) Sectional ADEN
- ii) Sectional in-charge SE/PW
- iii) Sectional Sr.DEN
- iv) Sr.DEN/Co
- v) HQ Engg. Control, JBP
- vi) Dy.CE/ Bridge line, HQ, JBP & BPL.
- vii) SE/ PW/ North Kota in-charge of Engineering material in ART.

Sectional ADEN and Sectional SSE/PW will proceed by first available means. Sectional Sr.DEN will proceed to the site of accident by the ART or first available means. In the absence of Sectional Sr.DEN, the following alternative officer will proceed:

Sectional Sr.DEN

Alternative Officer

Sr. DEN/Co	Sr. DEN/S
Sr.DEN/S	Sr.DEN/E
Sr.DEN/E	Sr.DEN/S
Sr.DEN/N	DEN/C
DEN/C	Sr.DEN/N

In the case of Sectional ADEN on leave, the alternative ADEN should move as per following arrangement:

Sectional ADEN

Alternative Officer

BTE	GGC
GGC	BTE
SWM	GGC
C/Kota	RMA
RMA/Kota	C/Kota
SGZ	RMA
BAZ	C/Kota

Sectional ADEN before moving to the site of accident shall also order his SSE/SE/Work to proceed to site if there is any possibility of involvement of Bridge or some other structure near site of accident.

Engineering Control:

Sr.DEN/Co & ADEN (W) shall move to Divisional Engg. Control. Other Sr.DENs/ DENs will work in Engineering control as nominated by Sr.DEN/Co by rotation, if required. The senior most officers available in the Div. headquarter will be coordinator for all the activities. In case Sr.DEN/Co not available Sr.DEN/E will look after his work. In case of Sr.DEN/S not available Sr.DEN(S) will look after.

Mobilization of work force and P. Way material:

Accident in the Division-

The Sectional ADEN, SSE/PW after reaching the site of accident shall ascertain the extent of damage for PW track including Turnouts, bridges etc. & relay the position to Sr.DEN/Co in Engg. Control. After assessing the position of PW material in the division, Sectional Sr.DEN shall finally place his net requirement to Sr.DEN/Co in Engineering Control.

The local available PW material shall be moved by road after hiring transport.

Disaster Management Plan of Kota Division (Part - II -2025)

Sectional Sr.DEN shall also place his requisition for withdrawal of money from station earning for emergent requirement at site such T & P required, hiring of transport etc. through Engg. Control.

Sr.DEN/Co shall order the movement of Engg. /ART containing PW material to site.

Sr.DOM shall be asked to move the same immediately.

In case the requirement of material is not met out within the division, HQ (CTE) shall be advised for arranging the same.

SSE(PW)/Depot Kota shall be available in Central depot for issuing PW material as per instruction of Sr. DEN/Co/KOTA.

WORK FORCE:

Sectional ADEN shall order movement of labour of his sub division. Normally 100 men are mobilized within one sub division. They will be moved either by truck or train, whichever is first available. Sectional Sr.DEN will relay the requirement of additional work force to Sr.DEN/Co. 50 men, 01 blacksmith with one supervisor shall move to the site from each sub-division by road or rail as directed by Sr.DEN/Co. Labour special shall be organized by Sr.DOM after discussion with Sr.DEN/Co. One SSE/Work or SSE/PW will be deputed at site to keep details of labour & Supervisors reaching at site & distributing work as per instructions of Sectional Sr.DEN. Any assistance required over and above the division, shall be flashed to Engg. Control, HQ JBP for seeking the help from adjoining divisions by the Sr.DEN/Co. In case of restoration time likely to be more than 12 hours, Sr.DEN/Co shall arrange relief for officers & supervisors.

ACCIDENT IN ADJOINING DIVISION:

Sr.DEN/Co/Kota, on receipt of information from HQ shall order the movement of labour & supervisors as asked from nearby sub-divisions @ 50 men, 01 Blacksmith & 01 supervisor from one sub division. On receipt of instructions from PCE/WCR or CTE/WCR, Sr.DEN/Co shall order one Sr.DEN and one ADEN to move with staff to the location as jointly decided with the Sr.DEN (Co) of adjacent Division.

ENGINEERING MATERIALS on ART

The Engineering material as per prescribed scale loaded in Engg. Vans/BRH/BFR will be maintained by SSE/PW/North-Kota and SSE/PW/North-GGC and shall be checked by ADEN/Central and ADEN/GGC regularly.

These wagons will be moved as per order of Sr.DEN/Co. After every movement, material used/issued will be made up by SSE/PW/N/Kota, SSE/PW/Depot, SSE-PW-N/GGC and ensured by ADEN/Central and ADEN/GGC.

Contingency plan:

A booklet on contingency plan is available with CMTS containing telephone numbers of all agencies supplying tentage, water supply, and earth moving machineries etc in different locations. These should be referred to Officer in Control. Sectional SSE/Work shall exclusively responsible for setting up of these facilities. He shall move with sufficient staff for setting up of these facilities. Temporary kitchen in tent/shamiyanas is to be set up so that catering unit arranged by Commercial Department can make use of it to provide hygienic food. Tentage, shamiyanas, chairs etc shall be arranged for the passengers, injured as per requirement.

SR.DEN/DEN in Engineering Control will request the concerned authority (Army/State Govt. Deptt.) for bulldozer, earthmoving machinery etc. in the area if required.

Disaster Management Plan of Kota Division (Part - II -2025)

Drawing sketch of site of accident:

One SSE/Work will be nominated exclusively for preparing of sketch of site of accident. He shall work under the direction of Sectional ADEN/Site-in charge ADEN. He shall also preserve clues/evidences, if any, at the site of accident leading to the cause of accident.

CHECK LIST FOR ENGINEERING CONTROL

1. 1. Information of accident given to:

ADEN	SSE/PW	Sectional Sr.DEN	Sr.DEN/Co	HQ Control
2. Information regarding location of accident, train involved etc.				
3. Information of any special feature involved such as Bridge, Level crossing, buildings etc.				
4. Information of accident along with available details given to HQ Engg. Control.				
5. Information on track materials/T&P/PW staff required for restoration collected from site through Sectional ADEN/ Sectional Sr.DEN.				

Rails	Sleeper Fittings	Fittings	Points & Crossings	T&P	Supervisors	Blacksmith	Trackmen

2. H.Q. informed about staff/Materials assistance required from HQ/other Divisions:

Item				
Quantity				

3. Movement of ART (PW Van/BFRs) within Division & from other Divisions.

Division	ART	Moved at	Reached Site

4. Information of Officers/ Staff moved to site. (Names & Designation)

	Name	Designation
Officers		
SSE-P.Way		
SSE-Bridge		
SSE-Works		
Staff		

CHECK LIST FOR SITE ENGINEERING INCHARGE

1. Detailed survey of site of accident done.
2. Assessment of track damage/PW material/Manpower/Machinery required for restoration & relaying the same to Engg. Control
3. Site office/Tenting/Shelter put up at site as per plan.
4. Water arrangement/Stay arrangement made for staff.
5. Site Sketch Preparation.
6. Joint observations/Track reading/Wagon/Coach reading etc.
7. Lighting arrangement for night work.
8. Proper unloading of materials at site.
9. Duties assigned to officers/Supervisors/Staff.
10. Tent Parties/Earth moving matching agencies/Water agencies contacted & informed for action.
11. Temporary Kitchen set up at site.

The following staff of TL & Power is nominated on ARME duties:-

• **ARME Kota:-**

1. Sh. Prem Narayan SSE/EL/TL/AC Kota (**Incharge/ARMV**),
2. Sh Himanshu Sharma- Sr.Tech Kota,
3. Sh. Imran Khan –Tech. Gr-III/TL/AC,
4. Sh. Rakesh Meena,-Tech.-III, TL/AC,
5. Sh. Shashi Pal Meena,- Asstt. Tech./TL/AC,
6. Sh. Hemraj Jatav,- Asstt.Tech./TL/AC,
7. Sh. Ram Raj Dhobi - Asstt. Tech./TL/AC.

• **ARME Kota Standby:-**

1. Sh. Mohit Kumar-JE/TL/AC-Kota (**In-charge**),
2. Sh. Mahendra Kumar,-Sr.Tech./TL/AC,
3. Sh. Sher Singh Mahawar-Sr.Tech. /TL/ AC,
4. Sh. Pawan Jadon-Tech-II./EL/P.Kota

• **ART Kota:-**

1. Sh. Charan Singh -SSE/EL/NRC/Kota(**Incharge**),
2. Sh. Asif Khan Sr.Tech SSE/EL/NRC/Kota,
3. Sh. Kamal SinghTech-ISSE/EL/NRC/Kota,
4. Sh. Narendra Kumar Tech-I SSE/EL/NRC/Kota,
5. Sh. Mukesh Kumar Tech-II SSE/EL/NRC/Kota,
6. Sh. Bharat Singh Tech-II SSE/EL/NRC/Kota,
7. Sh. Sanjay Singh Asstt. Tech.,
8. Sh. Mohd. Asfar- Tech. SSE/EL/NRC/Kota,
9. Sh. Neeraj Sharma- Asstt.Tech. SSE/EL/NRC/Kota,
10. Sh. Hanuman Prasad Meena- Asstt.Tech. SSE/EL/NRC/Kota

• **ART Kota Standby :-**

1. Sh. Govind Verma SSE/P/WRS Colony. (**Incharge**)
2. Sh. Yaswant Singh -Tech-III SSE/EL/NRC/Kota ,
3. Sh. Megh Ram Meena - Asstt .Tech. SSE/EL/NRC/Kota,
4. Sh. Surendra Meena - Asstt.Tech. SSE/EL/NRC/Kota

• **ARMV GGC: -**

1. Sh. Prem Raj Meena - SSE/EL/G/GGC (**Incharge/ARMV**),
2. Sh. Vikas Chaturvedi, -Tech-I./EL/G/GGC,
3. Sh. Bablu Ram Meena, -Tech-I/EL/G/GGC,
4. Sh. Udai Singh P, -Tech-I./EL/G/GGC,
5. Sh. Gopal Saini,- Asstt.Tech./EL/G/GGC.
6. Sh. Jagdish Kumar Meena – Asstt. Tech. EL/G/GGC,
7. Sh. Murli Dhar Meena,- Asstt. Tech. EL/G/GGC

Disaster Management Plan of Kota Division (Part-II-2025)

- **ARME GGC Standby :-**
 1. Sh. Jabir Khan, -Tech I/EL/G/GGC (**In-charge**)
 2. Sh. Mukesh Meena - Tech.III./ EL/G/GGC,
 3. Sh. Sharif Mohd.- Asstt.Tech EL/G/GGC,
 4. Sh. Prem Singh –Asstt. Tech EL/G/GGC.
- **ART Gangapur City: -**
 1. Sh. Prem Raj Meena - SSE/EL/G/GGC (**Incharge/ART**)
 2. Sh. Ajay Kumar Kherwal, Sr. Tech -/EL/G/GGC
 3. Sh. Ramsaroop saini -Tech-I/EL/G/GGC,
 4. Sh. Hari Charan -Tech-I/EL/G/GGC,
 5. Sh. Moh Juned- Tech-I EL/G/GGC,
 6. Sh. Raju B –Asstt. Tech. EL/G/GGC,
 7. Sh. Ram Lakhan Meena –Asstt. Tech. EL/G/GGC,
 8. Sh. Sonu -Asstt Tech., EL/G/GGC.
- **ART Gangapur City Standby:-**
 1. Sh. Mahesh Chand M-Tech-I/EL/G/GGC(**In charge**),
 2. Sh. Narshi Lal Meena -Tech-I /EL/G/GGC,
 3. Sh. Desh Lal Meena –Asstt. Tech./EL/G/GGC,
 4. Sh. Mukul Sirotiya –Asstt. Tech. EL/G/GGC.

Setting Up of Emergency Electrical Control

Electrical Control Staff:

(1)	Sh. Vivek Singh	JE/P/CTO/Kota	7877959089
(2)	Sh. Anmol Kumar	SSE/EL/G/Kota	9001017327
(3)	Sh. Neetesh Gautam	SSE-P/ERS/Kota	9818838489

Mobilization of Staff:-

1. In case of accident, the two nearest depots, one from either side of the accident site and Zonal in charge will move to the site with available man and material. In case of more assistance, the necessary instructions will be issued by officers manning Electrical control.
2. As soon as the ART has reached the accident site, the ART Electrical in-charge will provide portable generators along with lighting fixtures at accident site.
3. One VHF set should be available with Electrical control at site and one with Sr. Supervisor at site to meet out the lighting requirement at site.
4. It is the personal responsibility of the concerned ART in-charge to keep the electrical equipments in good working condition.
5. Electrical Control office would be set up near Emergency Control office manned by Supervisor round the clock.

Electrical-Traction Distribution Department

Disaster Management Plan of Kota Division (Part - II -2025)

ELECTRICAL -TRD DEPARTMENT

EMERGENCY ACTION TO BE TAKEN BY TRD DEPARTMENT:

Action will be taken by TPC either through first information from site or Section control or after CB tripping & section does not hold good after second re-closure.

- As soon as TPC gets information about any abnormality (in case there is no CB tripping) either from site or ATNL, he will immediately open the feeding circuit breaker / BM of the concerned section for making OHE dead on both UP & DN lines. A hooter controlled & sounded by ATNL is installed in TPC room may be taken care of in emergency situations.
- As soon as CB trips and does not hold on second re-closure, concerned TPC will immediately start segregation on SCADA system to locate faulty section. After locating faulty section, he will make the adjoining DN / UP healthy section dead to stop any movement of electric trains in either of the two directions (Item No. 1 & 3 of Para 5 Appendix VIII of ACTM Vol. II Part II)
- The TPC will inform the concerned ATNL regarding the abnormality and will try to get the details about the abnormality. Further he has to ensure through ATNL that no movement of electric train takes place from healthy and charged section to uncharged / dead section.
- TPC will then inform to the concerned TRD maintenance depot & supervisors, and shall ask them to be ready for movement to the site where abnormality has taken place. The information is then to be relayed to CTPC and he has to be told to reach in TPC.
- Further the information will be relayed to concerned ADEE / DEE and Sr. DEE / TRD. The TPC will further inform to the adjoining nearest depot to get ready for movement or any OHE gang available in section at that point of time. The OHE staff shall be informed about the location and shall be directed to site of abnormality by a road vehicle / truck.
- The Tower Wagon based at concerned depot to be moved on priority. Tower Wagons stabled in adjoining depots shall also be moved on priority so that it reaches the site from other end.
- The OHE supervisor, who reaches first at site will survey the site, access the damages and will convey the status to TPC. Depending on this information the reinforcement if any required, movement of adequate T&P and material / equipment shall be arranged by TPC.
- In case of any OHE breakdown or breakage of OHE wires takes place the area around it should be cordoned off, so that no one gets injured.

Disaster Management Plan of Kota Division (Part - II -2025)

- If there is a case of an electrocution no attempt to rescue an electrocuted person be made until it is ensured that power supply has been cut off to the effected line. Call for medical assistance. In the meanwhile, after the injured, if any, has been separated from the OHE wires, he shall be given first aid.

Mobilization Of Officers and Staff.

- Sr.DEE/TRD will proceed to the site of accident by first available means of transport. In the absence of Sr. DEE /TRD, DEE /TRD will proceed. Sr. DEE or DEE / TRD will man the TPC.

Following is the jurisdiction of officers.

Sr. DEE/TRD/ Kota: NAD to MTJ on main line and (Kota to RTA , GQL- Chanderia & RMA to KCPR) on branch lines.

DEE/TRD/Kota: RDT to IDG on main line, Kota to RTA and Kota- CNA on branch line i.e. TRD Depot KOTA, LKE, BAZ & CAG, SGAC, BUNDI, MLGH.

ADEE/TRD/SGZ : NAD to RDT & RMA to NAYAGAON i.e. TRD depot VMA, SGZ & RMA, JAPN.

ADEE/TRD/BTE : IDG to MTJ i.e. TRD depot SWM, GGC, HAN, BXN & BTE.

Setting Up Of Emergency TRD Control.

- Four TRD supervisors (TPC's) always man emergency control of TRD round the clock, one on each of the four boards i.e. one for NAD – KOTA, one for KOTA – GGC, one for GGC – MTJ & one for Kota – RTA section & GQL-CNA. CTPC is the in-charge of this TPC control.

Mobilization Of Staff And Material:

• Accident in Own Division:

In case of accident within division two nearest depots one from either side out of the following will move by Tower wagon / Truck to the site immediately depending on the location of the site:

Depot	At Km	Section
VMA Depot	at 735 KM	Kota- NAD Section
SGZ Depot	at 787 KM	
RMA Depot	at 849 KM	
KOTA Depot	at 918 KM	
LKE Depot	at 981 KM	Kota- GGC Section
SWM Depot	at 1030 KM	

Disaster Management Plan of Kota Division (Part - II -2025)

GGC Depot	at 1092 Km	
HAN Depot	at 1136 KM	MTJ- GGC Section
BXN Depot	at 1169 KM	
BTE Depot	at 1211 KM	
BAZ Depot	at 66 KM	Kota—RTA Section
CAG Depot	at 125 KM	
SGAC Depot	at 02 KM	
JAPN Depot	at 33 KM	RMA-BPL Section
BUDI Depot	at 32 KM	Kota- COR Section
MLGH Depot	at 100 KM	

Supervisors, staff, TW / Trucks of the adjoining depots may be sent to the site of accident, if required depending upon the assessment of work involved, for restoration. TW / Truck will move to BD site within 30 min. during day time and 45 min. during night time

• Accident in adjoining Division / Railway:

RTM division of WR, Agra division of NCR, BPL division of WCR & JP division of NWR.

In case of accident in adjoining divisions, SSE/TRD along with TW/Truck and staff will be sent on demand / requirement. In case of more assistance, officer manning the TPC will issue the necessary instructions.

Electrical-Traction Operation Department

Disaster Management Plan of Kota Division (Part - II -2025)

Action Plan of Electrical (TRO)-Kota Division for disaster management will be as under :-

S. No.	Item	Details
1	Resource Unit-I	On trains carrying passenger following resources should be available with crew: i) Portable telephone with crew. ii) Walkie-Talkie with Guard and Loco Pilot as personal equipment. iii) CUG mobile with LP, ALP and CLI.
2	Disaster Response (Instant Action Team-IAT)	Crew is included in IAT. As a member of IAT he should act as under:- i) If he has CUG relevant official numbers (Control, TLC, Lobby) should be fed into his mobile equipment permanently. ii) They should keep a torch handy and secured.
3	Duties of LP	i) Note the time of the accident and location. ii) Switch 'ON' the "Flasher Light" of the locomotive and sound whistle code. iii) Inform Guard on walkie-talkie set. iv) Inform Station Master on walkie-talkie set if possible. v) Protect the adjacent line, if required, and the train in front as per G&GSR 6.03. vi) Take necessary action to keep the Loco safe. vii) Take necessary action to prevent Loco/Vehicles/Wagons from rolling down. viii) Send the information through quickest means to Control office and SMs on either side of the Block section. For this purpose:- a. Walkie-talkie communication provided with stations should immediately be used.CUG phone may be used as quickest means. b. Otherwise field telephone should be used. c. If a Train comes on the other line which is not blocked, the same should be stopped and information sent through the Loco Pilot. d. Assistant Loco Pilot or Assistant Guard may be sent to the nearest station to convey information of the accident if a,b,c fail. e. If all of the above fail, one of the Railway staff on duty on the train should be sent on foot to the nearest station. f. In the event of a serious accident, when prompt assistance is required and information can't be conveyed promptly in the manner prescribed above, train engine can be sent to next station, if it is able to proceed. g. Render all possible assistance to the guard. h. Preserve all clues and evidences regarding probable cause of the accident and ensure that these do not get disturbed.
4	Locating the nearest level crossing gate	The train Loco Pilot is the best and faster source of information regarding location of the nearest manned level crossing gate in either direction. The crew will intimate the IAT in-charge about the gate location whenever asked.
5	Duties of CLI	i) Reach the site of accident by quickest available means. ii) Ensure that the obstructed line is protected. iii) All of them should work as per directions of OIC site. iv) Joint measurement and preservation of clues and evidences.
6	Action to be taken by Electrical (TRO)	i) TLC, on getting first information, will collect brief details about the accident. ii) TLC (Unusual) will relay this information to CTLC, DEE/ADEE/TRO Kota and Sr.DEE/TRO/Kota. iii) If information is received from sources other than Traffic deptt. TLC will inform

Disaster Management Plan of Kota Division (Part - II -2025)

		immediately to Dy. Punctuality for appropriate action/protection. iv) TLC(Unusual) will immediately made the following arrangements:- - Loco Inspector to be directed to site with SPM Keys & Breathalyzer. - Maintenance staff from nearest out pit to be moved, with tools, if loco is involved. - TLC/Crew will enquire that required numbers of crews to be dispatched from Kota & GGC for running trains in case of diversion, if any. - A dual brake loco with crew to be kept ready from nearest sources. - As per requirement nearest shed to immediately arrange maintenance staff and keep them ready to move with tool. - Vehicle with driver to be kept ready for moving any man and material. v) TCC/Lobby KOTA/GGC immediately arrange suitable crew for ART & ARMV vi) Sr.DEE/TRO, DEE/ADEE/TRO and CTLC will arrive in control. vii) TLC/Unusual will do all these arrangements in shortest time. TLC/Movement will watch all the latest development regarding accident on train charting and section chart and will inform the TLC/Unusual about details. viii) TLC will advise LP/CLI for freezing SPM memory and collect information regarding kilometer number, exact location and condition of Loco & OHE assistance required. ix) The CTLC, DEE/ADEE/TRO will take full control of situation in TLC control and for recording/logging details in accident register and will advise HQ office accordingly. DEE/ADEE/TRO will co-ordinate with Shed/Lobby/other control for all assistance and decisions. x) Required numbers of suitable Goods Locos and Loco Pilots should be arranged as spare for operating coaching services. xi) Updated list of CUG mobile phones provided to TRO staff should be available in TLC Office.

Mechanical Department

Disaster Management Plan of Kota Division (Part - II -2025)

MECHANICAL DEPARTMENT

Mobilization of Officers and Staff:

Nominated Officer

Sr. DME (Freight)

DME/Freight – In-charge 140 T Crane

Alternative Officer

Sr. DME (Coaching)

Sounding of Hooter

- For Kota Break down, the siren hooter will be operated by Dy.CHC as per disaster manual Para and 3.4 (9) accident manual Para 405 as per prescribed code.
- For GGC Break down ordering, the siren hooter will be operated by lobby supervisor under advise of Dy.CHC Kota as per disaster manual Para and 3.4 (9) accident manual Para 405 as per prescribed code.

General

- Nominated Supervisor for Kota/GGC will move with Break down.
- In case of main line infringement requiring Kota/GGC Break down Sr.DME (Freight) will proceed to site by available means.
- In case of other Break down cases of Kota/GGC, ADME/Freight will proceed to site by available means.
- In case of GGC Break down BTE and SWM staff shall proceed to site of accident by available means in consultation with Carriage control.
- SSE/ARME and nominated staff of ARME shall move with ARME.
- SSE/ART and nominated staff of ART shall move with ART.
- SSE/ART will monitor ART movement timing and will ensure running of Break down at prescribed speed.
- All out of course stoppage will be immediately communicated to CCCR and Sr.DME (Coaching) in control.
- After sounding of hooter/alarm, DCWI/SSE will quickly reach the ART. However, their movement shall be governed by the instructions made by Sr.DME (Coaching) or the concerned officers in his absence.

Setting Up of Emergency Mechanical Control (Carriage Control).

Sr.DME (Coaching) shall man division Mechanical controls (C&W) round the clock and will follow the duty list as contained in Disaster Manual Part I Para 8.8 and Accident Manual Para 8.8 and Accident Manual Para 305. He will coordinate all the activities being controlled at Divisional control office (C&W control), The officer shall be assisted by CCCR/DCWI.

Setting Up Of Site Offices, Tentage, Shelters & Drinking Water Facilities:

- SSE/ART shall be exclusively responsible for setting up of these facilities. He will depute the sufficient staff for setting up of these facilities.
- Photographs at accident site will be taken with the help of Digital camera available in each ART.
- Conference office available in ART will be utilized for having important meetings. The conference office is adequately furnished.
- Assistance from local/Civil authority can be taken as per available information.

Disaster Management Plan of Kota Division (Part - II -2025)

- In addition to relief and restoration work, it will be the top most responsibility of each ART staff/officers to carry out all the efforts to save human life, provide shelters to the stranded railway passengers.

Medical Department

SPARMV / DRH-KOTA **ACCIDENT ACTION PLAN**

Following action plan is to be followed by Medical Team while attending any Railway accident in the jurisdiction.

- 1) **Information Receipt:** The Information regarding the accident may be received through:
 - a) Hooter Sound
 - b) Telephonic Information: telephonic inform in Emergency room by control (Control should inform emergency room of Divisional hospital and the CMS as soon as SPARMV is ordered)
 - c) On duty Casualty staff to remain in close contact to SS / On duty, Control for every minute information

- 2) **Information Recording:**

Noting Accident detail: on receipt of accident the information, Casualty/emergency room Nurse will note down following information:

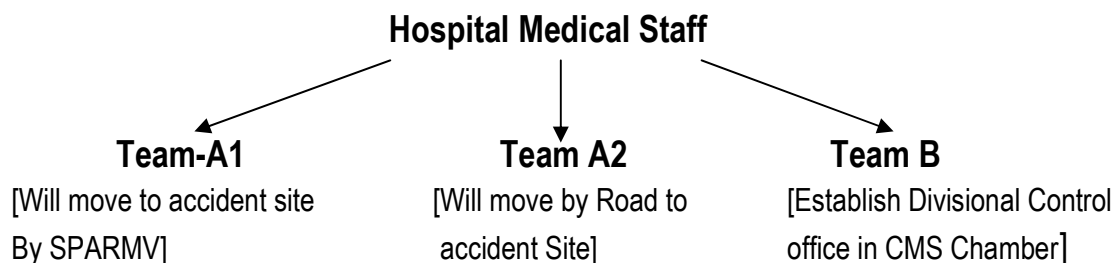

Source of message	Time of message	Accident Place / Section Involved	Accident Time	Accident Detail	Train involved	Routes available to reach (Road & Rail)

- 3) **Information Dissemination:** (Dissemination of above information)

- a) The doctor and paramedics on Emergency duty room will first of all inform the CMS or in his absence ACMS(Admin.)/senior most IRMS doctor on the day.
- b) In-charge nursing staff Emergency room with assistance of the other staff of Emergency room will pass on the information to all nominated members of Team A-1, A-2 & Team B.

- 4) **Team Creation And Movement:**

Immediately the medical department will be divided into three teams to cope the situation.

Disaster Management Plan of Kota Division (Part - II -2025)

The Medical department is divided into three teams to cope with the Railway accident.

- (1) CMS/Kota CMS will reach to accident site either by SPARMV or by Road as per need, and will be overall in-charge of all the teams. All team leaders will report to CMS/Kota.
- (2) Team A-I Team A1 leader (SPARMV In-charge or Senior most doctor available on SPARMV will be the Leader of Team-A1) with other Team-A1 members to move by SPARMV.
- (3) Team A-2 Dr. Rajan Gupta (in his absence next senior Doctor will lead Team A-2.) to move by Ambulance with Team A2 members with 3 POMKA, Stretcher, Injection TTx50 and Injection ASVx10.
- (4) Team B. Dr. Manisha Sharma (In her absence Dr. Deepti Shukla will move to Divisional Control Office.) will move to Divisional Control office.
Dr. Deepti Shukla (In her absence senior most, Doctor will manage the work.) will move to Divisional Hospital to establish emergency cell and manage hospital working and emergencies.
ANO will report to Emergency room.

5) **Detailed Duties:**

I. **Team A1:**

- a) Team A-I will report to the ASM on duty near the SPARMV within 15 minutes and obtain written acknowledgement from the ASM regarding arrival of the medical team with time & date. The team will then proceed to the accident site by SPARMV .
- b) Leader of Team A-I will remain in close contact with Team A-2, Team-B, doctor I/C of the Hospital/ health unit of the concerned section & Doctor in Divisional Control room(CMS Chamber).
- c) En-route, the leader of team A-I will nominate doctors and paramedical staff or the duties to be performed at the accident site as per need of the situation. He will contact the medical facilities in the vicinity of accident site and ask them to be prepared for casualties depending on the nature and magnitude of the accident.
- d) Following nomination/duty assignment will be done by Leader (Team A1) en route accident site:
Group-1: One doctor and Nurse/HA will be nominated for conducting medical examination including Breath Analyzer Test and alcohol blood sampling of the Driver/Assistant Driver & Guard of the train(s) involved.

Disaster Management Plan of Kota Division (Part - II -2025)

Group-2: One Doctor and Pharmacist will be nominated to take care of the dead bodies till their final disposal with the help of Civil Authorities/GRP [Detailed duties are enumerated in point no: III]

Group-3: Other Nominated Doctors and Paramedics will be deputed for providing first aid to the injured at the accident ground and in OT/ARMV for any minor operations [Detailed duties are enumerated in point no: V]

Group-4: One doctor and pharmacist will visit nearby hospitals and gather information regarding the injured persons admitted there if Team-A2 members are not assigned for this work.

He will pass on the relevant information to CMS / Nodal Officer at the accident site. [Detailed duties are enumerated in point no: IV]

Group-5: The leader of Team A-I (with one Pharmacist)

a) The leader of Team A-I will remain available at the accident site and will not leave the accident site under any circumstances, except when specifically permitted by the DRM.

b) He should be available himself near the telephone at the accident site and coordinate all the relief measures.

c) He will establish communication with the Emergency Cell at Divisional Hospital and leaders of the Team A-2 & Team B.

d) List Preparation:

- The leader of Team A-I will collect information from all sources about the details of the injured persons and dead bodies and will prepare a preliminary list of injured/dead persons in the following format

S. N.	Date and time	Name	Father's / Husband's Name	Age/ Sex	Address & Telephone Number	Ticket Number	From and To	Details of injury	Nature of Injury	Remarks

- The above list and will be disseminated to
 - ✓ ONE copy to senior most officer of the Commercial department available at the site
 - ✓ ONE copy will be kept by the Nodal Officer of Team A-I
 - ✓ ONE copy will be given to paramedical staff for getting multiple copies for further distribution
- This list will be suitably revised / updated on receipt to further information from all possible sources.

Disaster Management Plan of Kota Division (Part - II -2025)

- In case the number of injured persons are too large, only Sr.No., Name, Age, Sex, Nature of Injury and Ticket no will be written as firsthand information and suitable updating can be done later on.
- The list will also contain information about the persons having trivial injuries like petty abrasions and bruises but these will not be counted for reporting purposes and will be retained by the leader of Team A-I for record purpose only. The number of dead and injured (simple and grievous) should only be reported.
 - e) They will arrange for Ambulance/other suitable transport immediately, in advance, to transport injured persons
 - f) **Will process all data / information in Tablet Computer available in SPARMV, and may use the same for gathering/dissemination of the information. Email/ Whatsapp /chat/call facilities provided in the Tablet will be leveraged for being quick and current in management.**
 - g) The senior most doctor in charge should be the last person to leave the site of accident after ascertaining that no case has been missed. He should arrange to get particulars of all the injured cases including those attended by non-railway doctors and the names and addresses of such doctors for settling claims, if any, and for issuing letters of appreciation by the Chief Medical Director or the General Manager later.

II. Duties of Team A-2:

- a) Leader of Team A-2, along with other Team A2 members will first move to SPARMV carrying a POMKA and thereafter to the accident site by road, if approachable. If not, then they will move in SPARMV/SPART. The movement detail will be updated to Leader Team A1.
- b) They will remain in contact with leader of other teams and leader of Team A-I.
- c) Leader of Team A2 will make one group of one doctor and Paramedics to visit nearby hospitals and gather information regarding the rail accident injured persons admitted there if any. They will pass on the information to CMS / Nodal Officer at the accident site in the following format :

S. N.	Date and time	Name	Father's / Husband's Name	Age/ Sex	Address &Telephone Number	Ticket Number	From and To	Details of injury	Nature of Injury	Remarks

They will, monitor their progress and coordinate with the hospital doctors in providing suitable medical aid and arrange for the transportation of the injured to other better hospitals on a need basis.[Detailed duties are enumerated in point no: IV]

III. Duties of the team In-Charge of Dead Bodies [Team A1/ Group-2]:

- a) He/She will note down the detail particulars of the dead bodies and arrange to shift them to a nearby nominated place, away from the track/bogies with the help of medical staff, Trackmen, other railway/non-railway persons available, St. John Ambulance members, Bharat Scouts & Guide volunteers, Civil-Defense members and others at the site.
- b) He will put a white cloth with label on the chest (below the neck) of the dead body and indicate following details with marker pen;
 - o Dead body Serial Number
 - o Name, Age, Sex else[in case of unknown dead bodies, unknown-1, unknown-2 etc. should be mentioned against the name column and estimated age should be mentioned as per appearance.]
- c) Then Dead body will be kept inside a Plastic body bag with Zip and information about the dead body will be mentioned.
- d) The dead bodies will then be handed over to GRP/The Civil authorities for medico legal procedure and final disposal.
- e) In case the disposal of dead bodies is delayed due to non-availability of the relatives or due to any other reason, he will arrange for preservation of the dead bodies in ice etc.
- f) He will arrange for final disposal of the dead bodies by providing foldable coffins / wooden coffins from the Divisional Hospitals on a need basis which are available in mortuary of Divisional Railway Hospital.

IV. Duties of Teams Visiting Various Hospitals Where Injured Person Are Admitted/Dead Bodies Are Lying [Team A2/Group-1 or Team A1/Group-5].

- a) In case Railway vehicle/Ambulance is not available, they will hire private road vehicles to visit various hospitals. Doctors going to different hospitals will hire separate vehicles for their movement.
- b) On reaching the hospital, they will prepare a list of injured/dead and send the same to the Nodal Officer available at the accident site.
- c) They will monitor the progress of the injured persons and arrange for their transportation to bigger hospitals with better facilities on a need basis.
- d) They will coordinate with the doctors of the respective hospitals in providing proper treatment and settlement of the bills at the time of discharge.
- e) They will remain at the hospital for briefing the VIP's visiting these hospitals.
- f) They will also coordinate with the officials of the Commercial/Personnel Department for arranging ex-gratia payment to the accident victims.

Disaster Management Plan of Kota Division (Part - II -2025)

V. Duties of Doctors Involved In Rescue Operation[Team A1/Group-3]:

- a) They will take record of details of the injured persons and dead bodies in the following format

S. N.	Date and time	Name	Father's / Husband's Name	Age/ Sex	Address & Telephone Number	Ticket Number	From and To	Details of injury	Nature of Injury	Remarks

The above list and information will be updated to CMS/Leader Team A1

- b) They will provide preliminary treatment including life savings to the injured, will refer them to the nearest civil hospital/Private hospital for any secondary management if required.
- c) Those who feel ok after preliminary treatment may be arranged to continue their journey for destination after record taking.
- d) Hand over the dead bodies to the doctor/Group in-charge of the dead bodies.
- e) They will arrange to transport the injured persons to the nearby Railway/Govt./Private Hospitals.

ARMV / SDRH-GGC

ACCIDENT ACTION PLAN

The following procedure is to be followed at Sub Divisional Railway Hospital, GGC during train accidents where casualties are anticipated.

The information regarding the accident may be received through:

- (a) Hooter sound (**Four Times**)
- (b) Information on telephone in the casualty from control room. (**Control should inform Casualty of Sub Divisional Railway Hospital and ACMS as soon as ARMV is ordered**)
- (c) ARMV departure time is fifteen minutes (15 minutes) after receiving information

The Medical department personnel are divided into three teams to cope with the Railway accident.

- (1) **Team A-1** Leader ACMS /senior most IRMS doctor Dr. Monika Nagar and Dr. Satya Veer Singh Dudi to move by ARMV.
- (2) **Team A -2** Leader Dr. Sachin Gupta to move by Ambulance.
- (3) **Team B.** Dr. Muzahid Ahmad will move to Sub Divisional Hospital office to establish Emergency cell and manage hospital working and emergencies.

Meaning of Hooters: - Duration of hooter 45 seconds each

- Two Hooters: Derailments of goods train within the jurisdiction break down required
- Three Hooters: Derailments goods train out of the jurisdiction break down required
- **Four Hooters: Human body involved in accident within the Jurisdiction medical van required**
- **Five Hooters: Human body involved in accident out the Jurisdiction medical van required**
- **One long hooter of one minutes is cancellation hooter**

Duties of the Doctor and Paramedics on Casualty Duty

- ❖ On receipt of the Accident information through hooter or control room, the doctor and paramedics on Casualty duty will note down the source and time of the information / message received the train number(s), the site of accident, and the section involved in the prescribed Performa. He/ She will first of all inform ACMS or in his absence senior most IRMS doctor on the day.
- ❖ In-charge nursing staff casualty will pass on the information received from the control room / hooter to all nominated members of Team A-1, A-2 & Team B with assistance of other paramedical staff. On duty nursing staff of SDRH GGC to inform nominated staff.

Disaster Management Plan of Kota Division (Part - II -2025)

- ❖ Nursing staff I/C of SDRH GGC, along with Dresser/HA of Casualty will move by Ambulance to ARMV and report to ASM on duty available near the ARMV.
- ❖ Team A-2, carrying with them a POMKA will report at ARMV & will move by Ambulance to accident site if approachable by road in time (one hour). If not, the team (Doctor, Nurse & OTA) will move with ARMV and Ambulance with stretcher bearers will proceed to the site by road.
- ❖ Leader of Team B will report to Casualty, Sub Divisional Railway Hospital GGC & establish Emergency Cell in ACMS Chamber.

Information Flow

- On duty nursing staff will inform all Doctors and Matron I/C.
- Matron I/C will inform and arrange nursing staff, Chief Pharmacist, Chief Health Inspector, and Chief Office Superintendent.
- Chief Matron will inform Dressers, Hospital Attendants, staff of X-ray, Laboratory Staff and HKA.
- Chief Pharmacist will inform their subordinates.
- Chief Office Superintendent will inform their subordinates.
- Chief Health Inspectors will inform their subordinates.

The function of all the teams are as follows:

Duties of Team A-1:

- ❖ Team A-1 will report to the ASM on duty near the ARMV within 15 minutes and obtain written acknowledgement from the ASM regarding arrival of the medical team with time & date.
- ❖ The team will then proceed to the accident site by ARMV and leader of Team A-1 (ACMS or the next senior most IRMS doctor) Inform to CMS KOTA and will remain in close contact with Team A-2, Team-B, doctor I/C of the Hospital/ health unit of the concerned section & Doctor in Control room.
- ❖ En-route, the leader of team A-1 will nominate doctors and paramedical staff for the duties to be performed at the accident site as per need of the situation. He will contact the medical facilities in the vicinity of accident site and ask them to be prepared for casualties depending on the nature and magnitude of the accident.
- ❖ One doctor will be nominated for conducting medical examination including Breath Analyzer Test of the Driver/Asstt. Driver & Guard of the train(s) involved.
- ❖ One Doctor will be nominated to take care of the dead bodies till their final disposal with the help of Civil Authorities/GRP. He will be assisted by the doctor nominated for conducting medical examination of the crew, after he/she has finished the medical examination.
- ❖ Doctors will be deputed for providing first aid to the injured at the accident site and arrange for their transportation to the nearby hospitals.
- ❖ One doctor will be deputed to visit nearby hospitals and gather information regarding the injured persons admitted there if any. He will pass on the relevant information to ACMS / Nodal Officer at the accident site.
- ❖ The leader of Team A-1 will remain available at the accident site and will not leave the accident site under any circumstances, except when specifically permitted by the DRM. He

Disaster Management Plan of Kota Division (Part - II -2025)

- should be available himself near the telephone at the accident site and coordinate all the relief measures. He will establish communication with the Emergency Cell at Sub Divisional Hospital and leaders of the Team A-2 & B.
- ❖ The leader of Team A-1 will collect information from other doctors/sources about the details of dead and the injured persons and will get a preliminary list of dead/injured persons prepared in triplicate. The list will bear the date and time and will have the following columns; Sr. No, Name, Father's / Husband's Name, Age, Sex, Address with Telephone Number if any, Ticket Number, Ex and To, Details of injury, Nature of Injury and remarks etc.
 - ❖ In case of the number of dead and injured persons is large, only Sr. No. Name, Age, Sex and Nature of Injury will be written as firsthand information and suitable updating can be done later on.
 - ❖ He will hand over 1st copy of the same to the senior most officer of the Commercial department available at the site, after putting his signature on it. The 2nd copy will be kept by the Nodal Officer of Team A-1 as office copy and 3rd copy will be given to paramedical staff for getting multiple copies for further distribution. This list will be suitably revised / updated on receipt of further information from all possible sources.
 - ❖ The list will also contain information about the persons having trivial injuries like petty abrasions and bruises but these will not be counted for reporting purposes and will be retained by the leader of Team A-1 for record purpose only. The number of dead and injured (simple and grievous) should only be reported.

Duties of Team A-2:

- ❖ Leader of Team A-2, along with paramedical staff will first move to ARMV carrying a POMKA and thereafter to the accident site by road, if approachable. If not they will move in ARMV.
- ❖ They will remain in contact with leader of other teams and on instructions from leader of A-1 team will be deputed to various hospitals to collect information about the injured persons admitted there, monitor their progress and coordinate with the hospital doctors in providing suitable medical aid and arrange for the transportation of the injured to other better hospitals on a need basis.

Duties of the Doctor In-Charge of Dead Bodies:

- ❖ He / She will note down the detailed particulars of the dead bodies and arrange to shift them to a nearby nominated place, away from the track / bogies with the help of paramedical staff, St John Ambulance members, Bharat Scouts & Guide volunteers, Civil-defense members and other railway / non railway volunteers available at the site.
- ❖ He will put a white cloth with label on the chest (below the neck) of the dead body and indicate the following details with the marker pen; date, dead body S. No., Name, Age, and Sex etc. In case of unknown dead bodies, unknown-1, unknown-2 etc. should be mentioned against the name column and estimated age should be mentioned as per appearance.
- ❖ The dead body will be kept inside a Plastic body bag with Zip and the information about the dead body will also be mentioned thereon.
- ❖ The dead bodies will then be handed over to the Civil authorities/GRP for medico legal procedure and final disposal.

Disaster Management Plan of Kota Division (Part - II -2025)

- ❖ In case the disposal of dead bodies is delayed due to non availability of the relatives or due to any other reason, he will arrange for preservation of the dead bodies by arranging ice etc.
- ❖ He will arrange for final disposal of the dead bodies by providing foldable coffins / wooden coffins from the Sub Divisional Hospitals on a need basis which are available in mortuary of Sub Divisional Railway Hospital.

Duties of Doctors Visiting Various Hospitals Where injured Persons are admitted /Dead Bodies are lying.

- ❖ Before leaving the accident site, they will note down the DOT/Railway/Mobile Phone numbers of the Nodal Officer and other medical officers available at the accident site.
- ❖ In case railway vehicle/Ambulance is not available, they will hire private road vehicles to visit various hospitals. Doctors going to different hospitals will hire separate vehicles for their movement.
- ❖ On reaching the hospital, they will prepare a list of injured/dead and relay the same to the Nodal Officer available at the accident site.
- ❖ They will monitor the progress of the injured persons and arrange for their transportation to bigger hospitals with better facilities on a need basis.
- ❖ They will coordinate with the doctors of the respective hospitals in providing proper treatment and settlement of the bills at the time of discharge.
- ❖ They will remain at the hospital for briefing the VIP's visiting these hospitals.
- ❖ They will also coordinate with the officials of the Commercial/ Personnel Department for arranging ex-gratia payment to the accident victims.

Duties of Doctors Involved In Rescue Operation:

- ❖ They will arrange for an Ambulance / other suitable transport immediately, in advance, to transport injured persons.
- ❖ They will provide preliminary treatment to the injured and hand over the dead bodies to the doctor in-charge of the dead bodies.
- ❖ They will pass on the detailed information about the injured persons to the doctor preparing the list of injured persons.
- ❖ They will arrange to transport the injured persons to the nearby Railway/Govt. / Private Hospitals.
- ❖ A detailed search operation will be conducted by them at the accident site to look for any injured persons/ dead bodies trapped inside the bath rooms/ under debris etc. The search operation will be repeated before the medical team finally leaves the accident site.

Duties of Team -B:

- ❖ They will establish emergency cells in ACMS's chamber and Casualty of the Sub Divisional Railway Hospital where Railway telephone, P&T telephone, Fax Machine & computer is available to look into section wise Data base of medical facilities available along the track. They will also call COS and Peon of ACMS Office for this work.
- ❖ They will communicate with adjacent Divisions (including Divisions of other Zones) to send Medical teams to the accident site, if the nature and magnitude of the accident warrant it.

Disaster Management Plan of Kota Division (Part - II -2025)

- ❖ They will contact the local Railway/Govt./Private Hospitals near the accident site to be in readiness to provide medical treatment to the injured persons.
- ❖ They will contact and arrange to send more medical teams, SJAB members, BS&G Volunteers, Civil Defense members and other Railway / non Railway volunteers to the accident site on a need basis.
- ❖ They will establish close communication with the Divisional Control and the Nodal Officer at the accident site & leader of Team A-2 for regular exchange of information.
- ❖ They will keep the Sub Divisional Hospital in readiness including operation theatre, to receive and provide medical treatment to the injured persons. They will also intimate the nearby Govt./Private Hospitals and blood banks for this purpose.
- ❖ They will arrange to transport wooden / foldable coffin boxes to the accident site on receipt of requisition from the accident site.
- ❖ Dr. Muzahid Ahmad will move to Sub Divisional Hospital office and also monitor work of Hospital.

Disaster Management Plan of Kota Division (Part - II -2025)

Setting Up of Emergency Cell:

- Emergency cell shall be opened in Divisional control office immediately after receipt of the information about disaster. ADRM will be the overall in charge of the cell and will function as an Emergency Officer for the purpose of managing the relief and restoration operation.
- The emergency cell will be manned by JAG officers in shift duty round the clock. After the relief and rescue work completed, winding up of the cell shall be decided by DRM.
- Specific duties to be performed by Emergency Cell.

The Emergency Officer on duty will arrange for chronological record of all information and instructions received from or given to site of accident and Head Quarters in logbook.

Regulation of Trains:

- Operating department of divisional office in consultation with headquarter office will arrange regulation, diversion and termination of passenger, mail/express as well as goods trains; and will be advised to sister divisions.
- Normally, Emergency cell should not directly deal with the press and Electronic media.

Ordering of Relief Arrangements:

- On receipt of advice of an accident, the CTNL/CTNL(Punctuality) and on an uncontrolled section, the SM of the Terminal station, shall order the Medical Van and/or Breakdown train / Tower Wagons as necessary. If necessary, assistance from adjoining Divisions/Railways shall also be asked for through COIS mail by CTNL/CTNL(Punctuality).
- Sr.DME (nominated by DRM), in consultation with Sr.DOM, shall decide whether only MFD (tool van) is required to be sent to the accident site or the entire ART to be sent. In case of a difference of opinion between Sr.DME and Sr.DOM on this issue, DRM's decision shall be final. CTNL/CTNL(Punctuality) shall be advised accordingly.
- With a view to ensure faster movement of MFD (Tool van) to the accident site, Sr.DME shall decide the mode of transport, i.e. by road or by rail.
- CTNL/CTNL(Punctuality) shall plan immediate arrangement of Loco and crew in consultation with Crew/Power controller for the movement of ARME/ART trains.

Relief and Rescue Operation:

- Emergency cell at divisional office will monitor the movement of Medical Relief Trains, Accident Relief Train, Breakdown cranes and labour and Material specials to the site of accident.
- In case, Medical Relief Train, Accident Relief Train and breakdown cranes are arranged from adjoining Railway or Division, the emergency cell will monitor their movement.
- The requirement shall be requisitioned by the concerned officer of different department in emergency cell to the emergency officer or his nominated officers.
- Arrangement of wagons for loading Engineering materials, for movement of labour and any other resources as required for the site of accident shall be made by the Engineering branch to the emergency officer and their movement to the site will be arranged by the emergency cell.
- Similarly, on demand by Mechanical branch, ARTs and other breakdown material will be moved from the adjoining Division/Railway.
- On demand by Medical branch any special train for movement of injured passengers, the same shall be arranged by Emergency cell. The Commercial branch will place demand of special trains for movement of relatives and survivors from and to the site of accident. When such movement is arranged, the Commercial branch will advise public directly.

Disaster Management Plan of Kota Division (Part - II -2025)

- Assistance from defense, Navy, State Governments should be coordinated by the Emergency cell, where required. BSNL Phone no. are in Annexure-A

Diversion / Cancellation of Passenger Trains:

- Diversion/Cancellation and short termination of passenger trains will be done by the Emergency cell in consultation with Headquarter Office.
- Running of passenger specials for carrying relatives to the site of accident for carrying the survivors from the site of accident will be arranged and closely monitored by the Emergency Cell.
- Movement of Relief special trains for CRB/GM/DRM and other branch officers and staff for the site of accident as required, should be arranged promptly and its running should be monitored closely.

Arrangement at Site:

In view of the requirement of shunting etc. the site and at adjoining stations, Traffic inspectors should also be deployed round the clock in shifts at site and at adjoining stations, they will work in consultation with Emergency cell and officer-in charge at site.

Signal & Telecommunication Department

Duties of S&T Officers and Supervisors during Disaster

On Duty TCI/Test room

1. Immediately after getting information about any disaster, on duty SSE/Test-room will first take preliminary information of location, nature of disaster, movement of ART/ARME, etc. then they will inform all concerned S&T officers & SSE/Tele/Test room.
2. SSE / Test room will ensure that nominated ART/ARME staff moves by ART/ARME. SSE/ Tele/Test room should immediately reach Test room.
3. SSE /Test-room will inform to concerned S&T supervisors, to reach at site by first available means. After that they will collect the details of the disaster including involvement of S&T equipment, extent of damage, effect on Train operation etc. and will keep informing concerned S&T officials.
4. Separate register should be kept for "Disaster Management" in Test room and all developments with timing should be recorded in this register by on duty supervisor.
5. On duty supervisor in Test room shall coordinate with other departmental and divisional controls for assistance required and sharing information.
6. He will assist the field staff in testing of communication channels and in case of any communication failure, he will ensure that back up arrangement is in place immediately and fault is removed as soon as possible.

Sectional Staff (Telecom):

1. On getting the information about the disaster the concerned sectional supervisors will immediately move towards the site by first available means along with staff and tools.
2. Immediately on reaching the site the sectional supervisors will give information to Test room.
3. After reaching the site the telecom staff will immediately make arrangements for provision of emergency communication including portable emergency control phone and satellite phone. After providing these, the concerned staff will immediately inform Test-room.
4. Subsequently the Telecom staff will also make necessary arrangements for provision of Railway and BSNL telephones at site. For this the BSNL telephone of the nearest station can be extended to the site or through Auto dialer.
5. The Telecom staff should take necessary precaution for preserving all evidence and record joint observations of Telecom gears with available Operating, Engineering, Mechanical supervisors.
6. The gears affected by the disaster should immediately be suspended by the concerned supervisor and will be handed over for operation only after restoration and complete testing to avoid the possibility of any unsafe side failure.
7. Thereafter the Telecom supervisors will assess the damage to Telecom equipment and prepare a list of material required for restoration. This list should be repeated to TCI/Test room.
8. The restoration work should be started immediately after taking joint observation with the material available at site.
9. The walkie talkie sets available in ART/ARME should be issued to the Railway staff at site as per request of concerned officers. Personal acknowledgement of the concerned staff/officer for each walkie talkie set should be taken in the register available in ART/ARME. It will be the personal responsibility of the concerned staff to return the set after restoration.
10. All supervisors and officers at site should keep on informing the control about the developments at site at frequent intervals.

Disaster Management Plan of Kota Division (Part - II -2023)

On Duty SI/Control

1. Immediately after getting information about any disaster, SI/CTO will first take preliminary information of location, nature of disaster, movement of ART/ARME, etc. then they will inform all concerned S&T officers SSE (Sig) Control.
2. SSE (Sig) Control should immediately reach Control office.
3. SI/CTO will inform to concerned S&T supervisors, to reach at site by first available means. After that they will collect the details of the disaster including involvement of S&T equipment, extent of damage, effect on Train operation etc. and will keep informing concerned S&T officials.
4. Separate register should be kept for "Disaster Management" in SI/CTO and all developments with timing should be recorded in this register by on duty supervisors.
5. SI/Data logger to be called immediately to control and data logger reports taken out.
6. On duty supervisor in SI/Control shall coordinate with other departmental and divisional controls for assistance required and sharing information.

Sectional Staff (Signaling):

1. On getting the information about the disaster the concerned sectional supervisors will immediately move towards the site by first available means along with staff and tools.
2. Immediately on reaching the site the sectional supervisor will give information to SI/Control.
3. Signaling staff should take necessary precautions for preserving all evidence immediately. With available Operating, Engineering, Mechanical supervisors, joint observation of panel position, Block instrument position, Panel counter readings, site condition etc. should be taken by signaling supervisors immediately after reaching the site. Any and all unusual should be noted down in the joint observations. The operation of signaling gears should be done only after joint observations have been taken.
4. The gears affected by the disaster should immediately be suspended by the concerned supervisor and will be handed over for operation only after restoration and complete testing to avoid the possibility of any unsafe side failure.
5. Thereafter the Signal supervisors will assess the damage to Signaling equipment and prepare a list of material required for restoration. This list should be repeated to SI Control.
6. The restoration work should be started immediately after taking joint observation with the material available at site.
7. All supervisors and officers at site should keep on informing the control about the developments at site at frequent intervals.

Nominated S&T Officers in Control Office:

1. The nominated officer in control office will arrange for the material required for restoration and will also make arrangements for transporting the material at site.
2. The nominated officer in Control office should keep on informing Sr.DSTE (Co), concerned Sr.DSTEs/DSTEs and Headquarters about the developments at site.
3. He will also ensure that all developments are recorded in the Disaster Management registers kept in SI/Control and Test room.
4. He will oversee the working of SI/Control and Test room and will provide necessary guidance to concerned control office & field staff.

Disaster Management Plan of Kota Division (Part - II -2023)

Nominated S&T Officers at Site:

1. The sectional ADSTEs should immediately move to the site after getting information about the disaster.
2. They will also coordinate and ensure movement of concerned supervisors and staff to the site.
3. After reaching the site they will ensure recording of joint measurements at site and setting up of communication arrangements.
4. He will supervise the restoration work at site so as to restore the S&T gears in shortest possible time and with full safety.
5. All officers at site should keep on informing the control about the developments at site at frequent intervals.

Safety Department

Disaster Management Plan of Kota Division (Part - II -2025)

SAFETY DEPARTMENT

Role of Safety Department

- Sr.DSO along with necessary Safety Counselors will attend site by quickest possible means. One SC(S&T) will man Control/ Emergency office.
- To assess and see whether the assistance called for will prove adequate or not.
- To keep a sharp eye on the clues so that these are not disturbed.
- To coordinate in restoration activities with specific stress on efficient and quick placement of Break down crane M/Van and other shunting movements.
- To depute Safety Counselors to pursue fair and timely preparation of joint note.
- To communicate log of events from site to CTNL office.
- Obtaining statements of concerned staff and confiscation of relevant records and speedometer graphs and vehicle summary etc.
- To coordinate with Operating officers in obtaining TFC, Power and Engineering block as per requirement at the earliest.

Role/Duties of Safety Officers at an accident site vide R.B. letter No. 2017/Safety (DM)/Misc. Dated 30-01-2017

Check list for the Divisional Safety Officers Subsequent to an Accident

Immediately rush to the accident site by the first available means along with Safety Counselors.
Speak to Guard/Loco Pilot to understand the sequence of events and assess the extent of damages, the exact number of vehicles affected with their stenciled numbers. Also Guard may be asked to take pictures with their mobiles and sent them through whatsapp.
Arrange to rush the relief teams available with the Railways.
Check whether Station Masters on adjacent stations, Control and Medical staff have requisitioned for Local Medical help and Ambulances.
Seek assistance of NDRF and other Government/Non-Government Organizations if required.
Assess the site conditions and if needed order for additional rescue teams.
Establish a Unified Command Centre (UCC) and arrange to man it by a Safety Counselor.
Arrange to establish telephonic communication at the site.
Preserve all clues and evidences regarding probable cause of accident.
Arrange to record joint observations/measurements at the site by the senior subordinates.
Should check for any speed restriction at the location and any abnormality reported by previous train crew.
Arrange to maintain log of events at the site and relay to Divisional Emergency Cell at regular intervals.
Relay Prima Facie cause in consultation with Officer in-charge within a reasonable time.
Ensure that in UCC details of passengers admitted is maintained Hospital wise.
Relay probable restoration time in consultation with Officer in-charge within a reasonable time.
Arrange to create Accident ID in SIMS and update all the relevant fields at regular intervals.
Arrange for live feed through VSAT, collect aerial pictures of the accident and upload the photos /video in SIMS.

Chief Safety Officer shall ensure the following

Be in constant touch with divisional officers and Railway Board Emergency Cell. Shall ensure that above actions are carried out by divisional safety officers.
To seek for additional assistance from adjacent Railways and other Government/Non – Government agencies if needed.
Ensure that HQs emergency cell is manned by a Dy.CSO.
Ensure that all the details of the accident are conveyed to RB emergency cell hourly
Ensure that all the relevant details are filled up in the SIMS

Disaster Management Plan of Kota Division (Part - II -2025)

Accident format for new SIMS website

Accident details :-

Date of accident		Time of accident	
Weather		Visibility	
Railway		Division	
Section		Station/bet. Stations	
Location of accident (Station/Mid section)		Traction (Electrified/NE)	
Line type(DL/SL/TL)		Gauge type	
System of working		Route type	
Location (Km.)		Train type (Passenger/Other)	
Train no.		Engine no.	
Brief description of accident :-			
Officer at accident site:-			
Load & tonnage		Loco traction type (Diesel/Electric/Other)	
BPC details		Vehicle no. & type of vehicle	
Type of accident i.e. collision/Derailment etc.		Accident sub class i.e. A-1, A-2, A-3 etc.	
Accident category		State & District	
Section 113(Yes/No)		SPAD (Yes/No)	
Prima facie Cause of Accident:			
Remarks if any :-			
Casualty description			
Type		Killed	Grievous injury
Passenger			
Railway staff			
Others	Road user		
	Other than road user		
Station details			
Class of station		Type of signalling	
Type of interlocking		Standard of interlocking	
Relief arrangement			
	Ordered at	Left from shed	Left from station/Yard
ART/MFD			
ARMV			
140 T crane			
If more than one ART/ARMV/Crain then details given for each.			
Restoration details			
Clearing of front & rear portions (Restoration details starts from removal of front & rear portions):			
Rerailment time & date of each stock		Track fit (with time, date & SR)	
OHE fit (with time & date)		S&T fit(with time & date)	
First commercial train with train number, departure, passing from site etc. –			
Damage description:			
Ex-gratia (Normal/enhanced):-			
Total interruption of traffic :-			

Disaster Management Plan of Kota Division (Part - II -2025)

Trains detention details :- --			
Track structure :			
Rail type & year laid		Sleeper type & year laid	
Sleeper density		USFD done	
Outcome of last USFD			
Physical features :			
Rail laid (SWR/LWR etc.)		Curvature (if yes then detail)	
Gradient(falling/rising, if yes then details)		1 in 550	
Ghat section (Yes/No)		Any other feature	
Level crossing particulars :			
LC no. & Class		Category (Manned/UMLC)	
Location (Km)		Gate type (LB/Leaf/Chain)	
Gate sub- type (Single /double)		Interlocking (Yes/No)	
Telephone (if yes then connected with station)		Normal position (Open / closed/UMLC)	
Visibility		TVU & Census done on	
I VLU		Speed breakers	
li VLD		Road signs	
lii VRU		W/L Board	
iv VRD		Approach road	
Road surface		Type of road (NH/SH/ CR/ VR)	
Accident/Incident History of past 2 years :- NA			
PRO particulars of coaches/wagons:			
Coach / wagon no. & type		Owning railway	
POH done		POH done at	
IOH/ROH done		IOH/ROH done at	
Manufacturing date		Manufactured at	
Return date		-	
Loco particulars (Diesel & Electric both) :			
Loco No. & type		Owning Railway & Shed	
Last Schedule done		Last Schedule done at	
Next Schedule due			
POH done		POH done at	
BPC particulars :			
BPC No.		Station issued and date	
Type of BPC (End to end /Round trip for passenger trains) & (CC/Premium/End to End for goods trains)			
Brake power		Type of rake/ load	
Last Examination details –

Security Department

Disaster Management Plan of Kota Division (Part - II -2025)

Security Department Action Plan

1. Role of Security Department:-

- On receipt of any disaster information the nearest RPF Post will muster maximum available manpower within the shortest possible time and dispatch them to the scene of accident by first available means.
- Simultaneously the post/outpost in charge would requisition additional manpower from adjoining RPF Posts.
- He should also pass on the information to local police and police control room, local fire brigade, Hospitals, Local voluntary organizations and the like at the earliest.
- Divisional security control will inform in-charge of the concerned post, Sr.DSC, ASC and Team 'A' of Divisional RPF Disaster Management team. Subsequently it will intimate Team 'B' and send them by ART. If they could not be sent by the ART then they should definitely be sent by the 2nd and 3rd Special trains carrying backup logistic support to the accident site, from each end. As per necessity, will inform Civil Administration and Police control room and ZSCR.
- Additional RPF personnel from Zonal head quarter should be requisitioned and sent to accident site. ZSCR to be informed immediately about the incident.
- While sending reinforcement the Divisional Security Control shall ensure that the necessary equipment required for rescue recovery and protection of the scene of incident are provided as follows:
 - Dragon search lights.
 - Nylon ropes and poles for segregating the affected area.
 - 2 loud speakers for making announcements.
 - Wireless sets for inter-communication in adequate nos.
 - Disaster Management Luminous Jacket.

2. Team-A

Nominated staff for Disaster Management (To move for disaster site) :-

Disaster Management Plan of Kota Division (Part - II -2025)

Contact List of Police Station nearby Railway Station

Name of Police Station	Name of Police Station incharge	Mobile No	Jurisdiction with Station (In Km.)
Highway Mathura	Amit Kumar	9554403946	From Narsinghpur Bridge to MSRP Station Outer
Magorra Mathura	Alok kumar Gupta	9454403645	From MSRP Station Outer to Goverdhan Nala
Kumher	Jitendra Singh	7023696379	From RKR Station Outer to DUM Station Outer
Udyog Nagar Bharatpur	Ganga Sahay Meena	9057561055	From BTE Station Outer to DUM & DUM Station Outer Goverdhan Nala
Kotwali Bharatpur	Vinod Meena	9413085085	From BTE Stn. Outer to KM. 1209
Sewar	Dharam Singh Meena	9413966554	Form KM. 1209 to PNGR station
Uchchain	Giriraj Singh	9619672228	From PNGR Stn. to Nglu Kuwariya
Kotwali Bayana	Babulal Gurjar	9413344393	From BXN to SABD & DY
Sadar Bayana	Krishan Veer	9828734287	Form SABD to Nglu Kuwariya & DY to Nagla Choudhriya
Kotwali Hindon	Chunilal Meena	9950672230	From Km 1132/00 to 1134/25
New Mandi Hindon	Kuldeep Singh	9023495478	From Km 1134/28 to 1134/25-28
Sadar Bayana- Karoli	Devendra Sharma	07469-231500	From Km 1128/0 to 1132/5-7
Suroth	Mahesh Meena	967414600	Form BXN to FSP (KM 1143/3-2 To 1149/23)
Mahavirji	Ramdayal Meena	7457333393	From SMBJ & KM No. 1125/23 to 1128/00
Kotwali Gangapur City	Karan Singh	9680674115	From Km No.1075/0 to 1094/0
Udai Mod	Rajvir Singh	7727847281	From Km No.1094/0 to 1097/0
Piloda	Omendra Singh	9524750757	From Km No.1097/0 to 1110/0
Vajirpur	Teenu Sogarwal	9186191368	From Km No.1110/0 to 1123/0
Mahavirji	Ram Dayal Meena	7357333933	From Km No. 1123/0 to 1126/5
Police Station Sadar Gangapur City	Bani Singh	9171558427	From Km No.1088/0 to 1075/0
Sop	Devendra Singh	8764526513	From Km No 1005/0 To 008/0
Rawanjna Dungar	Hari Man Meena	7014870782	From Km No 1008 To 1018
Up Line Kotwali Thana Sawai Madhopur	Harlal Singh	9950672230	From Km No 1018 to 1032
Dn Line Mantown Sawai Madhopur	Sunil Gupta	9950064842	From Km No 1018 to 1032
Kundera	Bharat Singh	9667319221	From Km No 1032 To 1054
Malarna	Lakhan Singh	9530436786	From Km No 1054 To 1068
Sapotra	Dara Singh Meena	9414368768	From Km No 1068 To 1075
Kapren	Surjeet Singh	9414015151	From Km No 954/ to 956/0
Dekhikhera	Charndra Bhan	9828889856	From Km No 956/ to 977/0
Lakheri	Subhash Sharma	9929597060	From Km No 977/0 To 987/0
Indragarh	Dinesh	9414331657	From Km No 987/0 to 1000/0
Sop	Devendra Singh	8764526513	From Km No 1000/0 to 1005/0
Kapren	Surjeet Singh	9414015151	From 954/404 to 946/00
Keshorai Patan	Hansraj Meena	9680321187	From 946/01 to 923/00
Railway Colony Kota	Rajesh Pathak	8005579229	From 01 To 10/00
Digod	Purushottam Mehta	9928348495	From 10/01 to 16/341
Railway Colony Kota Nayapura	Rajesh Pathak & Laxmi Chand Verma	8005579229 & 9414308306	From Km No 918/22 to 918/00
Borkheda	Raj Laxman Gurjar	9462214852	From Km No 918/ 00 to 914/18
Udyog Nagar Kota	Jitendra Singh	9414802034	From Km No 914/18 To 907/02
Anantpura	Bhupendra Singh	7568296111	From Km No 909/32 to 907/02
Ranpur	Mr. Bhanwar Singh	9772201651	From Km No 907/00 to 897/22

Disaster Management Plan of Kota Division (Part - II -2025)

Keshorai Patan	Hansraj Meena	9680321187	From Km-01/00 to 12/00
Taleda	Ajeet Bagdoliya	9413004477	From Km-12/00 to 24/02
Sadar Bundi	Ramesh Arya	9929443379	From Km-24/02 to 60/00
Bijoliya	Kailash	9530415624	From Km 60/00 to 72/08
Mandalgarh	Suresh	9928717789	From Km-72/08 to URML/MNPA
Bassi Berisal & Parsoli	Ram Singh & Devendra Kumar	9414316262 & 9521254779	From Km-128/11 to 149/04
Police Station Kotwali Baran	Vashudev	9950513959	From Sundalk to Mandola Gaon
Police Station Sadar Baran	Hiralal	8764528402	From Mandola Gaon to KM No 87/14-15
Police Station Atru	Chuttanlal	9893335911	From KM No 87/14-15 to Dara Fatak
Police Station Kawai	Vinod Kumar Nagar	9887073493	From Dara Fatak to SYL stn
Police Station Kawai	Vinod Kumar Nagar	9887073493	From SYL stn to KM No 120/10
Police Station Chhabra	Rajesh Khatana	8209398734	From KM No 120/10 to KM No 133/17
Police Station Bapcha	Budram Jat	9414765451	From KM No 133/17 to KM NO 147/25
Police Station Dhamawada	K.M. Tiwari	8770406422	From KM NO 147/25 to KM NO 163/14
Jagpura	Ajay Kumar	8741845979	From ALNI Outer KM No. 897/22 to 886/0
Mandana	Ajay Kumar	8741845979	From KM No. 886/00 to 875/14
Kanwas	Shayamaram	9460922677	From KM No. 875/14 to 864/25
Kanwas	Yogesh Sharma	9414937269	From KM No. 864/25 to 857/00
Ramganjmandi	Manoj Sikarwar	9414268999	From KM No. 857/00 to 835/19
Bhawani Mandi	Ramesh Chand	9413831073	From KM No. 836/18 to 837/19
Ramganjmandi	Manoj Sikarwar	9414268999	From KM No.00 to 07/4
Suket	Raghuvir Singh	9460193610	From KM No. 07/4 to 15/6
Jhalrapatan	Avinash Meena	7297903792	From KM No.15/6 to 20/10
Jhalawar Kotwali	Chandra Jyoti Sharma	7850816942	From KM No. 20/10 to 26/26
Jhalrapatan	Avinash Meena	7297903792	Jharlapatan stn. KM No.33/15
Asnawar	Mohan Chand	9783187075	Junakheda stn. KM No.46/13
Aklera	Sahdev Meena	8955609075	Ametha stn. KM No.62/14
			Aklera KM No. 73.50
Ghatoli	Mahavir Prasad Bhargava	9928402572	Pachola KM No. 80.99
			Ghatoli KM No.88.80
Bhojpur	Rajnish Shrotiya	9669753777	Nayagaon Purakumara station KM no. 103/10
			Bhojpur station KM No.108/10
Khilchipur	Vivek Sharma	9644449146	Devpura station KM No.117/5
			Khilchipur KM No.125/11
Bhawanimandi	Ramesh Meena	9413831073	From 814/06 to 819/15
Bhainsodamandi	Suneel Kumar	9406850492	From 822/00 to 830/6
Shamgarh	Uday Singh	9425449604	From 688/00 to 695/00
Garoth	Uday Singh Alwaa	7049162800	From 698/10 to 808/10
Suvasra	Shivanshu Malviya	9827262203	781/00 to 765/00
Nagda Mandi	Amrit Lal Gavri	9039633454	698/22 to 707/02
Tal Thana	Prithvi Singh Khalate	9479996979	707/22 to 724/02
Alot Thana	Surendr Singh	9752182053	724/2 to 747/00
Unhel Thana	Ram Karan Katariya	9660774966	747/0 to 752/00
