WEST CENTRAL RAILWAY

"MULTI DISASTER RESISTANCE CONTROL ROOM"

Highlights of MDRCR are as under

- Round the clock manned.
- 8 lines of 1072 are provided.
- 400 Rail Rescue Volunteers have been registered.
- Computer with Internet & Rail-net connection.
- Two Fax Machine with P&T.
- Two color Television with cable connection.
- Telephones: Railway – 2 and P&T – 2
- Refrigerator.
- Microwave oven.
- Two sets of sofa cum bed.

DIVISIONAL ACTION PLAN

1. COMMERCIAL DEPARTMENT

ROLE OF COMMERCIAL DEPARTMENT

On receipt of information of serious accident the following measure will be taken :-

- 1 DCM/ACM will proceed to Commercial Control in DRM office .
2. Sr.DCM/DCM will proceed to accident site alongwith DCHQ & 5 TC adequate CCI and porters .
3. An Emergency Cell will be opened at BPL, ET, BIN & HBJ stations for information of passengers.
4. DCM/ACM will ensure proper catering arrangements.
5. SM will attend BPL station and will be overall incharge of Emergency cell at station along with Dy.SS (Comml).
- 6 ACM will proceed to accident site with staff by road.

DUTIES OF OFFICERS IN CONTROL OFFICE DURING ACCIDENT:-

- On receipt of message from Control, DCM/ACM will immediately reach control office along with 2 CCI and will take position.
- DCM/ACM would collect the following information from emergency control accident site.
 - a) Time and place accident from emergency control at site/ operating HQ.
 - b) Details of casualties-dead/injured and safe passengers from operating/emergency control at site information of train composition, No. of passengers traveling in train, No. of passengers in affected train/coaches, No. of TTE available in train.
 - c) Details of special *train* being run to accident site or from accident site to destination for clearance of stranded passenger
 - d) Details of assistance being rendered to affected passengers.
 - e) Telephone & fax number made available at the accident site by S & T department/Rescue Team
 - f) Information collected from site should relayed to all emergency offices/enquiry offices opened at stations.
 - Commercial Controller will arrange to procure copies of reservation charts of the concerned coaches/trains involved , in case of passenger train, from CCM(PM) Office chart will be kept one each nearest PRS centre and Commercial Control
 - Commercial Control will inform Sectional CCI & CCIs of adjoining section to reach at site of accident.
 - Commercial Supervisors and CTI from adjoining major stations will be sent to site of accident to assist the passengers i.e. send the passengers involved in accident to Hospitals and shifting of passengers etc. They will be give details of such passengers to the Control Office.
 - List of Doctors, Hospitals and local authorities will be obtained from the concerned railway staff of the adjoining station.
 - In case of accident of Goods trains transport will be arranged along with labour for transshipment for which order will be given to sectional DCI and other supervisor staff available at site.
 - List of injured persons as per the category of injury will be obtained from the in-charge of Railway medical team at the site of accident and accordingly ex-gratia payment will be arranged. Such list will be conveyed to Divisional Control office who will maintain the list category wise and hospital wise where they have been admitted.
 - DCM and Commercial Controller will ensure feeding of information regarding passenger name etc. to website in consultation with DSTE/Tele.

THE EMERGENCY CELL WILL PERFORM FOLLOWING DUTIES DURING ACCIDENT:-

- An emergency office should be opened immediately at BPL, HBJ, BINA &, ET
- SM will be incharge of Emergency office which should be manned by CTI and one Hd.TC on duty in each shift.
- Sectional DCI's should be available in the emergency office **at site**. Sectional DCI will arrange availability of refreshment material at site of accident for passengers.
- The emergency cell will gather all information regarding accident from control and other locations as well as accident site through phone.
- A register should be maintained for information with time and date.
- One Notice Board outside SM office displaying details of injured/dead as well as safe passengers alongwith list of affected/unaffected coach nos. should be made available.
- Chart of affected and unaffected passengers should be readily available for conveying information next of kin/family of injured/dead passengers. Emergency Dot/Railway phone should be made available .
- Adequate TTEs should proceed to accident site immediately alongwith special train.
- Adequate Coolies should proceed to accident site immediately alongwith special train.
- Sectional DCI's and CBS of nearest major station will arrange for ex-gratia payment **to** affected passengers as per their location and category of injury.

MANAGEMENT OF THE ACCIDENT SITE:- THE DUTIES OF OFFICERS AT ACCIDENT SITE WILL BE AS UNDER:-**Sr.DCM:-**

On receipt of information of serious accident, Sr.DCM/DCM will proceed to accident site alongwith ACM, CCI, and 2 TC. All the Commercial Officers and staff at the accident site will work under Sr.DCM/DCM who will also co-ordinate with all other departments. The following action will be taken under guidance of Sr.DCM/DCM.

Step-1 Arrangements will be made to provide alternate mode of conveyance to stranded passengers.

Step-2 Arrangements will be made to provide refund as per rules.

Step-3 Arrangements will be made for making ex-gratia payments to affected passengers.

ACM:-

One ACM will proceed in special train for catering arrangements. He will perform the following duties:-

- The requirement of catering facility will be assessed.
- The CCI of nearby station will be asked to arrange the availability of refreshment material at site of accident.
- As per requirement, the divisional catering team will collect sufficient readymade eatable material along with manpower i.e. waiters/cooks and move to the site of the breakdown by first available mode of transport. The team will also carry raw material alongwith cooking gadgets for spontaneous preparation at the site to prevent shortage of eatable to meet the demand of **stranded** passengers and others involved in relief/restoration operation.
- The catering service will be rendered till the restoration of traffic.
- Suitable arrangements for drinking water will also be made .
- Adequate catering arrangement for the injured and their relatives travelling by special trains.will also be organized at enroute major station of division as per the route of special trains
- Arrangement will be made for proper dissimination of information to the print/electronic personalities regarding accident, rescue, and relief operations.
- To supplement Railway Catering arrangements nearby dhabas and hotels should be contacted and arrangements made for opening up stalls at the site.

THE DUTIES OF OTHER STAFF WILL BE AS UNDER:-**CCIs:-**

1. Passengers should be provided alternate mode of conveyance and dispatched to their destination or hospitals on priority basis.
2. Sectional DCI's should be available in the emergency office at site. Sectional DCI will arrange availability of refreshment material at site of accident for passengers
3. Sectional DCI should know the map of the station of their beat.
4. List of injured/affected/stranded passengers should be prepared.
5. Following lists should be available with CCI
6. Hospitals.
7. Ice factories.
8. Nursing homes.
9. NGOs
10. Blood Banks.
11. Police stations and important Civil Officials
12. Arrangements for refund as per rules would be made.
13. Sectional DCI's and CBS of nearest major station will arrange for ex-gratia payment to affected passengers as per their location and category of injury as well as for arrange other requirements by withdrawing money from station earnings with due permission of Sr.DCM/DCM.

TTEs :-

1. Chart of affected and unaffected passengers should be readily available for conveying information to next kin/family of injured/dead passengers and also relayed to Control office in division.
2. List of affected/unaffected Coaches should be prepared and conveyed to Control office.
3. Help should be provided to injured/affected passengers for shifting to hospitals.
4. Take action to save the lives & render first aids and organize relief operation.
5. Will not leave site without permission of Sr.DCM/DCM.
6. Arrangement to safeguard the luggage of affected passengers with the help of RPF/ security staff deputed by the state Government.
7. Unclaimed items will be safely transferred to LPO.

Coolies/Safaiwalas:-

1. Luggage of injured/affected passengers should be got secured at one safe place under the custody of RPF.
2. Help should be provided to injured/affected passengers for shifting to hospitals.
3. Safaiwalas should ensure cleanliness at the accident site.

2. ELECTRICAL (GENERAL) DEPARTMENT

ACTION PLAN BY ELECTRICAL (G)

1. Emergency action to be taken by Electrical control
2. As soon as Electric control gets information about any abnormality, staff on duty will immediately inform to Sr. DEE/G, ADEE/G as well as the section incharge where rail disaster has occurred.
3. Electric control will also inform the adjoining section incharge about the disaster and alert them for emergency help.
4. Electric control will inform the ART/ARME incharge of concerned section, details are given as below:-

MOBILIZATION OF OFFICER AND STAFF

1. Sr. DEE/G will proceed to the site by ART or by first available means. In absence of Sr. DEE/G, ADEE/G will proceed to site.
2. ADEE/G will man the electrical control.
3. In absence of ADEE/G, SSE/TL/AC/HQ/BPL, Shri Mahesh Rathore **or** SSE/TL/AC/stores/BPL Shri D. N. Chaubey will man the electrical control.
4. Jurisdiction of Electrical section Incharge: –

SSE/Elect. (M)/PYET	Khandwa (excl.) – Banapura (incl.)
SSE/Elect. (M)/PYET	Banapura (incl.) – Barkheda (Incl)
SSE/Elect.(M)/BPL	HBJ (excl.) – Bhadbhada ghat station (incl.)& BPL(excl) to SHRN(Incl)
SSE/Elect. (M)/BHS	Bhabbhada ghat station(Excl.) – Sumer (incl.)
SSE/Elect. (M)/BIN	Sumer (excl.) – Kanjia (incl.)
SSE/Elect.(M)/GUN	Kanjiya (Excl.) - GUN – RTA- MKC (Excl.) & GUN- SVP-GWL (Excl.)
SSE(OSM)/NYET	New Yard (excl ELS), Juzharpur Cabin gate.
SSE(OSM)/HBJ	HBJ station area Barkheda(Excl.) to HBJ(Excl.) station
SSE(PRS)BPL	BPL station

5. The following staff of General Service OSM & TL is nominated on ART duties –

ART ET:

- 1) Mahendra singh Kushwaha, SSE/Elect(M)/NYET, **(Mob-9893843680)**
- 2) Mahesh Chaturbhuj, MCM, **(Mob-9425623297)**
- 3) Rajesh Gour, Tech II, **(Mob-8319527082)**
- 4) Suranjan Bhakta, Tech III, **(Mob-8770736150)**
- 5) Hanesh Chaurey, Helper, **(Mob-7024135954)**
- 6) Rahul Kumar Yadav, Helper, **(Mob-7398854938)**
- 7) Bharat Singh Rajput, MCM, **Standby, (Mob-7974267514)**
- 8) Sunderlal, tech I, **Standby, (Mob-8103944159)**
- 9) Manoj kumar, tech I, **Standby, (Mob-9907152136)**
- 10) Nadeem Khan, helper, **Standby, (Mob-8962189969)**

ART BPL:

- 1) Dinesh Ku. Akodiya, MCM, (Mob- 9755606417)
- 2) Rahul Nayak, Tech I, (Mob-8770060637)
- 3) Pawn Kumar Yadav, tech I, (Mob-7024103298)
- 4) Uday Singh, helper, (Mob-(7974537295)
- 5) Ramzaan Ali, Helper, (Mob-7909965672)

ART BINA:

- 1) P.K.Singh, SSE Elect(M), (Mob-9685229344)
- 2) Ravikant Tiwari, MCM, (Mob-9039782808)
- 3) Rajesh Kumar, Tech I, (Mob-7024103298)
- 4) Sandeep Kushwah, Tech I, (Mob-9752592191)
- 5) Mujjafar Alam, Tech III, (Mob-9039759084)
- 6) Devilal, Helper, (Mob-9630104738)
- 7) Santosh Ahirwar, Helper, (Mob-9826668137)
- 8) Hanumat Lal, Diesel mechanic-I, (Mob-6626889865)

ART/ARME(SPART), GUNA:

- 1) Pooran Singh, SSE Elect(M), (Mob-9752416316)
- 2) Dinesh Kumar, SSE/TL, (Mob-9630991555)
- 3) Saadik Khan, Tech I, (Mob-9893155141)
- 4) Meghraaj meena, Tech I, (Mob-7024146380)
- 5) Banwarilal Meena, Tech II, (Mob-7999408830)
- 6) Mahesh P., Helper, (Mob-6267301960)
- 7) Bhagchand, Helper, (Mob-9669913113)

ARME ET:

- 1) Vijay Ku. Pawar, JE Elect(M), (Mob-7827992661)
- 2) Ashok Ku. Mohanlal, MCM, (Mob-9755224435)
- 3) Manoharlal, MCM, (Mob-8319737457)
- 4) Jagdish Prasad Meena, Tech II, (Mob-9131250790)
- 5) Pawan Ku., Helper, (Mob-6263797079)
- 6) Dinesh Maurya, Helper, (Mob-9425700579)
- 7) Tulsi Ram Gnaesh, Helper, (Mob-7999086730)

ARME BPL:

- 1) Alok Malviya, SSE, Elect(M), (Mob-9425300256)
- 2) Moka Prabhakar, MCM, (Mob-9893719784)
- 3) Vinod Lam Kuche, Tech I, (Mob-7566213762)
- 4) Vijay Singh Meena, tech II, (Mob-8602971288)
- 5) Manoj Tiwari, Helper, (Mob-8461006984)

ARME BINA:

- 1) P.K. Singh, SSE, Elect(M), (Mob-9752416318)
- 2) Deepak Shrivastav, Tech I, (Mob-9752592191)
- 3) Manoj Yadav, Helper, (Mob-8269080155)

- 4) Dharmesh Rai, helper, (**Mob-9893645337**)
- 5) Santosh Hardeniya, Diesel mechanic-I, (**Mob-8319086543**)

***NOTE:** If ARME is not going then SSE/JE will go with ART.

SETTING UP OF EMERGENCY ELECTRICAL CONTROL

Electrical Control :-

1. Shri Mahesh Rathore, SSE/TL/AC/HQ/BPL
2. Shri D. N. Chaubey, SSE/TL/AC/HQ/BPL (Stand by)

MOBILIZATION OF STAFF

1. In case of accident, the two nearest depots, one from either side of the accident site and zonal incharge will move to the site with available men and materials. In case of more assistance, the necessary instructions will be issued by officers manning electrical control.
2. As soon as the ART has reached at the accident site, the ART electrical incharge will provide portable generators along with lighting fixtures at accident site.
3. One VHF set should be available with electrical control at site and one with sr. supervisor at site to meet out the lighting requirement at site.
4. It is the personal responsibility of the concerned ART incharge to keep the electrical equipment in good condition.
5. Electrical control office would be setup near emergency control office manned by supervisor round the clock.

3.ELECTRICAL (TRD) DEPARTMENT

EMERGENCY ACTION TO BE TAKEN BY TRD DEPARTMENT:

Action will be taken by TPC either through first information from site or section control or after CB tripping & section does not hold good after second re closure.

- As soon as TPC gets information about any abnormality (in case there is no CB tripping) either from site or **SCOR**, he will immediately open the feeding circuit breaker / BM of the concerned section for making OHE dead on both UP & DN lines. A hooter controlled & sounded by **SCOR** is installed in TPC room may be taken care of in emergency situations.
- As soon as CB trips and does not hold on second re-closure, concerned TPC will immediately start segregation on SCADA system to locate faulty section. After locating faulty section, he will make the adjoining DN / UP healthy section dead to stop any movement of electric trains in either of the two directions (Item No. 1 & 3 of para 5 Appendix VIII of ACTM Vol. II Part II)
- The TPC will inform the concerned **SCOR** regarding the abnormality and will try to get the details about the abnormality. Further he has to ensure through SCOR that no movement of electric train takes place from healthy and charged section to uncharged / dead section.
- TPC will then inform to the concerned TRD maintenance depot & supervisors, and shall ask them to be ready for movement to the site where abnormality has taken place. The information is then to be relayed to CTPC and he has to be told to reach in TPC.
- Further the information will be relayed to concerned ADEE / DEE and Sr. DEE / TRD. The TPC will further inform to the adjoining nearest depot to get ready for movement or any OHE gang available in section at that point of time. The OHE staff shall be informed about the location and shall be directed to site of abnormality by a road vehicle / truck.
- The Tower Wagon based at concerned depot to be moved on priority. Tower Wagons stabled in adjoining depots shall also be moved on priority so that it reaches the site from other end.
- The OHE supervisor, who reaches first at site will survey the site, access the damages and will convey the status to TPC. Depending on this information the reinforcement if any required, movement of adequate T&P and material / equipment shall be arranged by TPC.
- In case of any OHE breakdown or breakage of OHE wires takes place the area around it should be cordoned off, so that no one gets injured.
- If there is a case of an electrocution no attempt to rescue an electrocuted person be made until it is ensured that power supply has been cut off to the effected line. Call for medical assistance. In the meanwhile, after the injured, if any, has been separated from the OHE wires, he shall be given first aid.

MOBILIZATION OF OFFICERS AND STAFF.

- Sr DEE/TRD will proceed to the site of accident by first available means of transport. In the absence of Sr DEE / TRD, DEE / TRD will proceed. Sr. DEE or DEE / TRD will man the TPC. Following is the jurisdiction of officers.

Sr. DEE/TRD/ Bhopal: Complete electrified section of Division i.e.BIN to KNW & BIN to RTA .
DEE/TRD/Bhopal : DWG to BNI i.e. TRD Depot NSZ & ODG.

ADEE/TRD/GUN : MDKV to RTA i.e. TRD depot MNV, ASKN & GUN.

ADEE/TRD/BIN : MDKV to BIN & BIN to DWG i.e. TRD depot BIN,BAQ & BHS.

ADEE/TRD/ET : BNI to KNW excluding (Bhopal division) i.e. TRD depot ET,BPF,HD,KKN& KNW

SETTING UP OF EMERGENCY TRD CONTROL.

- Four TRD supervisors (TPC's) always man emergency control of TRD round the clock, one on each of the four boards i.e. one ***for BIN –GUN, one for BIN –BPL, one for BPL–ET & one for ET –KNW section. CTPC is the in-charge of this TPC control.***

MOBILIZATION OF STAFF AND MATERIAL:

- Accident in Own Division:

In case of accident within division two nearest depots one from either side out of the following will move by Tower wagon / Truck to the site immediately depending on the location of the site:

1. ***GUN Depot : at 1094 KM***
2. ***ASKN Depot : at 1050 KM***
3. ***MNV Depot : at 1005 KM***
4. ***BIN Depot : at 975 KM***
5. ***BAQ Depot : at 929 KM***
6. ***BHS Depot : at 890 KM***
7. ***NSZ Depot : at 838 KM***
8. ***ODG Depot : at 801 Km***
9. ***ET Depot : at 745 KM***
10. ***BPF Depot : at 711 KM***
11. ***HD Depot : at 670 KM***
12. ***KKN Depot : at 638 KM***
13. ***KNW Depot : at 568 KM***

Supervisors, staff, TW / Trucks of the adjoining depots may be sent to the site of accident, if required depending upon the assessment of work involved, for restoration. TW / Truck will move to BD site within 30 min. during day time and 45 min. during night time

- ***Accident in adjoining Division / Railway:***

RTM division of WR,NGP division of CR, BSL division of CR & JHS division of NCR &JBP division of WCR.

In case of accident in adjoining divisions SSE/TRD along with TW/Truck and staff will be sent on demand / requirement. In case of more assistance, officer manning the TPC will issue the necessary instructions.

Emergency sockets are provided at an interval of each Kilometer. Near TSS / SP / SSP, isolator, insulated overlap etc. Using these sockets communication can be made with TPC. Further TPC control phones and Railway Auto Phones are available in ASM chamber of each station in electrified area.

(This para is taken form zonal Disaster Mgt. action plan therefore exists in Disaster Mgt. book only for reference - not sent & updated with Divl Disaster Mgt. action plan from Bhopal/TrD office.)

Chapter – 12.3

Duties of Electrical Department

For discharging the dual responsibility of providing illumination at and managing the OHE, 2 separate units will be formed at each end of accident site consisting of 'General Branch' officers & staff.

Once 4 ARMEs, 2 ARTs and 2 BD specials have arrived at the accident site from both ends, normally no more electrical equipment will be required from anywhere else. The main work will then consist of using of these resources effectively and efficiently.

Different teams and groups will be formed for discharging various of the Electrical Department. Each team should consist of 4-6 members and each group should consist of 3-5 team, depending upon requirement.

OHE at site:

One Sr. Supervisor should be in-charge of each group working at the site. All TRD teams at each end of the accident site, would function under directions of an AEE/TRD.

- (i) In case OHE is to be brought down, then the same should be done immediately so that working of crane does not get held up on account of OHE.
- (ii) In case slewing of OHE suffices for some sections, then the same should be done quickly so that working of crane does not get held up on account of OHE.
- (iii) Sr. DEE/TRD shall arrange movement of Tower Wagons along with men and material from adjacent depots from both sides of accident site.
- (iv) In case more tower wagons are required these should also be requisitioned from other depots along with men material.
- (v) An assessment should also be made of the extent of damage to OHE masts, and other equipment.
- (vi) Additional required of materials, if any should be called for immediately from other railway sources within the division.
- (vii) In case divisional sources are inadequate, then sources are inadequate, then sources from other divisions should be tapped.
- (viii) In case other divisional sources are also inadequate, then sources from other zones should be tapped.
- (ix) Availability of OHE is a long lead item. Requirement of masts should be quickly worked out so that these can be moved immediately.
- (x) Ensure temporary portals are erected without delay.
- (xi) In case damage to OHE is extensive and a wiring train is considered to be more efficient, then the same arrange for from other zone after discussion with RE organization.
- (xii) Ensure that the section is earthed before staff starts working near OHE.
- (xiii) OHE should not be charged until all staff, tower wagons, cranes etc. have cleared the block section.

4. ELECTRICAL (TRO) DEPARTMENT

ACTION PLAN BY ELECTRICAL (TRO)

Action plan of Electrical (TRO) / Bhopal division for disaster management will be as under:

S.N.	Item	Details
1.	Resource Unit-1	On trains carrying passenger following resources should be available with crew : (i) Portable telephone with crew (ii) Walkie-Talkie with Guard and Loco Pilot as personal equipment (iii) CUG mobile with LP and LI.
2.	Disaster Response(Instant Action Team-IAT)	Crew is included in IAT. As a member of IAT he should act as under : (i) If he has CUG, relevant official numbers (Control, TLC, Lobby) should be fed into his mobile equipment permanently. (iii) They should keep a torch handy and secured.
3.	Duties of LP	(i) Note the time of the accident and location. (ii) Switch ON the 'Flasher light' of the locomotive and sound whistle code. (iii) Inform Guard on walkie – Talkie set (iv) Inform Station Master on walkie-talkie set, if possible. (v) Protect the adjacent line, if required, and the train in front as per G&SR 6.03. (vi) Take necessary action to keep the loco safe. (vii) Take necessary action to prevent Loco / Vehicles / Wagons from rolling down. (viii) Send information through quickest means to Control Office and SMs on either side of the block section. For this purpose, a. Walkie-Talkie communication provided with stations should immediately be used. b. Otherwise field telephone should be used c. If a train comes on the other line which is not blocked, the same should be stopped and information sent through the Loco Pilot. d. Assistant Loco Pilot or Assistant guard may be sent to the next station to convey information of the accident if a,b,c fail. e. If all of the above fail, one of the railway staff on duty on the train should be sent on foot to the nearest station. f. Render all possible assistance to the guard. g. Preserve all clues and evidences regarding probable cause of the accident and ensure that these do not get disturbed.
4.	Locating the nearest level Crossing Gate	The train loco pilot is the best and fastest source of information regarding location of the nearest manned level crossing gate in either direction. The crew will intimate the IAT incharge about the gate location whenever asked.
5.	Duties of LI	(i) Reach the site of accident by quickest available means. (ii) Ensure that the obstructed line is protected.

		(iii) All of them should work as per directions of OIC site. (iv) Joint measurement and preservation of clues and evidences
6.	Action to be taken by Electrical (TRO)	(i) TLC, on getting first information, will collect brief details about the accident. (ii) TLC (Unusual) will relay this information to CTLC, DEE/TRO/Bhopal and Sr.DEE/TRO/Bhopal. (iii) If information is received from sources other than Traffic dept., TLC will inform immediately to Dy. Punctuality for appropriate action / protection. (iv) TLC will immediately make the following arrangements - Loco Inspector to be directed to site with SPM Keys & Breathalyzer & laptop to download data at site. - Maintenance staff from nearest outposts to be moved, with tools, if loco is involved. - TLC/Crew controller will enquire that required no. of crews to be available to run the train in case of diversion, if any. - A dual brake loco with crew to be kept ready from nearest sources. - As per requirement nearest shed to immediately arrange maintenance staff and keep them ready to move with tool. - Vehicle with driver to be kept ready for moving any man and material. (v) Sr.DEE(TRO)/DEE/TRO and CTLC will arrive in control. (vi) TLC will advise LP / LI for freezing SPM memory and collect information regarding Km no. , exact location and condition of loco & OHE, assistance required. (vii) The CTLC/DEE/TRO will take full control of situation in TLC and for recording logging / details in accident register and will advise HQ office accordingly. DEE/TRO will co-ordinate with shed/lobby/other control for all assistance and decisions. (viii) Required numbers of suitable goods locos and loco pilots should be arranged as spare for operating coaching services. (xi) Updated list of CUG Mobile phones provided to TRO staff should be available in TLC Office.

5. ENGINEERING DEPARTMENT

Mobilization of officers and staff:

On receipt of information from Control Office shall advise the following in order:

i.	Sectional ADEN
ii.	Sectional incharge SSE/P.Way
iii.	Sectional Sr.DEN /DEN
iv.	Sr.DEN/Co
v.	ADEN / TM
vi.	HQ Engg. Control, JBP
vii.	Dy.CE/ Bridge line, HQ, JBP & BPL.
viii.	SSE/ P.way / (Yard)ET,(North)BPL, (North)BINA,GUNA incharge of engineering material in ART.

Sectional ADEN and Sectional SSE/P.Way will proceed by first available means. Sectional. Sr.DEN/DEN will proceed to the site of accident by the ART or first available means. In the absence of Sectional Sr.DEN, the following alternative officer will proceed:

Sectional Sr.DEN Alternative Officer

Sr DEN/Co	Sr DEN/S
Sr.DEN/S	Sr.DEN/C
Sr.DEN/C	Sr.DEN/S
DEN/N	DEN/W
DEN/W	DEN/N

In the case of Sectional ADEN on leave, the alternative ADEN should move as per following arrangement:

Sectional ADEN Alternative Officer

HD	ET
ET	HD
BPL	BHS
BHS	BPL
BINA	GUNA
GUNA	BINA
SFY	SVPI
SVPI	SFY
W/ET	W/BPL
W/BPL	W/ET
TM/BPL	W/BPL

Sectional ADEN before moving to the site of accident shall also order his SSE/ SE/Work to proceed to site if there is any possibility of involvement of Bridge or some other structure near site of accident.

Engineering Control:

Sr.DEN/CO shall move to Divisional Engg. Control. ADEN / TM must reach urgently in any case and manage Engineering Control. Other Sr.DENs/ DENs will work in engineering control as nominated by Sr.DEN/ Co by rotation, if required. The senior most officers available in the Div. headquarter will be coordinator for all the activities. In case Sr.DEN/ Co not available Sr.DEN/S will look after his work.

In case of Sr.DEN/ S not available Sr.DEN/ C will look after.

Mobilization of work force and P. Way material:**Accident in the Division-**

The Sectional ADEN, SSE/P. Way after reaching the site of accident shall ascertain the extent of damage for P.Way track including turnouts, bridges etc. & relay the position to Sr.DEN/Co in Engg. Control. After accessing the position of P.way material in the division, Sectional Sr.DEN/DEN shall finally place his net requirement to Sr.DEN/CO in Engg. Control.

The local available P.Way material shall be moved by road after hiring transport.

Sectional Sr.DEN/DEN shall also place his requisition for withdrawal of money from station earning for emergent requirement at site such T & P required, hiring of transport etc. through Engg Control.

Sr. DEN/Co shall order the movement of Engg/ART containing P. Way material to site.

Sr. DOM shall be asked to move the same immediately.

In case the requirement of material is not met out within the division, HQ(CTE) shall be advised for arranging the same.

SSE(PW)/Depot Bhopal shall be available in Central depot for issuing P.Way material as per instruction of Sr. DEN / Co / BPL & DEN(HQ) / BPL.

WORK FORCE:

Sectional ADEN shall order movement of labour of his sub division. Normally 100 men are mobilized within one sub division. They will be moved either by truck or train, which ever is first available. Sectional Sr.DEN will relay the requirement of additional work force to Sr.DEN/Co. 50 men, 01 blacksmith with one supervisor shall move to the site from each subdivision by road or rail as directed by Sr.DEN/Co. Labour special shall be organized by Sr.DOM after discussion with Sr.DEN/Co. One SSE/Work or SSE/P.Way will be deputed at site to keep details of labour & Supervisors reaching at site & distributing work as per instructions of Sectional Sr.DEN/DEN. □ Any assistance required over and above the division, shall be flashed to Engg. Control, HQ JBP for seeking the help from adjoining divisions by the Sr.DEN/Co. In case of restoration time likely to be more than 12 hours. Sr.DEN/Co shall arrange relief for officers & supervisors.

ACCIDENT IN ADJOINING DIVISION:

Sr.DEN/Co/BPL, on receipt of information from HQ shall order the movement of labour & supervisors as asked from nearby subdivisions @ 50men, 01 blacksmith & 01 supervisor from one sub division. On receipt of instructions from PCE /WCR or CTE/ WCR Sr.DEN/Co shall order one Sr.DEN/DEN and one ADEN to move with staff to the location as jointly decided with the Sr.DEN(CO) of adjacent division.

ENGINEERING MATERIALS on ART

The Engineering material as per prescribed scale loaded in Engg. ET/BPL/BINA/GUNA will be maintained by SSE/P.Way /(Yard)ET/(North)BPL/(North)BINA/GUNA and shall be checked by ADEN(M)/ET/BPL /BINA/GUNA regularly.

These wagons will be moved as per order of Sr.DEN/Co. After every move, material used/ issued will be made up by SSE/P.Way/(Yard)ET/(North)BPL/(North)BINA/GUNA and ensured by ADEN(M)/ET/BPL/BINA/GUNA.

Contingency plan:

A booklet on contingency plan is available with CMTS containing telephone numbers of all agencies supplying tent-age, water supply, and earth moving machineries etc in different locations. These should be referred to Officer in Control. Sectional SSE/Work shall exclusively responsible for setting up of these facilities. He shall move with sufficient staff for setting up of these facilities. Temporary kitchen in tent/ shamiyanas is to be set up so that catering unit arranged by Commercial Department can make use of it to provide hygienic food. Tent-age, shamiyanas, chairs etc shall be arranged for the passengers, injured as per requirement.

SR.DEN/DEN in Engineering Control will request the concerned authority (Army/State Govt. deptt.) for bulldozer, earthmoving machinery etc. in the area if required.

Drawing sketch of site of accident:

One SSE/Work be nominated exclusively for preparing of sketch of site of accident. He shall work under the direction of Sectional ADEN/ site-in charge ADEN. He shall also preserve clues/ evidences, if any, at the site of accident leading to the cause of accident.

CHECK LIST FOR ENGINEERING CONTROL**1. Information of accident given to:**

ADEN	SSE/P.Way	Sectional Sr.DEN	ADEN / TM	Sr.DEN/Co	HQ Control
------	-----------	------------------	-----------	-----------	------------

- Information regarding location of accident, train involved etc.
- Information of any special feature involved such as Bridge, Level crossing, buildings etc.
- Information of accident along with available details given to HQ Engg. Control.
- Information on track materials/T&P/P.Way staff required for restoration collected from site through Sectional ADEN/ Sectional Sr.DEN/DEN.

Rails	Sleeper Fitting	Fitting	Pts & Crossings	T&P	Supervisors	Blacksmith	Trackmen
-------	-----------------	---------	-----------------	-----	-------------	------------	----------

3. H.Q. informed about staff/Materials assistance required from HQ/ other divisions:

Item				
Qty				

4. Movement of ART (P.Way Van/BFRs) within division & from other divisions.

Division	ART	Moved at	Reached Site
----------	-----	----------	--------------

5. Information of Officers/ Staff moved to site. (Names & Designation)

Officers	SSE/PWs	SSE /BRs	SSE/Ws	Staff
----------	---------	----------	--------	-------

CHECK LIST FOR SITE ENGINEERING INCHARGE

- Detailed survey of site of accident done.
- Assessment of track damage/P.Way material/Manpower/Machinery required for restoration & relaying the same to Engg Control
- Site office/Tenting/Shelter put up at site as per plan.
- Water arrangement/Stay arrangement made for staff.
- Site Sketch Preparation.
- Joint observations/Track reading/wagon/Coach reading etc.
- Lighting arrangement for night work.
- Proper unloading of materials at site.
- Duties assigned to officers/Supervisors/Staff.
- Tent Parties/Earth moving matching agencies/Water agencies contacted & informed for action.
- Temp. Kitchen set up at site.

6. MECHANICAL DEPARTMENT

Organization:

Mechanical Department has three branch officers, Sr.DME (Coaching & Co), Sr.DME (Operation & Freight) at Bhopal, and Sr. DME (Diesel) at Itarsi. Sr.DME(O&F) is the nodal officer for all break down trains in BPL division, although ART/ET is under administrative control of Sr.DME(Diesel)/ET.

There are 03 ARMEs: Itarsi, Bhopal and Bina, 01 SPARME at Guna, 03 ARTs at Itarsi, Bhopal and Bina, and 02 140T Cranes at Itarsi and Bina. The officer in-charge of these cranes are ADME/BINA for Bina BDT Crane and ADME/DSL/ET for Itarsi BDT Crane (as nominated by Sr.DME/DSL/ET).

Mobilization of Officers and Staff:

1. Being the nodal officer of break down trains, Sr.DME (Operation and Freight) will proceed to the site of accident by ARME/ART or by the first available means in case of train accidents. Alternatively, Sr.DME (Coaching & Co.) will proceed to the site.
2. In case of ordering of 140 T Crane of ET, Sr. DME (Diesel)/ET will move with the ART or by the first available means.
3. ADMEs will move along with train or suitable means with the following trains:

ADME/BPL	ART/BPL, ARMV/BPL
ADME/ET	ARMV/ET, ART/ET
ADME/DSL/ET	ART/ET, 140 T Crane/ET
ADME/BINA	ARMV/BIN, ART/BIN, 140 T Crane/BIN, SPART/GUNA

4. SSE-in-Charge of the break down trains and essential number of nominated staff will move along with breakdown trains. After sounding of the hooter/alarm or message from control, they will quickly reach the breakdown trains so that the rescue and relief work can be performed without any avoidable delay.
5. Standby nominated staff for ART/ARME will remain ready to move to the site as per requirement of the site based on status of rescue & restoration work. SSE-in-Charge of the break down trains at site will be in contact with the on-duty SSE of station/depot to call standby staff by suitable means.
6. Movements of ADMEs, supervisors and staff shall be governed by the instructions of Sr. DME (Operation & Freight) or the concerned officers.

CCWC (C&W Control) and CPOR (Diesel Loco Control)

Sr.DME (Coaching and Co) or alternative officer (in his absence) will remain in divisional control room and will lead both CPCOR and CCWC. He will coordinate with departments/controls for successful execution of all the activities of site through CPCOR and CCWC as desired by Disaster Control Room, such as running of special trains, diversions, and other relief trains. The officer shall also be assisted by nominated DCWI and CLI (HQ). CPCOR and CCWC shall remain in contact and coordinate with HQ control for proper communication of the information related relief, rescue and restoration work from site.

Site Offices, Tent, Shelters & Drinking Water for Railway Staff:

SSE-in-Charge of breakdown train shall be exclusively responsible for setting up of site office, tent, shelters and drinking water facilities (for railway staff) these facilities. He will

depute the sufficient staff for setting up of these facilities. Each ART has a small meeting/conference office in tool van, which will be utilized for having important meetings and planning the relief work.

Photography and Video Recording:

SSE-in-Charge of breakdown train shall ensure photography and video recording of the accident site, relief, rescue and restoration work. For this, he will ensure proper functioning of digital cameras, their batteries and memory cards.

Break Down Trains Details

No.	Train	Class/Scale	Location	Exit Type	Crane Make	HRE Make	HRD Make	Plasma Cutting Make	Cold Cutting Make
1	ART BPL	B-Class	Behind Washing Siding & IOH Shed, Bhopal	SINGLE Towards BIN	AN	MFD	LUKAS	Electro plasma, on board DG operation	HOLMATRO

SITE MANAGEMENT PLAN

DUTIES OF MECHANICAL DEPARTMENT:

Sr.DME-

- On getting information of the accident, he shall immediately proceed to site and
- Ensure the ART/ARME starts for site within the stipulated time.
- Supervise Rescue & Relief operations
- Co-ordinate with other departments and help the passengers.

ADME-

- ADME shall move along with staff by ART.
- He will instruct and guide to the teams for Rescue & Restoration work.

CCWC- will ensure following instructions.

- Advising first information to SrDME immediately and following the instructions getting from him.
- He will assist mechanical officer present in control room as well as officer at site.
- He will also liaison with the site activities/restoration work and movement of ART/ARME/CRANE.
- Necessary liaison with the CHC(P)

CPCOR- will ensure following instructions in consultation with CHC(P):-

- After ARME/ART have been ordered, PCOR should locate DSL power for these ARME/ART.
- First available DSL power should be nominated, even by temporarily detaching from Mail/Exp. Trains on run, if necessary.
- In case DSL power is not available on the division, then it should be requisitioned from adjoining division.

GROUPS & TEAMS-

Different groups and teams will be formed for discharging the dual responsibilities of the Mechanical department. Each group should consist of 3-5 teams and each team should consist of 4-6 members, depending upon requirement.

Sr.SUPERVISOR-

One Sr. Supervisor should be in charge of each team conducting 'search and rescue' at the site. All such 'search and rescue' groups at each end of the accident site, would function under directions of an AME. Similarly, one Sr. Supervisor should be in charge of each team working on 'off tracking of coaches' at the site. All such 'off tracking of coaches' groups at each end of the accident site, would function under directions of another AME. The second AME concerned would also be in charge of the crane at that end.

- i) Take precautions in electrified section that power supply is switched off before commencing rescue/relief work.

- ii) Use necessary safety equipments like hand gloves, helmet etc.
- iii) If spillage of inflammable substances is suspected, then only cold cutting equipment should be used.
- iv) In case of suspected sabotage, ensure minimum interference to clues. Safe lives and extricate passengers after video and digital photographs have been taken.
- v) Be cautious in using rescue tools like gas cutters, cold cutters, spreaders, hydraulic jacks etc. so that passengers trapped inside or buried under the debris do not get hurt.
- vi) Ensure marshalling of ART according to site requirement before it is sent into the accident involved block section.
- vii) For efficient extrication of entrapped passengers take assistance of medical/ engineering departments.
- viii) Each team will join up with Medical teams who would also be involved in extracting dead and injured from coaches.
- ix) Maximum number of coaches should be tackled simultaneously, except those that have climbed on top or have telescoped into one another.
- x) Road cranes of sufficient capacity should be arranged so that these cranes can start working from the centre while the 140 T cranes can continue working from either end.
- xi) Trucks should be arranged for carrying BD equipment near to accident involved coaches, so that number of coaches can be simultaneously approached and more work centers can be opened up.
- xii) Examine unaffected or re-railed rolling stock and certify their fitness for further movement

ART Staff-

- On getting information of the accident, they shall immediately report to ART incharge and Proceed to the site of accident in ART
- Assist in Rescue & Relief operations.
- Check the fitness of the stock which is moved from the accident site
- Plan for efficient movement of ART equipment to the site
- Ensure safe and efficient working of cranes, hydraulic re-railing equipment and other rescue devices.
- Ensure that the log/diary regarding restoration at the accident site is maintained properly.

ARME staff-

- ARME in charge will counsel all the nominated teams in train running position, regarding nature of accident and relief work to be carried out at accident site. He shall distribute ARME's staff for following main activities among 6 Rescue Teams as under:

1. A-Team

The team will apply Hydraulic rescue device and Power cold cutter on damaged/capsized coaches.

Team will develop suitable space on the coaches for entry of B-team for removing injured/dead passengers.

2. B-Team

On reaching ARME at accident site, the team shall ensure unloading of power cutter, ladders, gas cutting equipments if required, jacks and chain saw etc. The team will enter into the damaged/capsized coaches and remove injured dead with the help of stretchers.

3. C-Team

On reaching ARME at accident site, the team shall ensure unloading of medical items as per instructions of Doctor like stretchers, body bags & first aid boxes etc. The team will remove dead bodies for keeping in body bags and shift injured as well as dead in the tent at specified places.

4. D-Team

The team will be responsible for unloading of tents, chairs, tables, Umbrellas, garden umbrellas and install them at specified spots. The team will provide other required items also to the A&B teams, as and when required.

5. E-Team

During night, the team will unload, lighting equipments like, inflatable lighting tower, Halogen lamps, DG sets, Hand lamps & distribution boards etc. and responsible for providing lighting arrangement during relief and rescue. During day time, the team will assist to C-Team in first aid activities. The barrier tap will also be provided for covering of site of accident.

6. F-Team

The team will arrange tea, coffee and drinking water to the injured and suffered passengers at accident site. Team will perform other duties also as per instructions of ARME in charge.

7. MEDICAL DEPARTMENT

ACTION PLAN OF MEDICAL DEPARTMENT FOR TRAIN ACCIDENT

The following action plan is to be followed at DRH, Bhopal during train accident where casualties are anticipated.

- ❖ Control should inform casualty of Divisional Railway hospital and CMS as soon as ARMV is ordered.
- ❖ Hooter at Divisional Railway hospital, Nishatpura to be sounded.
- ❖ ARMV departure time is fifteen minutes/ 15 minutes after receiving information.
- Meaning of Hooters - Duration of hooters 45 seconds each
- TWO HOOTERS : Derailment of Goods train within the jurisdiction Break down required
- THREE HOOTERS : Derailment of Goods train out of the jurisdiction Break down required
- FOUR HOOTERS : **Human body involved in accident within the Jurisdiction Medical van required**
- FIVE HOOTERS : **Human body involved in accident out of the Jurisdiction Medical van required**
- ONE LONG HOOTER OF ONE MINUTE IS CANCELLATION HOOTER

The medical department is divided into three teams to cope with the Railway Accident.

Team A -1 Doctor On-duty casualty with team of doctors and paramedical staff to move by ARME

Team A-2 Team of Doctors and paramedics to move by road if required

Team B Remaining Doctors and paramedics will stay in Divisional Railway Hospital Casualty to establish emergency cell and manage hospital working and emergencies.

DUTIES OF THE DOCTOR AND PARAMEDICS ON CASUALTY DUTY

- On receipt of the Accident information from control room the doctor and nursing staff/ dresser on casualty duty will note down the source and time of the information/ message received. The train number, the site of accident and the section involved. He/ She will first of all inform CMS , ACMS (Admin) and next senior most doctor.
- On receiving accident information doctors and paramedical staff will reach ARMV immediately.
- Nursing staff/dresser on casualty duty will ring the emergency Bell of casualty to alarm all staff in the hospital.
- On duty casualty doctor along with paramedic staff will rush to ARMV by ambulance / other available vehicle.
- On duty casualty Dresser/ Hospital attendant will carry the ARMV keys kept at Casualty.
- On duty station health inspector/chief health inspector will carry the second ARMV keys kept at Dy.SS office and reach ARMV.
- ICU sister will stay in hospital and will inform all doctors, ANO and Matron I/C.
- Doctor on second call along with ICU sister will take charge of casualty and Divisional Railway Hospital.

INFORMATION FLOW

- ICU sister will inform all Doctors, ANO and Matron I/C.
- ANO will inform and arrange nursing staff, Chief Pharmacist, Chief Health Inspector, Chief Office superintendent.
- Chief Matron will inform dressers, Hospital attendants and safaiwalas.
- Chief Pharmacist will inform their subordinates.
- Chief Health Inspectors will inform their subordinates.
- Chief Office Superintendent will inform their subordinates and staff of X-ray, Laboratory and Physiotherapy.

The functions of all the teams are as follows

DUTIES OF TEAM A-1

- Team A-1 will report ARME within 15 minutes.
- The team will proceed to the accident site by ARME.
- En-route the leader of Team A-1 will nominate doctors and paramedical staff for the duties to be performed at the accident site. If required he will also contact en-route health unit doctor and other doctors to join ARME along with his team.
- To conduct medical examination including Breath analyzer Test of the Driver/Asst Driver and Guard of the train(s) involved.
- To take care of dead bodies till their final disposal with the help of Civil Authorities/GRP
- To provide first aid to the injured at the accident site and arrange for their transportation to the nearby hospitals.
- To visit nearby hospitals and gather information regarding the injured persons admitted there.
- To prepare a preliminary list of Dead/Injured persons (grievous or simple) to be prepared in triplicate. The list will bear the date and time and will have the following columns. Sr No. Name, Father's/Husband's Name, Age, Sex, Address with telephone number if any, Ticket number, Ex and To, Details of injury, Nature of injury and remarks etc. In case of the number of dead and injured persons is large, only S.N. Name, Age, Sex, and nature of injury will be written as first hand information and suitable updating can be done later on.
- He will hand over the 1st copy of the same to the Sr most officer of the Commercial department available at the site, after putting his signature on it. The 2nd copy will be kept by the Nodal officer of Team A-1 as office copy and 3rd copy will be given to paramedical staff for getting multiple copies for further distribution. This list will be suitably revised/ updated on receipt of further information from all possible sources.

DUTIES OF TEAM A-2

- Team A-2 along with paramedical staff with POMKA will move to accident site by road.
- They will remain in contact with leader of other teams and on instructions from leader of A-1 team will be deputed to various hospitals to collect information about the injured persons admitted there. They will monitor the progress and coordinate with the hospital doctors in providing suitable medical aid and arrange for the transportation of the injured to other better hospital on a need basis.

MANAGEMENT OF DEAD BODIES

- He/she will note down the detailed particulars of the dead bodies like identification marks, and arrange to shift them to a nearby nominated place away from the track/ Bogies with the help of St John Ambulance members, Bharat scouts and Guide volunteers, Civil Defense and other volunteers available at the site.
- The bodies to be covered by shrouds and labeled on the chest. The labeling to be done by marker pen and should indicate date, dead body S.N, Name, Age, Sex etc. In case of unknown dead bodies – unknown-1, Unknown-2 etc should be mentioned against the name column and estimated age should be mentioned as per appearance and identification marks to be noted.
- The dead body will be kept inside a Plastic body bag with Zip; and the information about the dead body will also be mentioned thereon.
- The dead bodies will then be handed over to the civil authorities/ GRP for medico-legal procedure and final disposal.

MANAGEMENT OF INJURED ADMITTED IN VARIOUS HOSPITALS

- Before leaving the accident site doctor will note down the mobile phone number of the Nodal officer.
- In case railway vehicle/ Ambulance is not available they will hire private road vehicles to visit various hospitals.
- On reaching the hospital they will prepare a list of injured/dead and relay the same to the Nodal Officer.
- They will monitor the progress of the injured persons and arrange for their transportation to bigger hospitals with better facilities on a need basis.
- They will coordinate with the doctors of the respective hospitals in providing proper treatment and settlement of the bills at the time of discharge.
- They will also coordinate with the officials of Commercial/ Personnel department for arranging ex-gratia payment to the accident victims.

MANAGEMENT OF RESCUE OPERATION

- They will provide preliminary treatment to the injured.
- They will pass on the detailed information about the injured persons to the team leader for preparing the list of injured persons.
- They will arrange to transport the injured persons to the nearby Railway/Govt/Private Hospitals.
- A detailed search operation will be conducted by them at the accident site to look for any injured persons.

DUTIES OF TEAM ‘B’

- They will establish emergency cell in the casualty or CMS chamber of the Divisional Railway Hospital where Railway telephone, P&T telephone, Fax machine & computer is available to look into section wise data base of medical facilities available along the track.
- They will ensure relief arrangements for the staff at accident site.
- They will communicate with two adjacent Divisions (including divisions of other zones) to send Medical teams one from each end if needed.

- They will contact local hospitals (Railway/Govt/Private) near the accident site to be in readiness to provide Medical treatment to the injured persons.
- They will contact and arrange to send more medical teams, SJAB members, BS &G volunteers, Civil defense members and other Railway/non railway volunteers to the accident site on a need basis.
- They will establish close communication with the divisional control and the Nodal officers at the accident site and leader of the Team A-2 for regular exchange of information.
- They will keep the Divisional hospital in readiness including operation theatre to receive and provide medical treatment to the injured persons. They will also intimate the nearby Govt /Private hospitals and blood bank for this purpose.
- They will arrange to provide foldable coffin boxes/ Dry ice/body bags to the accident site on receipt of requisition from the accident site.

8. Operating Department

DISASTER RESPONSE – INSTANT ACTION TEAM

Duties of Guards:

Detailed duty list of Guard are laid down in the Accident Manual of West Central Railway. Some of the more important ones are enumerated below: -

Guard:

- (i) Note the time of the accident and the location.
- (ii) Switch on the Amber Light, if provided, in Flashing Tail Lamp, in the rear of brake van.
- (iii) Inform Driver on walkie-talkie set.
- (iv) Inform Station Master on Walkie-talkie set, if possible.
- (v) Protect adjacent line/lines if required and the line on which the accident has taken place as per G&SR.
- (vi) Secure the train and prevent escaping of vehicles.
- (vii) Make a quick survey of magnitude of accident and roughly assess casualty, damage and assistance required.
- (viii) Send information through quickest means to Control Office and SMs on either side of the block section. For this purpose:-
 - (a). CUG Mobiles/ Walkie-talkie, communication provided with stations should immediately be used.
 - (b) Otherwise, field telephone should be used.
 - (c) If a train comes on the other line, which is not blocked, the same should be stopped and information sent through the driver.
 - (d) Assistant driver or Assistant guard may be sent to the next station to convey information of the accident.
 - (e) If all of the above fail, one of the railway staff on duty on the train should be sent on foot to the nearest station.
- (ix) Utilize Emergency Train Lighting box to facilitate medical aid during night hours.
- (x) Save lives and render First Aid.
- (xi) Call for Doctors and seek their assistance.
- (xii) Seek assistance of railway staff and other volunteers from train to rescue injured or entrapped passengers.
- (xiii) Direct railway staff and other volunteers from train for attending to injured.
- (xiv) Ensure that railway staff constantly man field telephone.
- (xv) Arrange protection of “passengers” belongings and railway property with the help of railway staff, volunteers on train, RPF and GRP.
- (xvi) Stop running trains on adjacent line and utilize resources on that train.
- (xvii) Control/Extinguish fire by using fire extinguishers.
- (xviii) In electrified section if OHE is affected, take steps to switch off OHE supply.
- (xix) Arrange for transportation of injured to hospital.
- (xx) Record evidence or statements, if any, given by passengers.
- (xxi) Preserve all clues and evidences regarding probable cause of the accident and ensure that these do not get disturbed.
- (xxii) Maintain a Log of activities. Do not leave the spot unless a competent authority relieves.

DISASTER RESPONSE – FIRST RESPONDERS

Duties of First Responders – Railway Staff:

1. Gateman:

- (i) Keep gate closed if the train has not cleared the gate.
- (ii) Take necessary steps to protect the Gate if required
- (iii) On double/multiple line section stop any other train approaching the Accident area by showing danger hand signal.
- (iv) Arrange to inform SM immediately.

- (v) Don't meddle with Interlocking.
- (vi) Avail services of road vehicles waiting or passing through LC Gate.
- (vii) Send message to nearby village, informing them regarding the accident.
- (viii) Collect men and material available nearby and direct them to site.
- (xi) Do not leave his gate unless other gateman has taken charge of it.

2. Cabin Man:

- (i) In case of an accident he shall put back the related signals to 'ON' position immediately and put stop collars on the relevant points.
- (ii) Reverse the points against the train involved in the accident.
- (iii) Should not tamper with the interlocking system.
- (iv) Preserve clues and evidences if any. He shall keep readily available all the cabin records and do not tamper the entries made in Train passing records.
- (v) He shall be in close contact with SM/ASM on duty and strictly obey the orders/instructions.
- (vi) He shall not leave the cabin without his reliever.

3. Pointsman :

- (i) In case of an accident, he shall be in close contact to follow the instructions of In charge SM or On duty SMs/ASMs.
- (ii) Help/assist the Passengers in every rescue & relief operation.
- (iii) If the train involved in an accident caught fire, he shall first ring the bell continuously to inform 'ON' & 'OFF' duty staff and then use Fire Extinguishers, water buckets, sand buckets provided at the station to extinguish the fire.

4. Station Manager In-charge :

- (i) He shall quickly & promptly convey all type of information to adjoining stations and Section Control.
- (ii) He shall arrange protection of traffic and arrange to preserve the clues/evidences of accident (If Any).
- (iii) He shall call for the 'On' duty & 'OFF' duty staff at the site of all departments including RPF & GRP Staff.
- (iv) Communication & co-ordination with civil authorities, NGO Representatives/Volunteers for possible relief assistance.
- (v) Call for assistances for medical aspects from civil/private doctors and Army medical hospitals. Mobilise local medical team and injured passengers to hospitals. Quickly transport of ARME Scale II equipments.
- (vi) Passenger assistance : Arrange drinking water beverages and refreshment free of cost either from refreshment room and local resources. Open emergency counter and display necessary information regarding dead/injured passengers and convey it. Make frequent announcement about diversion, cancellation and regulation of train services and arrange for refund of fares as per extent rules.
- (vii) Transport assistance : Arrange transporting injured passengers to nearest hospitals apart from tractors, trolleys, Trucks, Buses passing on the Highways/nearby can be utilized or by hiring road vehicles.
- (viii) Security assistance : Arrange RPF/GRP/State Police to provide security to passengers, their belongings and Railway Properties. They should also be asked to assist in rescue and relief work.
- (ix) Communication Assistance: Direct Passengers to PCO booths available nearby and make available STD Phone to relatives of dead/injured.
- (x) Sending manpower: Proceed to site of the accident by quickest means with trolleys, coolies, lamps, vendors and any other equipment that is considered necessary.
- (xi) Preservation of clues and evidences: Secure records related to accident in the Station /Cabin, Seal slides, levers, knobs and Relay room, if accident takes place within the Station limit.

- (xii) Protection : Protect adjacent lines then protect the same line on either side . Note the position of points etc., and clamp the points against the line on which the train is affected. Put " Line Blocked " lever collar in cabin/SM's slide control from where the lever is operated.
- (xiii) He shall not leave the site of accident till the permitted by the competent Authority.

5. Station Master/Assistant Station Master :

- (i) Quickly & promptly convey all type of information to adjoining stations and section controller.
- (ii) Arrange protection of traffic by keeping relative signals at 'ON' position and also arrange to preserve the clues/evidences of accident.
- (iii) Prepare the relevant Authority to send the first train on occupied section and nominate one Pointsman to pilot the train/vehicle.
- (iv) He shall call for the 'On' duty & 'OFF' duty staff at the site of all departments including RPF & GRP Staff.
- (v) Communication with civil authorities, Village, Town, Cities, NGO Representatives/Volunteers for possible relief assistance.
- (vi) Call for assistances for medical aspects from civil/private doctors and Army medical hospitals. Mobilise local medical team and injured passengers to hospitals. Quickly transport of ARME Scale II equipments.
- (vii) Passenger assistance : Arrange drinking water beverages and refreshment free of cost either from refreshment room and local resources. Open emergency counter and display necessary information regarding dead/injured passengers and convey it. Make frequent announcement about diversion, cancellation and regulation of train services and arrange for refund of fares as per extent rules.
- (viii) Transport assistance : Arrange transporting injured passengers to nearest hospitals apart from tractors, trolleys, Trucks, Buses passing on the Highways/nearby can be utilized or by hiring road vehicles.
- (ix) Security assistance : Arrange RPF/GRP/State Police to provide security to passengers, their belongings and Railway Properties. They should also be asked to assist in rescue and relief work.
- (x) Communication Assistance : Direct Passengers to PCO booths available nearby and issue free telegram and make available STD Phone to relatives of dead/injured.
- (xi) Sending manpower : Proceed to site of the accident by quickest means with trolleys, coolies, lamps, vendors and any other equipment that is considered necessary.
- (xii) Preservation of clues and evidences: Secure records related to accident in the Station /Cabin, Seal slides, levers, knobs and Relay room, if accident takes place within the Station limit.
- (xiii) Protection : Protect adjacent lines then protect the same line on either side . Note the position of points etc. and clamp the points against the line on which the train is affected. Put " Line Blocked" lever collar in cabin/ SM's slide control from where the lever is operated.
- (xiv) He shall not leave the site of accident till the order of competent authority.
- (xv) He shall obey the orders given by higher authorities from time to time.
- (xvi) work as per the instructions laid down in G & SR, Accident Manual and SWR.

6. Station Master at Adjoining Station:

(a) Conveying of information:

- (i) Arrange protection of traffic by keeping all signals at ON position.
- (ii) Report the accident to Station Master at the other end. He should be asked to call all off duty staff at his station and send them to the accident site.
- (iii) Report the accident to Section Controller.
- (iv) Control to be advised regarding –
 - Time and nature of accident
 - Brief description of accident.

- Adjacent lines are clear or not.
- Damage to rolling stock.
- Damage to track in terms of telegraph posts.
- OHE masts damaged or not, and extent of damage.
- Approximate number of dead and injured (grievous, simple) obtained from the TS/TTEs.

(v) Following functionaries should be advised regarding the accident:

- All off duty railway staff posted at that station.
 - SS of Junction stations at either end.
 - TI, MVI
 - P.Way Supervisors – SSE/JE etc.
 - TRD Supervisors – SSE/JE etc.
 - C&W Supervisors – SSE/JE etc.
 - S&T Supervisors – SSE/JE etc.
 - SI/RPF, SHO/GRP.
 - Nearest Fire Station.
- (vi) Inform civil authorities, village/town/city representatives and volunteers for possible relief assistance.
- (vii) Supervisory SM of the nearest station shall proceed to accident site.

(b) Medical assistance:

- (i) Call for assistance from local Doctors, St.JAB, Civil and Army Hospitals, Civil defence, Scouts and guides or any such organisation.
- (ii) Arrange adequate number of First Aid boxes and stretchers.
- (iii) Mobilize local medical team and send it to site to render First Aid to the injured.
- (iv) Quickly transport ARME Scale – II equipment to the site of the accident.

(c) Passenger assistance:

- (i) Arrange drinking water, beverages and refreshments, either from Refreshment Room or local sources.
- (ii) Supply beverages and refreshments free of cost to stranded passengers.
- (iii) Open emergency counter and display necessary information.
- (iv) Obtain reservation charts and display it.
- (v) Collect information on dead/injured and convey it whenever asked for.
- (vi) Make frequent announcements about diversion, cancellation, and regulation of train services.
- (vii) Arrange for refund of fares as per extant rules.
- (viii) Help the passengers with their luggage.

(d) Transport assistance:

- (i) Arrange for transport from local resources, if available, for transporting injured passengers to nearest hospitals by fastest possible means.
- (ii) For this purpose, apart from tractor trolleys, even trucks passing on the highway can be utilised.
- (iii) Stranded passengers to be transported from the accident spot by arranging transshipment either by train or by hiring road vehicles.

(e) Security assistance:

- (i) Advise RPF/GRP/State Police to provide security to passengers, their belongings and railway property.
- (ii) They should also be asked to assist in rescue and relief work.

(f) Communication Assistance:

- (i) Direct passengers to PCO booths available nearby.
- (ii) Issue free telegrams and make available STD phone/ mobile phone to relatives of dead/injured.

(g) Sending manpower for site:

- (i) Proceed to site of the accident by quickest means with trolleys, coolies, lamps, vendors and any other equipment that is considered necessary.
- (ii) Till relieved by a Traffic Inspector or Divisional Officers, be in charge of site and carryout rescue/relief operations.

(h) Preservation of clues and evidences:

- (i) TI/SM first reaching the site shall take action to preserve clues and evidences.
- (ii) Secure records related to accident in the Station/Cabin.
- (iii) Seal slides, levers, knobs and Relay room, if accident takes place within the Station limit.

3. Duties of TI:

(a) **Rushing to accident site with men and material:**

- (i) Before leaving for the site of accident organise maximum number of men to go to the accident site along with their equipment.
- (ii) Reach the site of accident by quickest available means.

(b) **Rescue and relief:**

- (i) Ensure that the obstructed line is protected.
- (ii) Direct all staff working under them to assist in rescue and relief work.
- (iii) All of them should work as per directions of Site Officer.
- (iv) Assess casualties and arrange to render First Aid.
- (v) Shift injured to nearest hospital.

(c) **Joint measurements and preservation of clues and evidences:**

(i) **Collect and record all evidences relating to the accident such as:**

- Condition of track, with special reference to alignment, gauge, cross levels, super elevation, points of mount and drop and any sign of sabotage etc.
- Condition of Rolling stock with reference to Brake Power and braking gear.
- All marks on sleepers, rails, locomotives and vehicles etc. especially for preservation of clues.
- Position of derailed vehicles.
- Prima facie cause of accident.
- (ii) Seize and seal the Train Signal Register, Log book, Private Number Book, Line Admission Book, Relay Room key register, Disconnection memos, Speed Recorder Chart and other relevant records.
- (iii) Note down the position of panel switches, indication, block instrument, condition of relay room, status of data logger, etc.
- (iv) Condition of switches, ground connections, point locking, occupancy of track circuit, details of damage to out door signal/point gears should be noted down.
- (v) Seize and seal the Speed Recording Graph and all other registers and repair logbook of the locomotive.
- (vi) Record details of Brake Power and other aspects of Rolling stock as per Proforma.
- (vii) Joint measurements of rolling stock should be taken. Note down observations, measurements of Loco etc. at site. If it is not possible, arrange for taking the reading at shed.
- (viii) These can also be recorded on a video or digital camera subject to the availability.
- (ix) Details of all readings taken and position of all equipment noted should be jointly signed by supervisors of all 5 departments at accident site.
- (x) Obtain statement of staff involved in the accident.
- (xii) Help to prepare a final sketch indicating the position of track, with Respect to alignment, point of mount, point of drop, OHE mast, and point number etc.
- (xiii) Survey the situation, assess assistance required and issue message to Divisional Control Office.
- (xiv) Take charge of the situation pertaining to your own department and remain till Divisional officers arrive at the site.

SITE MANAGEMENT PLAN –II

Duties of Operating Department:

Immediately after getting the information,

- (i) All sectional TIs and Supervisory SM's should be directed to reach the accident site by first available means.
- (ii) Similarly, additional RG/LR staff from the section should be sent to stations on either side so that SMs can be free for going to accident site.
- (iii) Since considerable amount of shunting is required to be performed at adjoining stations, traffic supervisors should be sent at adjoining stations on each side.
- (iv) Ensure that special trains are sent into the accident affected block section according to the sequence.
- (v) Ensure proper marshalling of crane while proceeding to the accident spot in the block section, in consultation with Sr.DME/DME or Crane Incharge.
- (vi) Ensure that Engineering vans of the ART are placed nearest to the accident site. For this purpose, Engineering van/wagon should be placed closest to site of accident by sending it in pushing condition.
- (vii) Ensure prompt clearance of stranded passengers at the site in coordination with the Divisional Emergency Cell.
- (viii) Regarding running of special trains, keep in touch with Divisional Emergency Cell and give requirement from site.
- (ix) Co-ordination for movement of additional trains, etc. from adjoining division/Railways.

Role of Operating officers and supervisors

In case of any accident Sr.DOM/DOM will immediately attend the control office. DOM (Goods) will proceed to the site of accident. CHC & CHC (Cog.) will immediately attend the Controll office.

Operating Officers.

S.NO.	NAME OF THE OFFICER/ SR.SUPERVISOR	DESIGNATION	Mob.No.
01	Shri R.N. Meena	Sr.DOM	9752416900

SETTING UP OF EMERGENCY CELL

Emergency cell shall be opened in Divisional Control office immediately after receipt of the information about disaster. ADRM will be the overall in charge of the cell and will function as an Emergency Officer for the purpose of managing the relief and restoration operation.

The emergency cell will be manned by JAG Officers in shift duty round the clock. After the relief and rescue work is completed, winding up of the cell shall be decided by DRM.

Specific duties to be performed by Emergency Cell.

The Emergency Officer on duty will arrange for chronologically record of all information and instructions received from or given to site of accident and Head Quarters in log book.

REGULATION OF TRAINS

Operating department of Divisional office in consultation of HQ office will arrange regulation, diversion and termination of Passenger, Mail/Express as well as goods trains and will be advised to sister divisions.

Normally, emergency cell should not directly deal with the press and electronic media.

RELIEF AND RESCUE OPERATION :

Emergency cell at divisional office will monitor the movement of medical relief trains, accident relief train, breakdown cranes and labour and material specials to the site of accident.

In case, medical relief train, accident relief train and breakdown cranes are arranged from adjoining Railway or Division, the emergency cell will monitor their movement.

The requirement shall be requisitioned by the concerned officer of different department in emergency cell to the emergency officer or his nominated officers.

Arrangement of wagons for loading Engineering materials, for movement of labour and any other resources as required for the site of accident shall be made by the Engineering branch to the emergency officer and their movement to the site will be arranged by the emergency cell.

Similarly, on demand by Mechanical branch, ARTs and other breakdown material will be moved from the adjoining division/railway.

On demand by Medical branch by any special trains for movement of injured passengers, the same shall be arranged by Emergency cell. The Commercial branch will place demand of special trains for movement of relatives and survivors from and to the site of accident. When such movement is arranged, the commercial branch will advise public directly.

Assistance from Defence, Navy, State governments should be co-ordinated by the Emergency cell, where required.

DIVERSIONAL/CANCELLATION OF PASSENGER TRAINS :

Diversion/Cancellation and short termination of Passenger trains will be done by the emergency cell in consultation with headquarters office.

Running of passenger specials for carrying relatives to the site of accident are for carrying the survivors from the site of accident will be arranged and closely monitored by the Emergency Cell.

Movement of relief special trains for CRB/GM/DRM and other Branch officers and staff for the site of accident as required, should be arranged promptly and its running should be monitored closely.

ARRANGEMENT AT SITE :

In view of the requirement of shunting etc., the site and at adjoining stations, Traffic Inspectors should also be deployed round the clock in shifts at site and at adjoining stations, they will work in consultation with Emergency cell and officer-in charge at site.

10. Signal and Telecommunication Department

Duties of S&T Officers and Supervisors during Disaster

On Duty TCI/Test room

1. Immediately after getting information about any disaster, TCI / Test-room will first take preliminary information of location, nature of disaster, movement of ART/ARME, etc. then they will inform all concerned S&T officers & SSE / Tele / Test room.
2. TCI / Test room will ensure that nominated ART/ARME staff moves by ART/ARME. SSE / Tele / Test room should immediately reach Test room.
3. TCI / Test-room will inform to concerned S&T supervisors, to reach at site by first available means. After that they will collect the details of the disaster including involvement of S&T equipment, extent of damage, effect on Train operation etc. and will keep informing concerned S&T officials.
4. Separate register should be kept for “Disaster Management” in Test room and all developments with timing should be recorded in this register by on duty supervisor.
5. On duty supervisor in Test room shall coordinate with other departmental and divisional controls for assistance required and sharing information.
6. He will assist the field staff in testing of communication channels and in case of any communication failure, he will ensure that back up arrangement is in place immediately and fault is removed as soon as possible.

Sectional Staff (Telecom):

1. On getting the information about the disaster the concerned sectional supervisors will immediately move towards the site by first available means along with staff and tools.
2. Immediately on reaching the site the sectional supervisors will give information to Test room.
3. After reaching the site the telecom staff will immediately make arrangements for provision of emergency communication including portable emergency control phone and satellite phone. After providing these, the concerned staff will immediately inform Test-room.
4. Subsequently the telecom staff will also make necessary arrangements for provision of Railway and BSNL telephones at site. For this the BSNL telephone of the nearest station can be extended to the site or through Auto dialler.
5. The telecom staff should take necessary precaution for preserving all evidence and record joint observations of telecom gears with available operating, engineering, mechanical supervisors.
6. The gears affected by the disaster should immediately be suspended by the concerned supervisor and will be handed over for operation only after restoration and complete testing to avoid the possibility of any unsafe side failure.
7. There after the Telecom supervisors will assess the damage to Telecom equipment and prepare a list of material required for restoration. This list should be repeated to TCI / Test room.
8. The restoration work should be started immediately after taking joint observation with the material available at site.
9. The walkie talkie sets available in ART/ARME should be issued to the Railway staff at site as per request of concerned officers. Personal acknowledgement of the concerned staff/officer for each walkie talkie set should be taken in the register available in ART/ARME. It will be the personal responsibility of the concerned staff to return the set after restoration.
10. All supervisors and officers at site should keep on informing the control about the developments at site at frequent intervals.

On Duty SI/Control

1. Immediately after getting information about any disaster, SI/CTO will

first take preliminary information of location, nature of disaster, movement of ART/ARME, etc. then they will inform all concerned S&T officers SSE (Sig) Control.

2. SSE (Sig) Control should immediately reach Control office.
3. SI/CTO will inform to concerned S&T supervisors, to reach at site by first available means. After that they will collect the details of the disaster including involvement of S&T equipment, extent of damage, effect on Train operation etc. and will keep informing concerned S&T officials.
4. Separate register should be kept for “Disaster Management” in SI/CTO and all developments with timing should be recorded in this register by on duty supervisors.
5. SI/Data logger to be called immediately to control and data logger reports taken out.
6. On duty supervisor in SI/Control shall coordinate with other departmental and divisional controls for assistance required and sharing information.

Sectional Staff (Signaling):

1. On getting the information about the disaster the concerned sectional supervisors will immediately move towards the site by first available means along with staff and tools.
2. Immediately on reaching the site the sectional supervisor will give information to SI/Control.
3. Signaling staff should take necessary precautions for preserving all evidence immediately. With available operating, engineering, mechanical supervisors, joint observation of panel position, Block instrument position, Panel counter readings, site condition etc. should be taken by signaling supervisors immediately after reaching the site. Any and all unusual should be noted down in the joint observations. The operation of signaling gears should be done only after joint observations have been taken.
4. The gears affected by the disaster should immediately be suspended by the concerned supervisor and will be handed over for operation only after restoration and complete testing to avoid the possibility of any unsafe side failure.
5. There after the Signal supervisors will assess the damage to Signalling equipment and prepare a list of material required for restoration. This list should be repeated to SI Control.
6. The restoration work should be started immediately after taking joint observation with the material available at site.
7. All supervisors and officers at site should keep on informing the control about the developments at site at frequent intervals.

Nominated S&T Officers in Control Office:

1. The nominated officer in control office will arrange for the material required for restoration and will also make arrangements for transporting the material at site.
2. The nominated officer in Control office should keep on informing Sr.DSTE (Co), concerned Sr.DSTEs/DSTEs and Headquarters about the developments at site.
3. He will also ensure that all developments are recorded in the Disaster Management registers kept in SI/Control and Test room.
4. He will oversee the working of SI/Control and Test room and will provide necessary guidance to concerned control office & field staff.

Nominated S&T Officers at Site:

1. The sectional ADSTEs should immediately move to the site after getting information about the disaster.
2. They will also coordinate and ensure movement of concerned supervisors and staff to the site.
3. After reaching the site they will ensure recording of joint measurements at site and setting up of communication arrangements.
4. He will supervise the restoration work at site so as to restore the S&T gears in shortest possible time and with full safety.
5. All officers at site should keep on informing the control about the developments at site at frequent intervals.

रेलवे बोर्ड (RAILWAY BOARD)

New Delhi, Dated: 30.08.2017

Sub: Assistance of NDMA/NDRF to handle Railway related disasters.
Ref: Your office letter no. T/308/DM/2/2014/16 dated 16.08.2017.

Based on the above communication Railway Board had sort assistance from NDRF headquarters and motorboats were arranged from ninth battalion of NDRF. However it is to clarify that as per the prevailing instructions, DRM and CSO can directly seek assistance from the NDRF. These instructions were issued vide Railway Board letter no. 2003/Safety(DM)/6/3, dated 05.08.2010.

Para 5.2 of Disaster Management Plan of Ministry of Railway, issued in April 2016, indicates that DRMs/CSOs have been empowered to directly requisite the relevant NDRF battalion for relief and rescue operations depending upon the gravity of the situation so that their services could be made available expeditiously without any loss of time.

Board instructions in this regard may please be incorporated in the Disaster Management Plan of NF Railway and all concerned may please be advised accordingly.

Director Safety-III
Railway Board
